The "cut in" was accomplished without probably half a dozen patrons of the company knowing of the change. The first intimation patrons received of the new system was when an employe of the company called at the office and house and removed the handle from the telephone bell. This signified that to call central under the new system all that is necessary is to remove the receiver from the hook. Within five minutes after the "out in" was accomplished a large force of

men was sent through the city to disconneet the handles from the telephone instruments. The new system is what is known as the

Sherman & McConnell Drug Co., Cor-nor 16th and Dedge 51s. Omaha, Want Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 37 but of every 100 persons in this state suffer from starrh in some form.

While the disease is one of the most common, it is one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs. Prior to the discovery of Hyomei and its ntroduction into this section by Sherman & McConnell Drug Co., every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops casses are proving a menace to the south of Hyomei in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete curs will soon follow. Breathe the Hyomel in this way, and the ostarrhal gorms even in the most remote air cells are destroyed. The irritated mucous membrane is soon soothed and healed, and per-

fect health restored.

Sberman & McConnell Drug Co. say to all catarrh sufferers, "Let us help you to health, we are confident that Hyomei will cure, so confident, in fact, that we guaran. tee to refund your money if it fails.
