These reports must send the wheat up. for they have started a heavy buying from the southwest, which will be followed from do other sections. The market, in addition, it mate by Jones, who is more builts than other experts. Jonas thinks the condition is of the winter wheat in the suchwest re-quires serious consideration. May, he thinks, has brought no improvement in condition, and the yield east of the Rockies will be 50,000,000 bushels below the crop of last year. Texas he gives but a half crop, and Oklahoma a small one. The Ohio valley he finds sensationally small. The weather has been too cool to give the spring wheat a good start. Another expert finds Oklahoma in a bad way and limits the good crop there to five counties in the northwest. These will have a crop of 70 per cent of that of last year, while the rest will not run more than 10 or 20 per cent of four from Japan. This may affect the four situation considerably. It the war is continued for some months the demand for flour from Japan. This may affect the flour situation considerably. LONDON, June 5.-The special dispatches reporting that an Anglo-American arbitration treaty is under way have attracted much interest. The Associated Press is authoritatively informed that no negotiations are on foot or contemplated looking to a revival of the late Lord Pauncefote's unsuccessful efforts. The general trend of opinion in official quarters here especially at the Foreign office is that there is scarcely any necessity for a formal treaty of this kind. It is pointed out that all matters now in dispute between the two countries will go automatically to arbitration.

An official in an advisory capacity to the government, when the last arbitration treaty came up, said to the Associated Press ..

Porpoise Sinks to Any Level that Operators Desire and Fulton

NEWPORT, R. L., Jupe 5 .-- The experiments with submarine boats which have been going on here for a few days, were ontinued today when Naval Constructor J. J. Woodward took out the Porpolse. The boat first went from the surface to a depth of five feet. It was allowed to sink slowly while not in motion in order that Constructor Woodward might see how completely it could be maneuvered and con-It was next sent down as far rute. \$3.50 as fifteen feet and then to a depth of thirty-eight feet. It was sunk to the greatest depth and brought to the surface in two minutes and thirty-two seconds Constructor Woodward, after the experi-1.75 ments, said it had behaved magnificently The Fulton was also put through a number of tests under water today to determine its speed, immediately following quick sig nalling. the first of both choice heavy cattle and words good cattle of whatever weight sell to good advantage. Even, the commoner grades of steers have sold well this week, though of course they have hardly im-proved as much as the choice ones. Good to choice cattle may be quoted from \$5.50 to \$5.75 and strictly prime cattle would doubtless sell right around \$6.00. Fair to good cattle sell from \$4.50 to \$6.50 and the common to fair from \$4.55 to \$4.90. These prices are right close to \$1 higher than those in force a year ago. The market on cows and helfers has also been in very satisfactory condition and the choicest grades have improved about as much as the steers. Stock that shows any signs of grass, bowever, no matter if of good flesh, have shown no improvement, and canners and cutters have been neg-lected all the week and are certainly no more than steady. Commission men are apt to pound prices on that class at most any time. Good to choice aciders are apt to pound prices on that class at most in good flesh from \$1.50 to choice cows sell from \$4.60 to \$4.50 and canners and cutters from \$1.75 to \$2.90. The market on buils is 25% and canners and cutters from \$1.75 to \$3.00 to \$4 and common grades from \$3.50 down. Veal cautoning the is shallers all from \$4.50 to \$4.50, better grades of grass cows and cutters from \$1.75 to \$3.00 to \$4 and course are a little higher, the buik of them now selling from \$4.50 down. Veal calves are a little higher, the buik of them now selling from \$4.50 down. Veal courses are a little higher all the week and until about Friday the market held up in pood shape. The medium-priced cattle have been exceedingly light all the week and until about Friday the market held up in now selling from \$4.15 to \$4.40, fair to good from \$4.50 for have been moving very slowly and the market is decidedly weaker on that class. Full Executive and Judicial Ticket, with Representatives to Congress, Are to Be Named. PORTLAND, Ore., June 5 .- A full ex-

ecutive and judicial county ticket will be elected in Oregon on Monday, besides two representatives to congress. The congress sional incumbents, Binger Herrman of Roseburg, of the First district, and J. N. Williamson of Prinevile, of the Second district, are candidates for re-election on the republican ticket. Oregon ts normally republican. In the First district a bitter campaign has been carried on between J. T. Veatch of Eugene, the democratic candidate, and Mr. Herrman, in which the whole press of the state has taken sides. irrespective of district boundaries. As a result of this fight, while it is practically conceded that Mr. Herrman will be returned, it is probably that his majority will be under that of his predecessor, the late Thomas N. Tongue, whose majority two years ago was 7,372.

At the last election Mr. Williamson carried the Second district by 7,799 majority after a hard fight. There is practically no opposition to his re-election.

Under the new "initiative by netition" law, the option liquor law and a direct primary law will be voted on.
