Minnesota Crop Report and Milling News Show Better Situation.

CHICAGO IS THE LOWEST CORN MARKET

Cash Corn Business is Held Up by Light Receipts and Lake Situation-Chicago and Omaha Marketa Dall.

OMAHA. May 12, 1904

The Minnesota crop report for the week ending May 9 says the Red river valley diried up rapidly and seeding went on all right until the 5th, but more seeding was done on the high land east of the valley. South of the valley sil of the wheat and oats have been seeded and the bariey and flax are well shone. The early seeded grain is up and looking well. The warm showers of the 5th and 5th stimulated germination and the rapid growth of the plant. Minneapolis reports a good cash demand for wheat today. No, 1 northern is selling at 3c over the July and No. 2 northern at 14,427c. The mills have been drawing heavily on the elevators. The millers report good flour sales Wednesday and 25c cars of wheat were loaded out from the city. The Minneapolis stocks of wheat have decreased 50,000 bushels in five days. An elevator with about 1,300,000 bushels of wheat was burned at Fort Williams, Manitoba.

Chicago is, like Omaha, suffering from OMAHA, May 12, 1904.

Chicago is, like Omaha, suffering from duiness due to light receipts. The corn market is oft because of the lake situation. St. Louis is 3 cents higher for May corn than Chicago and Kansas City is as high as Chicago, and Omaha is the highest of sil. So western shippers have no inducement to send their corn to the east, for they can get equal or better prices in their own territory without the higher freight rate. Chicago on Wednesday soid 100,000 bushels cash No. 1 northern wheat at from \$20% over the May, local miliers being the purchasers: \$6,000 bushels of No. 2 hard went at 20c, f. o. b., also to miliers. The corn business was \$80,000 bushels and the bats \$5,000 bushels.

The range in price of Omaha grain for future delivery and the close Wednesday and today were as follows:

NEW YORK STOCKS AND BONDS

Dealines. MOVEMENTS ARE OF STIMULATING NATURE

Gold Output for Month Aggregates More Than \$25,000,000, and is

the Largest Amount Ever Exported.

NEW YORK, May 12.—There was a further expansion in the volume of dealings in the stock market today, due to the increased pressure to sell stocks, the weakness being more distributed than was the case yesterday. Much influence upon sentiment was produced by the imposing dimensions of the gold movement. The May shipments and engagements for Saturday aggregate more than \$25,000,000. The largest amount of gold ever before exported in a full month from New York was in May, 1894, when \$27,440,000 went out. The sustained level of the foreign exchange rate makes it evident that the movement has not lost its force and estimates vary widely as to its limits, which have already reached over \$40,000,000 since its inception in April. A large portion of the Panama canal payment remains to be provided for and the current outgo evidently is to meet other requirements than the Panama payment. For one thing it is admitted that today a engagement is part against a subscription to the Russian loan which was taken yesterday.

CATTLE—There was rather a small run of cattle this morning at all the principal markets, and although salesmen at this point tried to get more money for what they had they falled owing to the indifference of buyers and the apparently limited demand. Trading was rather slow and the morning well advanced before a clearance was made.

The steer market was slow this morning for the reason that buyers did not take hold with any life and wanted to buy the few cattle on sale for less money than they paid yesterday. Balesmen, on the other hand, thought they ought to get more money or steady prices at least. The more desirable grades probably sold at right around steady prices, but aside from those the market was very dull, with prices a shade lower. In some cases sales were made that were as much as 5010c lower. Owing to the lack of activity the morning was well advanced before a clearance was made in spite of the light receipts.

The cow market was a little more brisk than the trade on steers and prices held generally steady. There were comparatively few on sale and packers all seemed to need some for their immediate trade, and as a result bought up everything at all desirable at a ransonably early hour. Common stuff was not very active, but still it brought just about as much money as was paid yesterday.

There was not enough change in the prices paid for bells, veal calves and stags to be worthy of mention.

Stockers and feeders were very scarce this morning and the demand was sufficient to hold prices generally steady on all grades. No one was particularly anxious for common stuff, but still about steady prices were paid for everything offered. Representative sales:

ONABA LIVE STOCK MARKET

The latter end of the market may have shown a little more life, but there was not much change in the prices paid. The bulk of the hogs sold at \$4.60 and \$4.53, with the choicer loads going largely at \$4.60 and from that up to \$4.70. The light and common stuff sold from \$4.61 down. Packers discriminated against the extreme light and common stuff sold from \$4.61 down. Packers discriminated against the extreme light and common stuff sold from where they were lacking in quality it was hard to sell them at what looked to be a satisfactory price.

GET NEW MARRIAGE LICENSE Russian Man and Wife Want American Certificate Just for Good Mensure.

Elias Most, who halls indirectly from Russia and recently came to Omaha from Chicago, called at the office of the marriage license clerk at the court house and asked for license to be married to his own wife, who, with their two children. he brought with him, not necessarily to publication, but as an evidence of good faith, or, as he expressed it, just to show that he "had 'em." The request was so unusual in a place where unusual requests are the rule that for a few mo ments Clerk Sundblad didn't know just how to proceed. Then Mr. Most explained in very much shattered English that he and his wife had been married in Russia eight years ago but that she had just come to this country to join her husband and that they were going to San Francisco and for the sake of "making good" and as a mild sort of celebration they wanted another license. So the clerk made it out, but he got another nervous shock when the recipient of it said they just wanted the liagain. They thought if they had a license to exhibit it would prove their former marriage in Russia. This hallucination finally was dispelled by the marriage man and the services of Judge Vinsonhaler were called into play and he tied the double bow knot, and the newly married couple with their two children, aged ?

over the Northwestern. The occasion of the visit to the easis of Sloux City is an invitation to attend a ceremonial session in company with Za Ga Zig temple of Des Moines to be held tonight. The train left Union station and consisted of two chair cars and a baggage car which was loaded to the guards with happy Shriners. The train is scheduled to arrive in Sloux City before 3 o'clock so that the members can take part in the grand daylight parade which is to take place before the ceremonies begin in the opera house. The special will bear the Shriners home immediately after the session is over. George H. West, general agent of the passenger department of the Northwestern, arranged all details of the train service and was at the depot to see that everything passed off smoothly and that the train got under way at the appointed hour.
