Sample of Reform.

One member of the delegation complained to ne bitterly of the arbitrary work of the steering committee. When I asked him what he supposed the delegation would do in the state convention he replied:

"I don't know; how should I know? We have all been bound hand and foot and sagged to boot, and handed over to the steering committee to be phanted wherever they wish. Talk about machines, this is the worst I ever bumped into. We are going to be nothing but pawns moved around at the whim of a few self-constituted leaders. There is no more independence for a member of the chair gaus. I don't know how long we will stand for it. Another thing, this trading business makes five d. We are supposed to represent the reform element and our whole effort in local politics has been to institute primary reforms that will give the people a choice in the selection of their officers and to do away with the barter and sale that disgraced the old convention system. Chairman VanDusen of the delegation ays that nothing will be done in the contessional convention tomorrow morning arther than to select the delegates and district. In other words, that no change will be made in the makeup of the congressional convention of Chairman Blackburn, hower, in favor of holding off the convention of congressional aspirants, and it is barely ossible that something may be done in the convention in the form of instructions to the congressional committee to call its convention in June or July. In other words, that no change will be made in the makeup of the congressional ommittee or the identity of its chairman. The position of Chairman Blackburn, however, in favor of holding off the convention Congressman Hitchcock until September is known to be antagonized by most of the congressional aspirants, and it is barely possible that something may be done in the convention in the form of instructions to the congressional committee to call its convention in June or July. Clement Chase wants to be honored by being allowed to sit on the platform as presiding officer in the congressional convention, and he may be indulged. It is probable also that the name of J. C. Robinson of Waterloo will be advanced for a large transfer of the control o advanced for alternate to the national convention, if not from the district from the state at large.

TWO CONTESTS ARE TO BE SETTLED Cuming and Scotts Bluff Counties Have Double Delegations.

(From a Staff Correspondent.) LINCOLN, May 17 .- (Special.)-The first thing tomorrow's convention will be up against the settlement of two contest cases, one from Scott's Bluff county and one from Cuming county, although both of them to-

respective pleas for recognition will be urged before the credentials committee. Incidentally it may be remarked that rivalry between different towns for county seat honors is supposed to be at the bottom of

In Cuming county the conflict is between a delegation appointed by the county committee regularly constituted and another delegation named by a convention summoned unofficially in response to a call signed by individual republicans. The committee in Cuming county assumed to name delegates to both the state and congressional conventions without calling a convention or consulting the party rank and file in any way. The recalcitrant call is supposed to be a protest against what was Oleson. The funny part about it is that Oleson himself had control of the county committee only a year or two ago and when he was in control assumed to appoint now denounced as odlous in his opponents. The explanation is also vouchsafed that tagonism between the friends and opponents of Governor Mickey and was cooked up at the time the fight on the gubernatorial nomination was expected. The appointed delegates are said to be the Mickey

delegation and the convention delegates the anti-Mickey delegation. Inquiry develops that there are no rules or established precedents by which the contests are to be determined. In other states when contests are filed they are usually heard informally by the state committee or a committee of the same, charged with making up the temporary roll. It has been some years since a republican state convention has been bothered with contests

"We ought to have some rules governing caused by contests," declared Chairman Lindsay today, "and we ought to have some authority to pass upon them preliminary to the convention. As it is, however, we will have to pass them up to the convention and its credentials committee. It's a good sign, however, to find seats in a republican state, convention valued so highly as to cause people to fight for them."

Another member of the committee answered it as a rough guess that the con-

They have mysterious channels of information through which the result of the battle at Feng Wang Cheng spread and it could be suspected from the outward manner of the Chinese before the Russians made it known here. The cutting off of Port Arthur is another instance in point.

The newspaper correspondents are most courtequaly treated by Colonel Poestich, the officer whom Viceroy Alexieff appointed to sttend them, but they are chaffing under the restrictions imposed here, which prevent them from sceing anything of the nghting, General Kouropatkin is evidently unwilling that the foreign corre shall witness the present phase of operations, though be may accept them in the indefinite future, when the Russians are able to make a sweeping advance.

March 16 .- (Delayed in Transmission.)-A Chinese official asserted today in a speech at a dinner given in his honor, and in that of other Chinese officials by the military authorities of Liao Yang, that Japan wants an alliance with China in order to use it. The official further declared that the Chinese considered it their duty to preserve good relations whose frontier adjoined with Russia, China's. .. He added;

An alliance between China and Japan would be fatal. Japan made war on us once and Russia's intervention caused it to leave us in peace. An alliance now would enable it to use us and then again attack us.
