When Sickness Comes to the Little Ones

It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy Is deeper than that of any other member of the family The mothers look forward with dread to

the torrid heat of summer, thinking of their children and the many liabilities to disease that are before them. Spring and summer are sure to bring aliments, especially among the little folks.

It does not take a mother very long to discover that Peruna is the best friend she has in times of filness among the children. The doctors may come and go with their different theories and constant change of

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause. Peruna quickly relieves this condition of

the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the Peruna is not a physic. Peruna is not a

nervine nor a narcotic. Peruna does not produce any drug habit, however long it may be taken. Peruna it not a stimulant. Peruna is a specific remedy for all catarrhal aliments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has. The Mothers Hold Pe-ru-na in High Esteem. Not only because it has cured them of

their various ailments, but because it always rescues the children from the throes and grasp of catarrhal diseases. We have in our files bushels of testimo

nials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

The mothers who are bringing up their children today to believe in Peruna are doing a great work for humanity.

These children brought up to believe in Peruna from the start, will, when they become heads of families themselves, uso Peruna with unquestions faith.

> Where There Are Little Children.

Peruna should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But have Peruna on hand-accept no substitute. Children are especially liable to acute catarrh. Indeed, most of the affections of

childhood are catarrh. All forms of sore throat, quinsy, croup, hoarsness, laryngitis, etc., are but different phases of catarrh.

Mr. Howard Andrew Sterner, Muddy Creek, Pa., writes: "I have Peruna in my house all the time and won't be without it. It is the greatest catarrh remedy that was ever manufactured. It is good for children when they take cold or croup. It cured my baby boy of croup. I have introduced Peruna into six families since I received your last letter, and four have seen relief already."-Howard Andrew Sterner.

Mrs. J. H. Russell, 26 Horton Ava., Detroit, Mich., writes: "Peruna certainly did wonders for our little son, Arthur, as he has been the picture of health all summer He has taken four bottles of Peruna, and I have followed your directions as carefully as I could. I am very happy with the results. I thank you very much for your interest in his case."-Mrs. J. H. Russell. Pe-ru-na Protects the Estire House-

hold Against Catarrhal Diseases. As soon as the value of Peruna is appreclated by every household, both as a preventive and oure, tens of thousands of

lives will be saved, and hundreds of thouands of chronic, lingering cases of catarrh will be prevented. Peruna is a household safeguard. Mrs. S. Miles, Stoughton, Wis., writes: "When my baby, Evelyn, was quite young noticed that she had catarrh. This wor-

ried me so much that I took her to a doctor and he prescribed for her. She seemed to get better, but the relief was only temporary, as I noticed that with the next cold she contracted she was worse. "I had used Peruna myself some time

before with such good results that I deofded to give it to her, feeling sure that there was nothing in it that could infure her. I gave her two bottles, which was all that was necessary, for it cured her. I am glad I took hold of this trouble while she was young and before it had secured too strong a hold on her system. I keep it on hand now and give her a few doses whenever she takes cold, and it always takes effect and keeps her well and strong."--Mrs. S. Miles.

Mrs. Mary E. Connor, 724 23rd St., San Francisco, Cal., writes: "Peruna has been a clessing to my home. It has kept sickness out and we are today a happy and well family, thanks to Peruna. My husband was cured of lung trouble through Peruna and this showed us its merits.

The board today has been in executive session considering the Burlington valuation while awaiting for the supplemental reports requested of the Union Pacific. Rock Island and the Missouri Pacific. In the first supplemental report filed by the Missouri Pacific it figured out that on its stocks and bonds the road in Nebraska would be worth about \$27,000 a mile and that figured on its net earnings it would be about \$21,000 a mile. In this connection the company stated that the Pacific railroad in Nebraska, which is a branch of the Missouri Pacific, was not a paying investment and was worth probably \$10,600 a mile, which upon a one-fifth assessment would be \$2,000. Bryan on Bolting. W. J. Bryan, in the Commoner today, four times greater than Raymond Brothers, gave his views "As to Bolting," by publishing a letter which he had written to ar inquirer. It follows:

For that reason i defer unto the convention has acted a decision upon the course that I will pursue.

If the rule suggested by you were the correct one-maniely, that whatever the correct one-maniely, that whatever the pusiform and whatever the candidate, the ticket should be supported at the polis, then there would be no need of a campaign, because no rule is a sound one that does not answer as well for republicans as for democrats. There is no more reason why every democrat should pedge himself in advance than there is that every republican should, and it all did, campaigns would not change a vote, if that is a correct rule, then when a party is once in power it can only be dislouged by a change in political affiliations. And then, too, you will notice that the eastern democrats never pledge themselves to support the ticket, and there is no reason why western democratis should hold at a lower value their duty to give to their country their best conscience and their hear judgment at the time when action is required.

Because eastern democrats refuse to make grounses and assert their right to independent action after the convention their opinions are now being conspited, while it is not thought necessary to consult the opinions of those who vecfferously announce that neither their convictions nor their interests need be camaidered, but that they can be counted upon to hurrah for any ining in the piatform and to change their own opinions whenever the eastern democrats decide that the time has come to change.

Agents Are Responsible.

Insurance agents who write insurance for wildcat companies that do not pay losses are liable to the policyholders for the amount of the policy. This information Insurance Deputy Pierce desires to get before the people of Nebraska and it is not generally understood that Nebruska has such a law. Mr. Pierce believes that if the agents have their attention called to the matter there will be less wildcat companies ecuring business in the state. The matter was called to his attention by a case in Iowa, in which the agent of the wildcar company was held liable by a decision of the supreme court. Section 49f of the Nebraska statutes is similar to the lowa law.

Seminations Not Costly. Expense accounts being filed by candiates and nominees for state offices show hat after all it was not a costly enterprise to get in the running. That was decided today by the board of control of the state organization and along in the latter part of August the speedy ones from every section of the fire fighting commonwealth are coming up here to try for the prizes. The tournament was held for the first

time in Norfolk last year. The boys went away feeling that it had been the best tourney they ever attended and since the day that the excitement ended they have wanted to return. The attendance last year was the biggest that ever happened in Nebraska and some of the fastest records were made that Cornbusker carts ever saw. Hastings wanted the tournament this rear. ET. PAUL, May T.—A class of twenty-three boys and seventeen girls graduated from the St. Paul High school this year and the week has been full of the exercises for the occasion. Sunday evening Rev. Georga A. Ray preached the baccalaurente sermon in the Methodist church; Tuesday ovening a large audience attended the class day exercises and a class play. "A Case of Suspension," finely executed by the graduates in the opera house; and finally, last night the regular commencement exercises took place. The opera house was filled to its utmost capacity and a spiendid program was rendered. The closing event of the local school year will be the annual alumni festival Thursday evening, June 2.

Ayers Sarsaparilla "I had a breaking out on my body and I tried different remedies without relief. I then tried Ayer's Sarsaparilla, and before I had taken half a bottle I respectively.

I had taken half a bottle I was entirely cured."—M. A. WALL, Bentley Creek, Pa

What was the matter with this man? Ask your doctor. He will tell you that the man's blood was impure. Just as soon as the Sarsaparilla purified and enriched his blood he was entirely cured. See that your blood is pure. Consult your own doctor about this.
