SPRINGFIELD, III., May 13 .- After sitting for more than twelve hours and taking fifteen bailots, in which none of the seven aspirants gained or lost materially, the Illinois republican convention adjourned

late tonight without nominating a man for governor. Two attempted stampedes and several conferences failing to break the deadlock the candidates for gubernatorial nomination, at the suggestion of Chairman Joseph G. Cannon, agreed to rest on their arms

until 10 o'clock tomorrow. While the balloting went forward the party leaders conferred in fruitless efforts to get a compromise, but their efforts went for naught, and there is nothing in the situation tonight to warrant the prediction of

The convention was large and turbulent. Armory hall was packed with 10,000 persons fluring the session and at times when the scenes were most turbulent Chairman Cannon threatened good naturedly to adjourn the convention to the state capitol and exclude the public.

Judge Elbridge Hancey, chairman of the amittee on credentials, presented a report recommending that the sitting delegates be declared the delegates to the conyention. This was adopted and then on recommendation of the committee on oranisation the temporary organization was nade permanent.

On the seventh ballot there was no change except Washington county went solidly to order with a great megaphone through Lowden and a few other minor changes. On the seventh ballot the Adams county delegation undertook to start a Yates stampede, but Cannon suppressed the demonstration by vigorous use of the gavel and the only change in the vote was the shifting of Washington county to Lowden. Negro Creates Disturbance. As the chair was announcing the twelfth ballot, the shouters in the hall again made an effort to stampede the gathering and the rival demonstrations threw the great crowd into a scene of disorder which continued for half an hour. In the midst of the excitement two policemen attempted to stop a negro carrying a Lowden banner. The negro resisted and Police Sergeant George Brightman struck him over the head. The negro retaliated and knocked the policeman over, the officer falling on Mrs. Richard Yates, who occupled a seat in the Morgan county delegation. B. M. CARDINAL SATOLLY'S PROPOSED VISIT

Monsigneur Falconio Denies the Object of the Visit is to Settle Disputes in Ecclesiastical Circles,

WASHINGTON, May 13.-The Nipsic, one of the old wooden vessels of the navy, has been ordered out of commission at the Puget Sound navy yard, where it has been serving as a receiving ship. This marks the passing of one of the few government built vasuels, being almost the last timber ship constructed for the navy. The vessel was launched in Washington in 1879 and saw much service in all quarters of the world. In the great hurricane at Samoa it was the only survivor of the German and American fleets. After that experience the ship was scarcely worth salvage, but as a matter of sentiment the Navy department repaired it. The boat has not been serviceable as a war vessel and its principal employment has been in the receiving service. It has been replaced by the protected trip. cruiser Philadelphia.

Admiral Kenney Appointed. Rear Admiral Sewell Kenney, retired, former paymaster general of the navy, it is stated at the Navy department, has been selected as treasurer of the Panama com-

mission. Rear Admiral Kenney was born

Satolil's Visit to America Monsignour Falconio, the papal representative at Washington, made the following statement regarding the proposed visit of Cardinal Satolli to America:

We are authoritatively informed that there is no truth whatever in the current report regarding the object of Cardinal Satolli's proposed visit to America; namely, to settle disputes which have arisen in ecclesiastical circles on account of the alleged American spirit of liberty and the absolutism of Rome. There is no friction whatever between the apostolic delegate and the American hierarchy. The American bishops are united and in perfect accord with the views of the holy father and Rome is not apprehensive that they will ever be otherwise. We are authoritatively informed that

BUFFALO, N. Y., May 12 .- A man, believed to have been a New York stock broker named Snell, jumped from a Cleve land & Buffalo steamer when the vessel was about three hours out from Cleveland last evening. A traveling man, wno refused to give his name, tells the following story of the sulcide:

of the suicide:

I was sitting in the buffet about 10 o'clock when a short, heavy, red-faced man entered. We got into conversation and he told me his name was Snell. He said among other things that he was financially involved to the extent of \$165,000, and that he was going to kill himself because of his trouble. He threatened three times to take his life and I talked to him and urged him not to do anything rash.

I believed the man intended to kill himself, however, so when we left the buffet I called the attention of a couple of deck hands to him. A minute or two later I heard one of them cry out that he had gone overboard. The captain at once ordered a lifebout lowered and the steamer was

overboard. The captain at once ordered lifeboat lowered and the steamer to brought to a stop as quickly as possible Snell took no berth on the boat. GENERAL MILES ON BATTLES

Says that Fighting and Not Prayer Wins on the Field.

ADMIRAL DEWEY COMPLIMENTS THE NAVY

Asserts that We Have the Best Ships, the Best Officers and the Best Men in the World.

NEW YORK, May 13 .- "The Russian soldier is courageous in saying his prayers before going into battle, and the same thing may be said of the soldiers of the sultan, and I have found that on the battlefield it is the fighting and not the praying that wins," said General Nelson A. Miles tonight, in explaining the success of Japanese soldiers against Russia. General Miles was speaking at a dinner to members of the Order of the Founders and Patriots of America, of which Admiral George Dewey was elected governor general.

"It has been my privilege," said General Miles, "to see most of the armies of the world. I have studied carefully the armies of Japan and of China and the soldiers of Russia, and the success in the east today of the soldiers of the mikado is due to their wonderful skill, the faithful performance of their duties and their remarkable enterprise." Then General Miles spoke of the prayerfulness of the Russian-Turkish soldier.

"Of all the armies of the world." continued General Miles, "ours seems to differ in that the men are serving for a principle. about my trouble a few days ago," said Our men seem to feel that they are work-Snell. In all that time there never was an hour of the day that it was not a pleasure to me to be in the service.

Admiral Dewey said: "I don't know as we have any better navy than we had, but we have better tools than we had a few years ago. Of course, the newspapers will say we have not, but take my word for it, we have the best ships and the best officers and the best men in the whole world. As to the enlisted men especially, we are getting the cream of the world, and with such men ready and eager to fight the other nations are going to let us alone. And in a few years to come the American people are going to have the very best navy in the world, not for aggression, but to protect our rights."
