NEW YORK STOCKS AND BONDS

Downward Movement Timidly Pursued by Wall Street Operators.
MARKET ABANDONED BY THE TRADERS
London Selling Has an Early Influence, Although it Appears to Be in Rather Light Volume.

NEW YORK, May 25 - Yesterday's closing out of contracts by the disaffected traders who had come into the stock market, the reaction invited some short covering in the street to extend the downward movement so as to yield a shorter profit on the short side, but this was timidly pursued with the absence of any movement in prices. London selling was the cause of the slight decline in the New York and Hartford was the only one of the street of straight holders. But the labor difficulty on that road, of repressive influence on the trading.
