serious character, the opinion being that General Kuroki continues to dangle before General Kouropatkin's eyes a double obbut that he is not yet strong enough to risk a real advance. This belief is based on calculations that the enemy has not more than 130,000 men all told in southern Manchurla and that only in the event of the Japanese attaining strength greatly in excess of these figures will they be capable of a genuine forward move-

No fresh news has been received in regard to the situation around Port Arthur. Private advices from Liao Yang indicate that the Russian force at Vafandian is prepared to retire northward if seriously

Capture Important Points. TOKIO, June 11 .- The town of Siu Yen now occupied by the Japanese army, is of great strategical importance, being situated about forty miles northeast of Kalping and forty-five miles southeast of Hai Cheng. It commands perfectly the roads to both Siamateza le also an important point, as it controls the roads to Liao Yank and Mukden. By following this route the Mao Tien Ling pass, a strongly fortified and almost impregnable Russian strong hold, will be avoided on the advange of of specie. the Japanese army northward.

KOUROPATKIN IS A BUSY MAN Spends His Time on Headquarters

Train Planning Work for Army. LIAO YANG, June 11 -The entire Russian plan of campaign is directed from a railway carriage here, in which General Kouropatkin works, eats and sleeps. The car is divided into a saloon, a study and a bedroom. The commander-in-chief passes the most of his time in the study at work, surrounded by his uldes. Although of small stature. Kouropatkin is at once distinguishable among his entourage, however brilliant may be the uniforms, by his determined gestures and sturdy figure. He has the reputation of being severe, but just, and his word is law. His officers express the fullest confidence in him and he is the idol of the common soldiers, and ant. He takes little or no rest, except a balf nour's siesta after lunch, when the heat is excessive, and he occasionally indulges in the distraction of reading literary works.

Dispatches from the scene of operations are brought to him at any hour of the day or night. The general cats well, of simple dishes, but hurriedly, seldom remaining at the table more than a half hour. He drinks wine sparingly, smokes a clear or two after breakfast and sets o general example of abstemiousness to his officers. He rises at 7 o'clock and retires at midnight. After drawing up a daily dispatch to the emperor, summarizing the situation, his mornings are engaged in the consideration of correspondence and tactical questions. He often mounts a horse and makes a tour of inspection of the camps and military works around Liso Yang, sees visitors during the afternoon and subsequently receives the reports of the generals at the theater of operations.

Kouropatkin is much intrested in the Red Cross work, visits the hospitals and speaks encouragingly to the patients. He never misses going to the station to meet trains bringing wounded men, and out of the funds sent from St. Petersburg gives to an unmarried man, \$2.50 to a married man and as much as \$250 to officers. He also distributes medals to the wounded who have performed acts of special bravery.

St. Petersburg Paper May Be Suppressed for Printing News. BT. PETERSBURG, June 11, The Russky Invalid, in concluding an article on the military situation in the far east, inclines to the belief that fighting has already occurred in front of Port Arthur and that

the Japanese sustained a reverse. The Viedomosti, of which Prince Oukhtomsky, who is now sojourning in the United States, is the editor, has received a second warning for "gratuitously dis-turbing public opinion" by printing a report that some Moscow merchants had subscribed to a Japanese loan. A third warning will result in the suspension of the publication of the paper.

it go as far north as Djiandjian, is of a | that the submarine boat Protector had been shipped from Newport News, Va., for Japan, expresses the hope that the United that these also had been used in smashing leave the United States,

MESSENGERS SECURE NO NEWS

Japanese Cruiser Watches Russian Boat to Prevent Escape. NEW CHWANG, Friday, June 10 .- (Delayed in Transmission.)-Messengers sent. to ascertain the truth of reports that the Russians are moving a large force in an attempt to relieve Port Arthur returned here last night without having learned anything.

A Japanese cruiser has been seen near Ka Chen during the last three days. It is believed to be watching the Russian to prevent it from making a dash for the open sea and attempting to reach a neutral port and there disarm.

Local merchants have been informed by Shanghai shipping firms that they will not undertake at their own risk the delivery of merchandise of any nature at this port The Russians continue to receive immense cargoes of flour and large amounts

United States Consul General Miller in making a close investigation of the death of Lewis Etzel of Denver, Colo., the correspondent of the London Daily Telegraph recently killed by Chinese soldiers. The Chinese general has expressed much regret and says he will punish the men who shot Etzel when they return, They have not been seen since the Etzel incident. The funeral of the correspondent was largely attended. General Kondratsvitch and his staff, the civil officials and the consuls were present.

Randits are pillaging the outskirts New Chwang almost nightly.

RECEIVE REINFORCEMENTS Bussians Say Early Attack May Be

Expected on Port Arthur. LIAO YANG (Russian Headquarters), June 11.—Reports from Chinese sources are the foreign attaches find him most pleas- to the effect that the Japanese forces near Port Arthur have been heavily reinforced. It is believed that an attempt to take the fortress by assault will be made as soon as the Japanese are strong enough to invest it on the land side and at the same time protect themselves from possible attack in the rear in case the Russians sent a force from the north.

There are persistent reports that the Port Arthur squadron has succeeded in making a sortie, but no official confirmation of the report is obtainable.

The Russian reinforcements on their way here will soon materially change the situation and enable General Kouropatkin to

General Kuroki's main army is still at Feng Wang Cheng. Russian outposts cover his right flank above Slamatsza and extending eastward. They are in constant touch with the enemy and there are almost daily skirmishes of more or less importanca. Developments are anticipated in this direction.

Chinese Say Japanese Are Desperate. VAFANGOW, Liao Tung, June 9 .- (Delayed in Transmission.)-The railroad will be repaired to Vafandian tomorrow. The Japanese lost a prominent commander in the last fight and according to reports them money according to their rank-\$1.50 from Chinese sources they are displaying signs of despair, shaking their fists in the direction of the Russian forces.

The bombardment of the coast northward was a mere demonstration. The Russians did not reply. There is no sickness among THINK JAPANESE ARE REPULSED the Russian troops and they are in excellent spirits.

MILITARY WRECKS PROPERTY

Uniformed Mob Breaks Into Engineers' Club and Descroys Valuables.

CITIZENS ARE BRUTALLY TREATED

Business Man Beaten by Soldiers and Others Shown Specimen of Colorado Brand of Military Rule.

DENVER, Colo., June 11. Supplying the wives and children of the union miners in the Cripple Creek district with provisions and taking care of the deported men are serious problems before the executive board of the Western Federation of Miners at the

present time. At the meeting of the board today it was decided that the commissaries shall be immcdiafely established at Cripple Creek, Victor and Anaconda. Whether the miners win or lose in the present strike the board is determined that the wives and little ones shall not suffer.

William D. Haywood, secretary-treasurer of the federation, said that the men deported to the Kansas line who are now at Holly will be brought to Denver at the expense of the federation if they wish to come. He sent money to Holly today for their expenses.

Secretary Haywood received information from Victor that members of the militia had broken into the Engineers' club in Vic tor and thoroughly wrecked it. The letter which contained this news stated that th doors had teen broken in with axes and States government will make a detailed numerous delicately constructed models of explanation of why the boat was sllowed to engines, built by members of the club. Desks had been backed to pleces and lockers smashed while the charter of the club had been torn down and destroyed.

Application for a rehearing in the case of Charles H. Moyer, president of the Western Federation of Miners, who is a military prisoner at Telluride, and whose petition for release on writ of habeas corpus was denied by the supreme court last Monday, was made by Attorney E. F. Richardson in the supreme court today. In his application Mr. Richardson cites the fourth, fifth and fourteenth amendments to the constitution of the United States and asserts that the decision of the court allows the military arm of the government gunboat Sivouch, which is bottled up here, to hold Moyer in violation of the terms of the federal constitution.

> Soldiers Brutally Beat Citizens. A special to the Times from La Junta says that one of the militiamen, while in this city, struck the Santa Fe ticket agent, Bachrach, over the head with a sixshooter, inflicting a very bad wound, and threatened to kill him.

C. L. Seely and M. M. O'Neil were bru tally treated by the militiamen when they passed through for the state line. Mr Seely is a newspaper correspondent and endeavored to get an interview with some of the militiamen, but they walked him off the platform at the point of a rifle. Mr. O'Neil, a business man, was stand-

ing on the platform, when five of the militiamen attacked him, pushing him and striking him with the points of their guns, and because he would not run to get out of their way he was beaten, thrown into the waiting room and out under guard.

Cheers were given for the miners by the crowd gathered around the station while a change of engines on the military wain was being made.

OTHER SIDE OF STRIKE STORY Executive Board of Federation of quently served to visitors in the grand-Miners Answers Hamlin and Puts Responsibility for Violence.

DENVER, June 11 .- The executive board of the Western Federation of Miners today issued a statement regarding the situation in Cripple Creek, in reply to the state ments made by General Sherman M. Bell and Secretary C. C. Hamlin of theaCripple Creek District Mine Owners' association. It is as follows:

It is as follows:

The cause of the strike of the Western Federation of Miners in Colorado is one of long standing and involves the failure on the part of miner owners in far parts of the state to live up to their own agreements. As far back as 1884, as a result of the strikes at that time, the mine owners agreed that eight hours should constitute a day's work, that the minimum daily wage should be 38 and that there should be no discrimination against union men in the hiring and discharge of labor.

At the outset of the present trouble Manager MacNeil off the Standard mill at Colorado City, peremptorily discharged fortyfive men, members of the Western Federation of Miners, for no other reason than that they had become union men. All of these were old employes of from two to six years' standing. Millmen are affiliated with the Western Federation of Miners and are entitled to all of the protection that goes with such membership.

Today the only questions involved are the enforcement of the eight-hour day, the right of men to organize in the unions and to prevent discrimination against union men of all kinds.

Where Responsibility Belongs.

Where Responsibility Belongs. The responsibility for the lawlessness connected with the contest rests entirely on the shoulders of the mine operators, the Citizen's alliance and their allies, backed up by the ready power of the state government.

backed up by the ready power of the state government.

The responsibility has been placed on these persons and organizations by District Judge Theron Stevens, who denounced the military usurpation in Telluride in strong language from the bench; by District Judge J. Walter Dixon, republican, who openly condemns Governor Peabody and severely crilicizes his acts, involving the deportation of men from the state without trial or other chance of hearing; by former Governor Charles S. Thomas, who plainly points to the Mine Owners' association and the Citizens' alliance as being responsible for the many outrages committed on the persons of helpless and innocent miners; by the recent democratic state convention, which denounced in scathing terms the line of policy pursued.

The events of the present week in the Cripple Creek district justify every accussion contained above. The following crimes on citizenship have followed swiftly one upon the other:

The resignation of Sheriff Robertson of Teller county, forced by a mob at the point of a pistol and a coli of rear the

The resignation of Sheriff Robertson of Teller county, forced by a mob at the point of a pistol and a coli of rope; the all that one forced resignation of Coroner Doran of Teller county, of the city marshal of Victor. Of various aldermen and Justices of the peace in the district; the entire official directory of the city of Goldfield, assault mon and demolition of the Union hall in lictor; forcible entrance into the four milon co-operative stores and destruction of the contents; destruction of the Victor Geord by an armed mob; invasion of Dunnville, outside the military lines, by an armed force under military command; arrest of men at their work and incarceration within the military lines; hundreds of men confined in unsanitary bull pens; forcible abutdown of the great Portland mine for employing union men, by order of the military commandant on the plea of military necessity and subsequent deportation of the men therein employed:

There was none of it see the point of the men therein employed:

Concerning the explosion which wrecked he depot at Independence and killed sixeen unfortunate nonunion miners, it need only be said that the self-confessed train strecker. McKinney, in the employ of the dine Owners' association, had a few days reviously been released from custody at he behest of the attorney for the association and this same McKinney was observed oling down Potis' Canyon in the immediate vicinity of the wreckage only a short line after the disaster, and that the blood-ounds used to track the criminal went diestly to the house occupied by a detestive the employ of the Mine Owners' association and was promptly called off. McKinger stated on cross-examination during the rial of the union miners who were accused the attempted train wrecking that he nd another detective said that for a money consideration he would pull spikes and wreck a train, Photographs of marked miners referred to Detectives Plan Ruin.

"American people undoubtedly eat hurrical recek a train.

Photographs of marked miners referred to a General Bell, who, he claims, were marked for death, must be regarded as an avention of his own brain. The photographs in question are those of strike breakers and were kept for the purpose of publishing a soab list with the pictures of the men accompanying their description so that members of organized labor all over

the country would become thoroughly ac-quainted with these men who have com-mitted treason to themselves and to their trade. The pictures are nothing more than those having charge of the strike in the district have publicly used for many months.

Strike Result of Vote. Charges that miners are not allowed to vote on questions of strike are utterly ab-surd. As a matter of fact, according to the constitution of the Western Federation of

surd. As a matier of fact, according to the constitution of the Western Federation of Miners it is absolutely impossible for the executive board to call a strike of its own volition. The present strike is a result of a direct vote of the unions in the district, which left the matter entirely in the hands of properly delegated authorities for adjudication and settlement.

The twelfth annual convention recently held in Denver appointed a special investigating committee consisting of Malcolm Crillis of Butte. Mont.; H. B. Seaman of Roesland, British Columbia, and R. E. Allen of Dillon. Wyo., which committee made a personal investigation by a visit to the Cripple Creek district only last week and reported to the convention that the constitution of the Western Federation of Miners had been observed in the minutest detail during the entire prosecution of the contest. Absolutely no deaths have occurred during the contest for which the Western Federation of Miners can or ought to be held responsible. Some fifteen men were killed in the Stratton independence mine through the incompetence of the management. These men were unfamiliar with the work and were such as this mine and other mines in the district have been compelled to employ at the behest of the Mine Owners Employment agency.

We are unfortunately forced to abide by the acts of an unbridled military despotism that is driving our members from pillar to post. Their fortitude under the circumstances is a marvel of the age and shows that the Western Federation of Miners is composed of the highest type of American citizenship.

The telegram sent to President Roosevelt asking him to investigate conditions in Colorado is appended to the statement.

WHY JOHN HEAD IS LOCKED UP Iowa Man Undertakes to Collect from Girl the Price of Her . . Shame.

Last night the police made the arrest of John-Head of Jefferson, In. According to the police. Head a few days ago brought Bertha Wynkop, a girl of 19, from his home town to this city and placed her in a house of assignation and attempted to collect the money she gained. The man is already married and is said to have two children

Officer Sandstrom, who arrested the man first heard of the affair from Bessle Wear, the landlady of the assignation house, who complained that Head had come to the house and demanded money from the girl On the landlady objecting to this Head is said to have threatened to hit her. Sandstrom came upon him before he could put his threats into execution. The police also assert that Head had left his wife in the same house for a few days, but that she had returned to her home to look after her children

Officer Sandstrom asked Bertha Wynkop if she wished to leave the place, saying that she would be looked after at the police station until her friends could be noti-But she decided to stay. "Go back home after this," she said.

pointing to rooms around her. "No, thanks. I'm here for good. The girl states that Head, who is a young man not much over 21, is a son of former Speaker Head of the lowa legislature, a prominent banker, business man and politician of Jefferson, and that the father had set the young man up in business, but that he had gone to the bad.

Entertain British Saflors, SHANGHAL, June 11 .- Twelve hundred men belonging to the British fleet lying at Wu Sung were entertained here today by the British community. After dinner at the town half the men engaged in athletic sports on the race course. Tea was subrestand. The weather during the day was

Perlin of Athletics.

perfect.

At the meeting of the American Medical association in Atlantic City the past week college sports fell under the ban of the doctors, who sounded a note of warning doctors, who sounded a note of warning of the dangers resulting from over-exertion in feats of strength. The discussion was in the nature of a symposium on arterioscierosis, which is a stiffening and deterioration of the arteries, causing them to age prematurely and frequently affecting the heart. It is an incurable disease, resulting principally from overwork. Dr. James M. Anders of Philadelphia stated that the excessive strain undergone in college contests on football field and track resulted in disease, of the heart and great blood vessels hardening of the arteries among them. He declared that the arteries among them. He declared that the arteries of many young men are as deteries among them. He declared that the arteries of many young men are as decrepit as those of a person 70 years of age and he urged that it is the duty of the medical profession to warn parents and those in charge of educational institutions where athletic sports are permitted of the serious results that might follow the playing of football and other tests of strength. He was supported by Dr. Stengel of the University of Pennsylvania, who said that he had had an unusual opportunity to study and examine college athletes, both during their athletic careers and for some years afterward, and he declared that the great strain put upon the heart and great blood vessels in the course of a big football game is likely to result in laying the foundation for card'ac and vascular disease. It may not appear at once, but it is likely to develop in after years.

at once, but it is likely to develop in after years.

Unquestionably there is merit in the warning which these doctors give, and it should be widely disseminated, yet there is very little prohability that it will be much heeded by those who should give it attention. The physically vigorous college student, with a love for sport and a belisf in his ability to make a brilliant record on the football field will hot be deterred from engaging in that exciting and exacting sport by the danger that at some time his heart may be affected or his arteries spirtened. Disability and the arteries spirtened. Disability as neek or his back broken in the strenyous melee, he is not likely to trouble himself about possible consequences sometime in the more or less distant futures. College athletics will of course be maintained, whatever the doctors may say, and football will undoubtedly remain a leading feature of them so long as there are young Americans with the muscle and nervs to play the game.

TURN OVER TIME. When Nature Hints About the Pood

When there's no relish to any food and all that one cats doesn't seem to do any good, then is the time to make a turn over in the diet, for that's Nature's way of dropping a hint that the food isn't the

kind required. "For a number of years I followed railroad work, much of it being office work of a trying nature. Meal times were our busiest and eating too much and too quickly of food such as is commonly served n hotels and restaurants, these together with the sedentary habits were not long in giving me dyspepsia and stomach trou-

ble, which reduced my weight from 205 to "There was little relish in any food and none of it seemed to do me any good. It seemed the more I ate the poorer I got, and was always hungry before, another meal, no matter how much I had eaten. "Then I commenced a fair trial of Grape-Nuts and was surprised how a small saucer of it would carry me along, strong and with satisfied appetite, until the next meal, with no sensations of hunger, weakness or

distress as before. "I have been following this diet now for several months and my improvement has been so great all the others in my family have taken up the use of Grape-Nuts with complete satisfaction and much improvenent in health and brain power. "American people undoubtedly eat hur-

CENTER FOR INDIAN SUPPLIES

Omaha to Become at Once an Important Distributing Point.

COMMISSIONER JONES TO PAY VISIT

Drugs, Sugar and Packed Meats Among Other Lines Will Be Extensively Handled from

(From a Staff Correspondent.) WASHINGTON, June 11 .- (Special Telegram.)-During the coming fiscal year the indian bureau plans to give Omaha a better show in the matter of warehousing and shipping Indian supplies. Commissioner Jones said today that next year Omaha would be made quite an important distributing point for certain lines of Indian suppiles, particularly drugs, sugar and packed meats.

"We have a most excellent superintendent in chargo at Omaha," said Mr. Jones, 'and under his superintendency it will be greatly to our advantage to increase the facilities for warehousing and distribution of supplies from Omaha, and I intend to so increase at the beginning of the new

Commissioner Jones leaves for San Fran cisco the latter part of next week, via the Southern route, but said today that upon his return from the coast he would come via Omaha and thus be able to personally look into the situation there. In years past practically the entire business of purchasing and distributing supplies for the Indian service has been conducted through the cities of New York, Chicago, St. Louis and San Francisco. Omaha, in spite of protests, has been ignored, representatives in congress of its neighbors, Chicago and St. Louis, being powerful enough to maintain the supremacy for their respective cities. This they were able to accomplish largely because in the past freight rates aided their localities. Now, however, this matter of freight rates no longer mitigates against Omaha, and the Indian bureau officlals are preparing to give Omaha at least, a fair proportion of the business. The merchants of Omaha have long waged the fight for a reasonable share of the business and it would now seem from the statements made by Commissioner Jones that their desires are about to be realized.

ST. CROIX CLUB'S TENNIS TOURNEY Preliminary and First Round Matches Are Played Off.

Matches Are Played Off.

Yesterday the preliminaries at the St. Croix club were opened, though owing to a misunderstanding many of the players booked to appear, did not show up. The St. Croix began practice a month and a haif later than the Field club, and their beginners did not make as good a showing as did the youngsters of the Field club on their opening day. This lack of practice was also apparent among the older ones, who were continually hitting wild or serving poorly. The surprise of the afternoon was the play of Sleepack a "new 'un," who beat Gillespie in the prelims and entered the second round by defeating Champion in the first. His play was not exceptionally good, but he kept his head, played steady and was blessed with a bountiful store of good luck. On Monday he will meet Kohn, and there is hardly a doubt that will be his finish.

his finish.

Some of the men who were practicing showed good form, but will have to hustle if they wish to get the city championship. At present it looks as if Chase—who is a member of both the St. Croix and Field clubs—is the only man they can depend upon. Yesterday's results were as follows:

R. Gilleepie, plus 4 of 15, lost to Sleepack, plus 15, 6-4, 2-5, 11-2.

L. Kohn, 4 of 15, lost to Champion, plus 15, 8-6, 6-2.

Doherty, plus 30, lost to H. Kohn, minus Doherty, plus 30, lost to H. Kohn, minus FIRST ROUND.

Johnson, plus ¼ of 15, lost to Mudge, plus ¾ of 15, 6-1, 6-2. Champion lost to Sleepack, 6-1 7-5. J. Hughes, scratch, lost to H. Kohn, 7-5, 6-2.

EVENTS ON THE RUNNING TRACKS Highball Defeated by Bryn Mawr in Brooklyn Derby.

NEW YORK, June 11—Bryn Mawr won the Brooklyn derby at Gravessend today, defeating High Ball, who was last year's 2-year-old champion. It was a hollow victory for Bryn Mawr, for he wen well in hand by four lengths. High Ball was to have been shipped tomorrow to Chicago to run in the American derby, but as a consequence of his defeat today. W. W. Scheftel, his owner, announced that the horse would remain here.

The Brooklyn Derby was at a mile and a half, with \$10,000 added money. The field today was the poprest that ever faced the starter in this event.

The surprise of the day came in the third race, the \$12,500 Tremont stakes for 2-year-olds, when Britisher, at the prohibitive odds of 1 to 5, met defeat. Candling, at 40 to 1, easily won the Kensington steeplechase from a fair field of jumpers. Engight, in this race, fell at a jump on the back stretch, broke his leg and was shot. Results:

stretch, broke his leg and was shot. Results:

Get Ready for Hot Weather

Have you one of those stuffy, hot offices, where life is unbearable in the summer? Or one of those west front offices, where the sun beats mercilessly, so that you and your employes can do only half the work that they would in a cool, comfortable office? If you happen to be fixed in this way, you had better look around in the Bee Building. Every office in the Bee Building gets its share of the breeze, if there in any. On account of the court, it has perfect ventilation. Particularly in hot weather, there in nothing so aggravating as a poorly kept office. What do you think about moving, and moving now?

R. C. PETERS & CO., Rental Agents
