A LAST APPEAL AND WARNING.

On behalf of the great body of tax-paying citizens of Nebraska, and especially the rank and file of the republican party, we are impelled to address a last appeal and a word of warning to Governor Mickey and the other members of the State Board of Railroad Assessment.

THE RIGHT OF EXCLUSION.

The decision of the supreme court of the United States, upholding the law which provides for the exclusion of alien anarchists, announced some principles which are not familiar to the American people generally.

THE GERMANS OF BRAZIL.

Periodically there are expressions of apprehension in regard to the increasing number of Germans who are settling in Brazil, this feeling especially manifesting itself whenever a public man or newspaper in Germany refers to the fact that there is already a large and growing colony of Germans in the southern republic and suggests that some day they may afford their native country an opportunity to get a foothold in Brazil and establish its institutions.

CONCILIATION WORKED WELL.

According to a reported statement of Labor Commissioner Wright to President Roosevelt, the board of conciliation for the adjustment of differences between operators and miners in the anthracite coal region has accomplished all that it was designed to accomplish.

THE HERO OF FASHODA.

The "Hero of Fashoda" might have known his day had passed in France when the arbitration treaty with Great Britain was signed. Nations, like individuals, have little use for friends whose presence reminds them only of their own mistakes.

THE OREGON WOMAN.

An Oregon woman is suing for divorce on the ground that her husband wouldn't "talk back." The afflicted wife seems to think it takes two to make a conversation.

STATEMENT OF CIRCULATION.

PERSONAL AND OTHERWISE.

An English peeress recently married her coachman. American peeresses have so stripped the market of titled eligibles that peeresses are obliged to take desperate chances.

DOMESTIC PLEASANTIES.

"Riddles," they said, "do not seem to interest you." "No," he replied; "I married one." Chicago Post.

GETTING PUFFED UP.

Major General Fung says the Japanese advance upon Leyte is characterized by indecision. If the Russians fail to get everlastingly licked every other day, Fung gets all puffed up.

TEACHING THE ART OF WAR.

Japan has taught the military bureaus of the world that a war can be vigorously pushed on a minimum of bulletins. There may be something in the idea that a bulletin sometimes does more harm than a dozen epics.

SIGNS OF RACE SUICIDE.

While the influence of the administration at Washington is against race suicide and for an increase in the birth rate, the conditions outside the White House are in favor of a further decline in the number of births in this country.

AGAINST MOB LAW.

The new governor of Louisiana, who was inaugurated last Monday, has taken a position in regard to lynching which ought to be universally commended even in the south.

LIBERTY, BUT NO LICENSE.

Freedom of speech does not mean criminal license and liberty does not mean anarchy. We have deported an anarchist and criminal character from the United States and the supreme court indorses the act.

THE MAN ROOSEVELT.

Much is being said about making the campaign against President Roosevelt personal. It won't do. Personally, the president is an American gentleman; a man of learning and fine ability.
