#### RULES FOR LAND SEEKERS

Land Office at Chamberlain Issues Circular Letter.

COVERS OPENING OF ROSEBUD LANDS

Requirements of Government Clearly and Elaborately Set Forth Se There Need Be No Missusderstandings. '

CHAMBERLAIN, S. D., May T .- (Spe clai.)-During the past week the United States land office located in this city has been flooded with inquiries from all sections of the country regarding the terms and conditions of the coming opening of the Rosebud reservation to settlement. Thousands of letters have been received, and the number is constantly increasing. In order that the country may be informed and relieve the burdens of the local land office Register C. L. Brockway today issued the following official statement to the public:

today issued the following official statement to the public:

UNIT L. FRATES LAND OFFICE.—
CHAMBERLAIN, S. D., May 24, 1994.—
None but persons qualified to make homestead entry will be permitted to register for the Rosebud lands in Gregory county, South Dakota, opened by act of congress of April 28, 1994, and the president's proclamation of May 12, 1994.

Qualifications to make a homestead entry are: Not the owner of more than 160 acres of land in any state or territory, a clitzen of the United States, natile born or naturalized by first or second papers, ever the age of 21 years or the head of a family; bons fide intention to make entry and comply with the homestead laws of the United States for own use and benefit and not directly or indirectly for the use or benefit of any other person; has not since August 30, 1890, entered under the public land laws of the United States a quantity of land which with a legal homestead would make more than 250 acres; has not herstofore persons may make second entries:

The following classes of persons may make second entries:

Who prior to May 17, 1860, made final (five year) proof and payment of the price of the land in certain Indian reservations opened by the acts of congress of March 2, 1889.

Who prior to June 5, 1900, commuted a homestead entry and paid the government price for the land; (such persons cannot commute a second entry).

Who prior to April 28, 1894, relinquishment or loss.

Persons otherwise qualified to make homestead entry of less than 190 acres, may stead entry of less than 190 acres, may

Persons otherwise qualified to make homestead entry, who, heretofore made final
proof and received final receipt for a homestead entry of less than 100 acres, may
make an additional entry of a quantity of
land which added to the former entry shallnor-exceed 180 acres.

Tersons having a second or additional,
right should, before registaring provide
themselves with a memorandum giving the
numbor and date of former entry, description of the land, office where made, and
date and manner of its disposition or loss,
as the case may be.

Honorably discharged soldiers and sallors
of the civil or Spanish-American wars or
their widows, may by power of attorney
appoint an agent and furnish hir, with a
copy of discharge or other competent evidence of military service and honorable
discharge. Such agent can register for one
person so appointing him only, and for himsolf.

No parson will be permitted to register

No person will be permitted to register more than once, or in any other than his true name. Any person who shall transfer his registration certificate will thereby lose all benefits of the registration, and he precluded from entering or settling upon any of said lands during the first sixty days.

any of said lands during the first sixty days.

As soon as registered each person will be given a certificate of registration which will entitle him to go upon and examine the lan! This certificate raust be preserved and presented with application by those entitled to make entry.

Dates of registration. July 5 to July 23, 194, both days inclusive.

Places of registration, Chamberiain, Yankton, Fairfax and Bonesteel, S. D.

Manner of registration, in person at the sines and places mentioned.

Drawing for right of entry begins July 38, 1904, at Chamberlain and continues until

Drawing for right of entry begins July 18, 1904, at Chamberlain and continues until the names of all parsons registered have seen drawn. Fach person will be notified by possal card at the address given by him when he registera, of the drawing of his abute, and of the time he must present his application to make entry.

The crawing will be under the supervision and management of the scretary of the interior, through the commissioner of the interior, through the commissioner of the general land office and a committee appointed by him. Every safeguard to ensure fairness will be adopted. It is not essential that persons registered shall be present at the drawing unless they wish. No one will gain or lose anything by the time, place or order of his registration.

Persons whose names are drawn thereby secure the cight to make selection of the lands, and homestead entry therefore, in the order of drawing, beginning with No. 1.

Entries begin August 8, 1904 at \$ a. m. at Bonesteel, S. D. The names of the first 100 drawn will be called on that day, the second 190 on the following day and in like manner 190 on each day until the lands are exhausted.

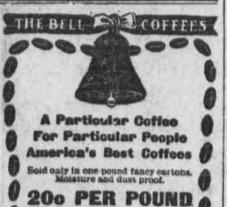

If at the time of considering his regular application to make centry, his application will be rejected, notwithstanding his prior registration.

Honorably discharged soldiers and saliors of the classes above mentioned, or their widows, may fills declaratory statements by agents duly appointed by power of an attorney, An agent so appointed can file for only one soldier or salior.

torney. An agent so appointed can file for only one soldier or sailor.

Soldiers why file declaratory statements either in person or by agent must within six months after filing the same make homestead entry for the tract filet upon and establish a residence and reside upon and cultivate the land for a period not less than one year, which added to their term of military service in the wars mentioned shall be equal to five years.

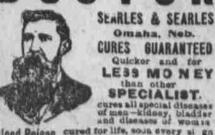

Within six months after making entry the homestead claimant must establish a residence in a house on his claim, and thereaster reside continuously upon the

land and cultivate the same for the period of five years.

Purthase Money and Fees. No fee whatever is required at the time of registration. Each person must procure and execute the proper and necessary papers for registration, for which notaries and other proper officers will be permitted to make a reasonable charge permitted to make a reasonable charge of 25 cents for each person. The executed papers must be presented by the person to the registering officer.

Those who become entitled by the drawing to make entry, must at the time of filing their homestead applications, pay the land office fees, which amount to \$16 for 160 acres, and in addition thereto. Siper acre for the amount of land embraced in the application. The fee for a soldler's declaratory statement is \$2, payable at the time of filing the same, which must be in the order of the drawing.

which must be in the order of the drawing.

At the end of two years, three years, four years, and within six motths after the expiration of five years, respectively, from the date of making entry the claimant must pay 75 cents per acre for the land embraced in his surry. Default in any payment at the time it becomes due forfeits all right to the land and the entry will be canceled.

Fees and price of the land are the same to solders and salors as other persons, and payments of the sume commence at the time of making homestead entry.

At any time after fourteen months of continuous residence and cultivation any person who shall have made a homestead entry for the lands in question may make a commutation proof upon such entry, upon payment of the balance of the purchase price for the land then remaining unpaid, the land office fees and commissions, and in addition thereto \$1.25 per acre for the land, for the privilege of such commutation. Upon lands filed upon within the first three months after August 8, 1904, the commutation price will be \$2.5 per acre, besides fees and commissions.

No person will be allowed to settle upon any of the Rosehud lands until after October 8, 1904, except those who shall make entry therefor pursuant to the act and proclamation. Commutation of Entries.

entry therefor pursuant proclamation.

high-class educated Filipinos. The better class of Filipinos felt that in the exhibit of natives at the St. Louis exposition the population of the islands was not represented fairly, as the Filipinos at the fair were composed largely of representative of the wild and uncivilized tribes.

Enemy of Boll Weevil. The Department of Agriculture today an-

nounced that an ant had been found in Guatemala that is an enemy of the boll he state in some way concerning stock into the cotton states. The greatest a'gnificance is attached to the discovery, Cabled instructions have been sent to of men and money.

During a trip in Central America last year Mr. Cook discovered a cotton grown by Indians which gave evidence of being immune from the raids of the boll weevil and on orders from the department he later began an investigation in certain points in Guatemala and Mexico. Mr. Cook's investigations have been in

more or less accessible regions in the provweevils are present there, but the investment of Precipitation tigations show that they are unquestionably kept in check by the presence of an active enemy in the shape of a large reddish brown ant.

Mr. Cook's investigations show that these ants spread themselves over fields of cotton four or five to a plant and that they are constantly engaged in the destruction of the boll weevils. Aerial Torpedoes for War.

The attention of the military and naval experts here, who have been closely following the developments of the war, has been attracted to the fact that on July 29 the prohibition imposed by The Hague conference upon the discharge of aerial torpedoes from balloons or flying machines will expire by limitation. It was with the greatest difficulty that the powers represented at The Hagus conference, through their military delegates, managed to reach an agreement upon the rules governing war and this particular section was fought over, although it is one of the few which the United States government accepted without reservation. To make easier the reaching of an agreement as to the use of aerial warships it was determined that the rule should be tried for a period of five years and that period of time expires in July. Consequently a new field is now open to the inventor of flying machines and dirigible balloons, which may now enter the

field of warfare without violation of the

Retail Trade Stimulated by Weather and

Business Generally Good. MANUFACTURERS REPORT IMPROVEMENT

Slightly Behind, but Foreign Commerce Shows a Gain at This Port.

NEW YORK, May 17 .- R. G. Dun & Co.'s

Weekly Review of Trade tomorrow will say: Weekly Review of Trade tomorrow will say:
Retail trade is stimulated by seasonable
weather and the industrial outlook is
brighter on the whole although adverse
factors have appeared. The big dry goods
auction sale opened with an unexpectedly
large attendance and good prices were secured. It is particularly gratifying to note
that retailers, rather than jobbers, have
mads most of the purchases, thus providing
prompt distribution into consuming channels throughout the country. Manufacturing lines report a slight improvement at
woolen milis and shoe factories, and, while
there is more idle cotton machinery, it is
worthy of note that the last Fall River
statement showed very little reduction in
dividends. worthy of note that the last Fail River statement showed very little reduction in dividends.

Railway earnings thus far reported for May fail 3.7 per cent short of the same time last year, but foreign commerce at this port for the last week shows gains of \$1.637,-250 in exports and \$545.55 in imports.

It is increasingly difficult to find encouraging conditions pertaining to the fron and steel industry. Purchases are small and frequently effected at further concessions, although it is difficult to find definitely lower quotations, except for rigition, which now averages from \$5 to \$5\$ a ton cheaper than at the corresponding date last year. Much structural work is under negotiation and there is constant hope that substantial contracts will be placed, but thus far the tonnage is small and conditions unsatisfactory.

Considerable export business is under consideration. This branch of the industry will need to expand materially if domestic conditions continue quiet, or the liberal output of pig iron will produce an undesirable accumulation of stocks.

Textile markets have improved to some extent the last week, conditions being notably favorable for retail trade, while the orders for woolens and worsteds increased more than the most sanguine manufacturers' anticipation. Cotton mills have further curtailed production, and in a few cases quotations at first hands are slightly lower. A better volume of business is reported in carpets.

Although packers' hides are active and firm, tanners discriminate in favor of late saltings, which is causing some accumulation of the less desirable qualities. Imported hides are steady at the recent deciline, arrivals being promptly absorbed. Leather is quiet. Returns as to the Now England footwear situation are irregular.

Fallures this week numbered 256 in the United States, against 206 last year, and if in Canada, compared with 7 a year ago.

WINTER WHEAT SHOWS GAIN Business Generally Shows Improvement, Although Behind Last Year. NEW YORK, May 27 .- Bradstreet's tonorrow will say:

NEW YORK, May 27.—Bradstreet's tomorrow will say:

The situation is rather more irregular. Distributive trade, stimulated by better weather in some sections, has improved, but is still behind a year ago. Cercal crops, particularly winter wheat, show improvedment, but cotton reflects drought by conditions in the south Atlantic and guir states, while good reports come west of the Mississippi. The industrial situation is hardly so satisfactory, a slowing down being noted in many leading industries; the number of idle persons is growing and unskilled labor shows in some sections a woeful tack of foresight and knowledge of real conditions. Current railway earnings continue to show declines from a year ago. Detailed telegrams from western markets show a livening up of distributive trade. Butter weather is stimulating retail demand at the south, but is the northwest rains at some markets have been unfavorable to current distribution. The rather better tone noted in eastern leather and shoe markets continues this week.

Duliness in the iron trade is responsible for a further weakening in pig fron. It is very generally a buyer's market, but values are low and third and fourth quarter requirements will soon have to be considered. Finished products are rather quieter, although there is some business doing at the west in light rails at reductions and in bars for the use of car builders. The copper market has moved lower this week, as has lead.

Wool is dull and in hand to mouth demand at Boston, New York and Phillicalphia, but is selling actively at prices equal to or above a year ago at the west, with one-half of the spring wool clips re-

OUTLOOK APPEARS BRIGHTER ported sold. The dry goods market has ASSEMBLY VOTES FOR UNION ong time.
Business failures in the United States for Presbyterians Almost Unanimously in the week ending May 25 number 164, against 215 last week, 181 in the corresponding week in 1903, 163 in 1902, 144 in 1901 and 145 in 1900. In Canada failures number four-teen, against fifteen last week and thir-Favor of Joining Forces with the Cumberland Church.

teen, against fifteen last week and thirteen a year ago.

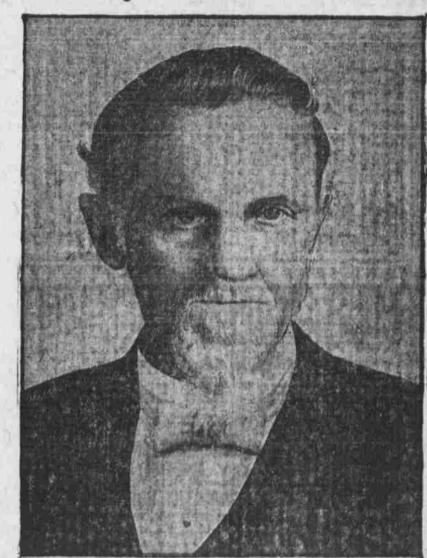

Wheat, including flour, exports for the week ending May 26 aggregate 1,182,167 bushels, against 1,225,763 bushels last week. 4,677,678 bushels this week last year, 3,900,665 bushels in 1902, and 4,138,970 bushels in 1901. From July 1, 1903, to date they aggregate 125,992,511 bushels, against 204,183,818 bushels last season, 228,899,914 bushels in 1902 and 189,589,9165 bushels in 1901. Corn exports for the week aggregate 233,696 bushels against 118,337 bushels last week. 1,179,739 bushels a year ago, 71,478 bushels in 1902 and 2,037,348 bushels in 1901. From July 1, 1903, to date they aggregate 49,948,206 bushels, against 61,371,561 bushels last season, 24,406,649 bushels in 1902 and 161,555,813 bushels in 1902. BUFFALO, May 27 .- Immediately after

### KIDNEY TROUBLE AND BRIGHT'S DISEASE

Rev. Dr. Jones, of Houston, Texas, says: "I Was Ill Unto Death With Bright's Disease, But Was Completely

Cured by Warner's Safe Cure

REV. W. J. JONES, Houston, Texas.

"The facts in my case may be briefly stated. I was ill unto death with Bright's case. No medicine reached me until Warner's Safe Cure was prescribed. Your dicine cured me. I see no advantage in going into details. I am thankful for the re," April 8, '04. (Rev.) W. J. Jones, D. D., Hil Jackson Street, Houston, Texas. Warner's Bafe Cure has been prescribed by leading doctors the world over for more than thirty years as the only certain curs known to medical science for Bright's disease and all forms of diseases of the kidneys, no matter of how long standing. If you have kidney trouble, or suspect it, or if any member of your family in this or past generations has had kidney disease, your life is in danger. It's hereditary. Get a bottle of Warner's Safe Cure without delay. All drug stores or direct, for and I a bottle. It will cure you and it's the only medicine that will. Cloudy urine or sediment in it when it stands twenty-four hours, bachache, headeche, etc., are certain signs of kidney trouble. Bookies telling all about this great medicine and some of the wonderful cures it has made and doctor's advice free. Warner's Bafe Cure Co., Rochester, N. Y.

Beware of so-called kidney cures that contain sediment and are of bad eder. They are dangerous. Take none but Warner's Safe Cure. "Safe" Pills move the bowels sently and aid a speedy cure.
