SAYS SHOT WAS ACCIDENTAL

Former Policeman Goodrich Denies Intentien to Shoo: E mer Soott-

FIRED TO ATTRACT OFFICERS ON BEAT

Chief Donahue, Captain Haze and Other Members of Force Testify to Defendant's Good Character and Service.

The prosecution in the case of Frank having shot and killed Elmer Scott on June 7, 1908, was closed in the district criminal court and the defendant put upon the stand to testify in his own behalf.

The witness said on the date of the killing he was in the discharge of his duties as a police officer and on his beat on Sixteenth street in the vicinity of Dodge It was early in the evening and the streets were somewhat crowded. Several complaints, he said, had been made to him of a man who was begging on his best and he was on the watch for him. Finally he saw Scott "hold a man up" and heard him tell him that he had a broken arm and ask for a quarter. The witness then placed Scott under arrest and was conducting him to the station house, having hold of his arm. Near Thirteenth street the prisoner jerked his arm from the grasp

of the officer, who immediately gave chase. "I pulled my gun as I ran," said the defendant, "and after calling upon Scott repeatedly to stop, and saying that if he did not do so I would fire, I did fire a shot into the air. I held the revolver in my right hand and fired into the air at an angle of forty-five or fifty degrees. Scott kept running and after calling several more times to him to halt I fired again at about the same angle.

Shot Fired Involuntarily. "The third shot fired, and the one which hit him, I fired involuntarily, and before I was ready to do so on account of stepping into a hole or depression in the sidewalk. It caused me to stumble and nearly fall upon my face. As I did so I instinct ively threw out my hands to save myself and the pistol was discharged without my meaning to do so. I had not shot at Scott at all and did not intend to, but, on the other hand, was careful not to take any chance of hitting him. My reason for firing at all was not to hit Scott, but to alarm the officers on the beat toward which we were running in order that they might head off the man and apprehend him."

Goddrich's story on cross-examination was substantially unchanged. Chief of Police Donahue, Captain Haze and several others testified to Goodrich's good character and that he was a careful and conservative officer in the discharge of his duties. Evidence also was introduced to verify the defendant's statement as to the hole in the sidewalk and his nearly falling as he fired the fatal shot.

Difficult Task Because of Position Occupied by Wilmar & Sloux Falls Road.

The check of the grain rates from northern points in Nebraska to Minneapolis and St. Paul was not completed at the meeting Monday afternoon. Another meeting probably will be held at the Northwestern headquarters to complete the check. As yet none of the rates to govern has been set. The rate men admit they have a hard task ahead of them in adjusting the rates owing to complications which enter into the situation in the northern perilon of the state on account of the position the Wilmar & Sloux Falls road occupies there. It is not thought probable that the rates can be so adjusted that Omaha will get much of the grain from Northwestern territory

Announcements of the Theaters. On Friday evening of the present week Miss Anna Held and her company will be at the Boyd theater, presenting an adaptation of Jean Richepin's "Mam'selle Na-poleon." Ruling of Federal Supreme Court on Fellow Servant Law Affects Local Cases.

The principle laid down Monday by the United States supreme court that "a telegraph operator for a railroad company and a fireman on a railroad engine are fellow servants, and that the negligence of the former, causing the death of the latter in the operation of trains, was a risk the fireman assumed and was not a ground for damage: against the railroad company,' has already had its effect in the amending of petitions in the United States circuit court for the district that were about

ready for trial. A case at hand is that of William Scahill. administrator, against the Union Pacific Railroad Company, which was set for trial today, but before the case was called the attorneys for the plaintiff asked permission to file an amended petition in view of the supreme court decision. Another was the case of Joseph D. Rinder against the same defendants, both for damages sustained by the heirs of the first and the plaintiff in the latter case while employes of the

defendant company. The decision is likely to affect several other cases set for trial on like petitions was well known in Omaha, has sent to at the present term of the United States court.

NEW ENGINE ARRIVES IN CITY "Frank E. Moores No. 5" Comes from Shops and is at House No. 3 Temporarily.

"Frank E. Moores No. 5," the new metrolitan fire engine to be installed in the new engine house No. 5 at Eleventh and Jackson streets, has arrived and has been temporarily placed in engine house No. 2, Eighteenth and Harney streets. It is expected a representative of the American Fire Engine company will arrive in the city to superintend the assembling of the at-

tachments and make a test. The engine is of the extra, first-class size, weighs about 8,000 pounds and cost \$5,100, It is next to the largest size made. Four lines of hose may be used with the engine and 1,400 gallons of water per minute can be thrown at a very high pressure. Two or three horses may be used to haul the big machine, but it has not been decided which may be necessary.

Since the arrival of "Frank E. Moores No 5" many callers have stopped at the engine house to welcome the newcomer and give it the glad hand, as it were. The funnel of the engine bears a plate with the inscription "Frank E. Moores No. 5."
