

GRAIN AND PRODUCE MARKET

Government Report is About as Had Been Expected. OATS ACRES, HOWEVER, A LITTLE LESS. Foreign Wheat Surplus Figures Requiring to Attract Attention—Local Speculative and Cash Market Very Dull.

OMAHA, June 11, 1904. The government report is about as expected. The winter wheat condition is given at 77, against 75 last month and 82 last year. This is about what had been expected. An increase in condition for winter wheat is almost unprecedented during May, only one year being known to have a bumper crop was experienced.

While the cash market has maintained its position there is a widespread feeling of apprehension that a general slump is being experienced. The amount of the surplus is being estimated at 50,000,000 bushels, against 45,000,000 last year. This is a smaller figure than last year and it is expected that the surplus will be smaller still this year. The Indian government figures the surplus for export on the crops at 120,000,000 bushels, the same amount as last year and a good deal larger than last year and a good deal larger than last year and a good deal larger than last year.

The sample tables were almost bare this morning and the business of the exchange was at a standstill. The brokers and other workers were busy with their work but there was very little trading. The market is adjusting itself to new rates schedules. Receipts and shipments from the Omaha market this morning are about as follows:

NEW YORK STOCKS AND BONDS

Market Has Encouraging Day and Strikes Higher Levels. STEADINESS OF PRICES PROVES FEATURE. Report from Washington Acknowledges Permission for the Deposit of \$2,100,000 at New York Subtreasury.

NEW YORK, June 11.—The short session of the stock exchange today showed good support for prices and the market closed firm at the top level of the week. There was considerable trading and it was evident that satisfaction was felt over the extent of the monthly crop report to prompt the advance in price and the reserve of the deposit with a margin of \$1,812,250, which went to enhance the surplus reserve of the Treasury.

There is a general feeling of confidence in the government and the market is well supported. The government report is about as expected. The winter wheat condition is given at 77, against 75 last month and 82 last year. This is about what had been expected. An increase in condition for winter wheat is almost unprecedented during May, only one year being known to have a bumper crop was experienced.

Louise Michel Describes Feelings When Death Appeared to Be Near.

(Copyright, 1904, by Press Publishing Co.) PARIS, June 11.—(New York World Cablegram—Special Telegram.)—Louise Michel, much broken in appearance from the severe strain from a recent illness, has just given a lecture in the Hotel des Rochettes in Paris, a lecture in which she described her feelings when she believed herself to be dying. "My will was absolutely gone," she said. "I observed myself as dispassionately as though I were another being. All material things became vague. But my impressions grew powerfully acute—my senses became externalized as it were. I recollected a similar experience I had in New Caledonia during a cyclone. The heavens were black, the sea was black, and it seemed to me that from the depths of the sea rose a profound power of attraction. It was as if I had existed in the elements and death was only a return to them."
