for an electric interurban road. But the promoters of the line originally intended going west from Dallas Center into a country where there would be good business and no opposition direct. Now the diversion of the route to exactly parallel the Fort Dodge road is taken to be a notice on the part of the Rock Island people that in case some other road gets the line they will be prepared to parallel it at once and have their line in operation almost as soon on the lease expires on the present line. A meeting of the Fort Dodge company will be held in this city next week, when R is expected it will be developed whether or not the Rock Island will be able to buy the stock from the brokers who have been accumulating it the last few years. It was made known over two years ago that these brokers had secured a majority of the Fort Dodge stock and were preparing to extort a big price for the line. It was then stated by a Rock Island official that his company would never pay an exorbitant price, but would parallel the road cheaper than to buy the old one. While the promoters of the interurban say that they are securing right-of-way for their own purposes it is believed they would be oute willing to disposed of it at a profit to the Rock Island company. Dr. Disbrow Appears and Explains.

Dr. Disbrow of Creighton, Neb., appeared before Governor Cummins this afternoon for the purpose of resisting the application for a requisition to take him to Washington. He was accompanied by Attorney Meserve of Creighton, who was familiar with the case. He showed to the governor that the indictment against him at Beilingham, Wash, was the result of a trade or deal in regard to the sale of a liquor cure, in
