Winter Wheat Condition Maintained, but Acreage Shrinks Considerably.

GOVERNMENT REPORT DIVIDES OPINION

Local Shorts Bid May Corn Down and Are Passed as to the Intention of Long Interest.

OMAHA, May 11, 1904. The regulation break which is supposed to follow the government reports did not come this morning, but it is yet too early to say how the report will influence the market. A regulation is not a notice as to the result, it makes a comparison with the condition of the crop as it was in 1903, and in 1904, and in 1903 the crop was 1,000,000 bushels less than had been expected, a loss of 4 or 5 per cent being figured from the preceding report. The government report, however, is decidedly bullish when compared with the estimate for April of 2,000,000 bushels, for May, 1904, of 2,000,000 bushels, for 1903, 1,900,000 bushels, and for 1902, 1,800,000 bushels. Local Cash Grain Market. Corn men are wondering what the local interest which controls the cash corn in this market is. The local market is high and 1 cent over the white corn and several cars of No. 3 yellow corn were carried over for sale and ranged from 45c to 46c. The market received only 19 cars of wheat and 28 cars of oats. Receipts were 5 cars of wheat, 1 car of oats, and 1 car of corn. The market received only 19 cars of wheat and 28 cars of oats. CROPS HAVE AN UNFAVORABLE EFFECT

Proposed Issue of Bonds by New York Central an Item to Which Much Importance is Attached.

NEW YORK, May 11.—There were periods of today's trading that were considerably more active than recently, but in the intervals the market showed a general condition of lethargy that has characterized it for some time. News developments were not lacking, but the response to them was very slight. The government report on the crop was generally unfavorable in the opinion of the probable yield indicated by winter wheat. Another development, to which general importance is attached is the proposed issue of denatured bonds by the New York Central for the purpose of stock and bonds authorized and issued it is evidently an admission in effect of the impossibility of financing the favorable terms in the present market.
