

BOARD AFTER STOCK VALUES

Tax Agent Scribner Going to New York Office to Secure Them.

TREASURER MORTENSON FORCES ISSUE

Sheriff of Dodge County and Escaping Prisoner Have Pistol Duel on Streets with Nobody Hurt.

(From a Staff Correspondent.)

LINCOLN, May 24.—(Special.)—The State Board of Equalization spent another busy morning with A. W. Scribner of the Union Pacific on the value of stocks and bonds belonging to the Union Pacific proper.

Mr. Scribner did not have the information required of him by the board and he was given time to communicate with the New York office to get it. The debate hinged on this motion made by Treasurer Mortenson as soon as the board was convened, in order to get the matter properly before the members.

I move that the Union Pacific Railroad company be requested to furnish this board with a sworn statement, giving the total capitalization of the Union Pacific Railroad company and the market value of its bonds and stocks on the first day of April, 1904.

The statement also to show: 1. The total mileage of said Union Pacific Railroad company proper.

2. An itemized statement of the several bonds and stocks owned by the said company for which they are legally entitled to receive credit or offset in estimating the value of the same.

3. The market value of all such bonds and stocks on the first day of April, 1904.

4. A description and estimated value of such property which is subject to taxation, eliminating from said report the mileage, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

5. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

6. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

7. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

8. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

9. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

10. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

11. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

12. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

13. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

14. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

15. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

16. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

17. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

18. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

19. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

20. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

21. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

22. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

23. A description and estimated value of such property which is not subject to taxation, including all bonds and stocks owned by the Union Pacific Railroad and Navigation company.

at the lavatory in the rear of the room. Suddenly Drannon drew a revolver and took shot at the sheriff. He then made for the front door, stopping once to shoot in the direction of the sheriff again. Both shots lodged in the ceiling.

Bauman at once gave chase and the two rushed down Eleventh street, the convict shooting once up in the air and a second time direct at his pursuer. The officer returned the fire and finally caught his prisoner, who surrendered gracefully and allowed himself to be handcuffed without resistance.

Drannon had been sent up for eighteen months for horse stealing and apparently was resigned to his fate, having given the sheriff no trouble until they reached the restaurant. A number of people were on the streets at the time of the shooting and considerable excitement was stirred up.

Mrs. Bauman was almost on the heels of her husband when the prisoner was caught and she showed a little excitement as the other two.

Miller Returns Home. George Miller, who had packed his clothes in the trunk of Babe Smith and left his wife and baby at the old home, contemplated elopement, today severed his partnership with the Smith woman and was taken back by his forgiving wife.

Miller and the Smith woman were arrested last night and lodged in jail. Miller was charged with wife desertion. When the wife offered to forgive, Miller was willing.

Stories Simply Fables. The sensational stories appearing in Nebraska and Iowa papers to the effect that Governor Mickey had been soundly on the question of the proposed amendment to the constitution, today proved to be nothing more than simple fables.

NEBRASKA CROP CONDITIONS

Warm, Dry Week Favorable to the Growth of All Kinds of Crops.

CORN PLANTING IS ABOUT COMPLETED

Damage to Fruit by Frost Proves Very Slight—Apples Not Blooming Profusely, but Other Fruits Promise Well.

(From a Staff Correspondent.)

Weekly bulletin of the Nebraska section of the climatic and crop service of the weather bureau for the week ending Monday, May 23, 1904:

Warm, dry week; favorable for work and the growth of vegetation. The mean daily temperature averaged 63 degrees Fahrenheit. Rainfall was confined to light, scattered showers; the amount of rainfall exceeded half an inch in only a few places, but generally it was less than a quarter of an inch.

Winter wheat, spring wheat, oats and grass have grown some crop up and some are a thin stand and the fields are becoming weedy. Rye is in good condition and alfalfa has just reaching the first cutting. Corn and sugar beet planting are about finished; early planted corn is considerably advanced and some fields are being planted in a few fields.

Damage to fruit by frost proves very slight. Apples generally are not blooming profusely; other fruit promises a fair crop.

Report by counties: SOUTHEASTERN SECTION. Butler—Small grain looks well; corn planting about finished; some corn being planted. Case—Bulk of corn planted, early planted well; some corn being planted. Lincoln—Small grain looks well; corn planting about finished; some corn being planted.

SOUTHWESTERN SECTION. Lincoln—Spring wheat looking and doing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

WESTERN SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

NORTHERN SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

CENTRAL SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

SOUTHERN SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

WESTERN SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

CENTRAL SECTION. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted. Kearney—Wheat and grass growing well; corn planting about finished; some corn being planted.

WEEKLY SUMMARY CROP REPORT

Corn Planting Nearly Completed and Oats and Wheat Promising.

WASHINGTON, May 24.—The following is a summary of the weekly crop report of the weather bureau:

While the fore part of the week was much too cool in the districts east of the Mississippi river, a whole the temperature conditions were much more favorable for the planting of crops. In the Missouri valley and the Rocky mountain and Pacific coast districts experiencing highly satisfactory temperatures. Generally light rainfall in the central valleys and over the southern plateau region, permitted the favorable progress of farm work, complaints of interruption being confined mainly to the upper Ohio valley.

Complaints of wet soil, however, continue for portions of the central Mississippi and Missouri valleys. Drouth continues in the south Atlantic and east gulf states and over the southern plateau region, and the need of rain is beginning to be felt in central and eastern Texas and on the north Pacific coast. Frost, more or less damaging, occurred on the 16th and 17th in the lake region, upper Ohio valley and middle Atlantic states.

Corn planting has advanced very favorably in Missouri, where it is nearly completed, but in Missouri it is only about one-half finished and much remains to be planted in the Ohio valley, where this work has been greatly delayed. In the central and east gulf states corn is backward, but has made good growth in Texas. Cut worms have proved very destructive in Kentucky, Tennessee and portions of the middle Atlantic states.

Winter wheat has advanced favorably in Nebraska and Kansas and generally in Missouri, but in portions of the last named state the outlook is somewhat less promising. Improvement is reported from Illinois, Michigan and Ohio, where, however, the condition of the crop is very poor. In the middle Atlantic states the crop has made satisfactory progress, but a general improvement is also noted. On the Pacific coast winter wheat sustained slight damage from drying winds in California, but the crop continues to do well in Oregon and Washington.

Spring wheat seeding is practically finished, except in North Dakota, where it is well advanced. The early sown is coming up and showing well. In the southern states, Montana and on the north Pacific coast it is necessary to germinate the late sown.

The general outlook for oats in the principal oat-producing states is promising. Spring wheat seeding is practically finished, except in North Dakota, where it is well advanced. The early sown is coming up and showing well. In the southern states, Montana and on the north Pacific coast it is necessary to germinate the late sown.

The general outlook for oats in the principal oat-producing states is promising. Spring wheat seeding is practically finished, except in North Dakota, where it is well advanced.
