The last end of the market was slow and weak. There seemed to be more hogs on sale than packers needed and as a result salesmen had a rather hard time to dispose of the late arrivals and also of the common and light stuff. There were so many good hogs on sale that packers discriminated against the common stuff more than usual. Representative sales: No. Av. Sh. Pr. No. Av. Sh. Pr. 12 118 ... \$ 75 69 246 120 4 524

THE CRACKERJACK OF FLYERS Up Water and Fish as it

They had been speaking of fast runs on we made some time ago on a train which came in from a point on the coast," said the man who wanted to add zest to the conversation, "and it was about the fleetest trip I ever had on a railroad. The train was behind time about an hour, and I think the engineer made an effort to catch up between the city and a point not so it looked very much like it to me. We shot through the air like an arrow. Sometimes it would seem to me that we had left the track altogether. That clicking peculiar to railroad trains could not be heard. About all we could hear at times would be the whizzing of the wind as it split by the windows. Across bayous and brough marshes we rushed like mad. When we reached the rigolets the most remarkable thing I ever saw took place. The train was traveling so fast it sucked the water up behind it as it rushed across the trestle, and I could hear the fishes groan as we flew over this neck of the gulf. Most remarkable thing I ever saw in the way of fast runs." And he lapsed into silence. "I'm glad you reminded me of that run," said another member of the group. "I had forgotten the incident. I can youch for all you say, for I was on the back end of the last couch, and the water which was sucked in behind the train by the vacuum almost washed me overboard. but I held on all right, and when we had made the crossing and the waters had receded I picked up on the platform of the rear coach the finest bunch of fish I ever saw. They were no doubt the tish you heard groaning."-New Orleans Times-Democrat.
