It is safe to assert that no better game blg United States yesterday afternoon than the people of Omaha had the privilege of seeing on the Vinton street grounds, when can do with the leather sphere.

Brown, the new pitcher, was in the box for the home team and made his bow to a Sheckard, 2b. critical crowd of fans, who at the end of the game could not pick a single flaw in his work. Brown is a heady player with great strength, tremendous speed and curves that it makes one sensick to follow. On two or three occasions he showed that he has the coolness in an emergency that is so essential to a first-class pitcher and for nothing. Only two scratch hits were made off him, and nothing that had the semblance of a hit was negotiated until the eighth inning. In this connection the fact should not be lost sight of that he had seven men behind him who played a faultless fielding game that was in individual instances brilliant. Shipke's stop of a hot line ball off Hoffman's bat in the sixth inning prevented the visitors from getting a run and was a phenomenal piece of playing. He captured the ball while running at his utmost speed, not far from and behind the pitcher's box, and sent it down In time to catch his man at first without so much as slackening his speed. Harry Weich, too, made a couple of sensational catches on the run that would have been dangerous had he been less shifty and

sure of judgment,

Hawkeyes About as Good. The Hawkeye people were about as good,

for the only error scored against them was made by Hoffman in the first inning and cost nothing except the mark against him. One pretty play that sent Jack Thomas' stock up several points with the fans was made in the third inning. With two of the visitors gone to the bad, Thiel worked Brown for a pass to first. McChesney hit sharp one down midway between first and second bases that didn't look good to Jackie, so he went after and got it, but It was too late to do any damage to the batter so he trotted right along, tossed the ball to Dolan at second jus; shead of Thiel who found the putout there to re-

Brown was the first man to make a hit for either side and this he did by a drive to right field in the third inning. But he died on second. Then they jogged along until the seventh, when "Cap" Doian relieved the tension by cracking one down to short so hot and hard that Hoffman couldn't handle it. Joe being the first man up for Omaha it looked as good as it proved, thanks to the kindly offices of Spotty Freese who, after Thomas had sactified Dolan to second and Shipke had.

WASHINGTON PARK CLUB MEETING

Horses Already Arriving in Chicago for the Western Derby.

cHicago, June 12.—Horses are rapidly arriving at Washington park and all rumors as to the abandonment of the meeting were set at rest tonight by Secretary Howard, who stated positively that the meeting would run as scheduled from June 18 to July 16 inclusive.

"There has never been the slightest intention of the Washington Park club calling off the meeting," said Mr. Howard tonight. "When we gave out the entries for the derby and the conditions for the rest of the races it made our meeting a certainty. I look for a splendid field for the derby. Moharib's victory Saturday makes him a formidable candidate. English Lad's defeat does not make Fred Cook's horse any less dangerous, and Fort

makes him a formidable candidate. English Lad's defeat does not make Fred Cook's horse any less dangerous, and Fort Hunter's win at Buffalo shows this colt to be a good one."

Secretary Howard announced tonight that no telegraph wires would be allowed on the ground. One of the telegraph companies has in the past had a number of wires into the ground, but these will be shut out this year. Newspapers will be given ample telephone facilities, but outside of this no messages will be allowed to be forwarded from the track.

Highball, W. M. Scheftel's American derby colt, will not come west to start in the Washington park classic next Saturday. A telegram was received today by Secretary Howard from Mr. Scheftel, briefly stating that Highball would not be shipped to Chicago. Fort Hunter, M. Dyment's American derby candidate, will be in Chicago early in the week. Immediately after the Buffalo derby, which was won by Fort Hunter Saturday, his owner telegraphed that the coit would be shipped to Chicago at once.

It left the navy yard at 10 o'clock and after a stop of an hour at Mount Verion, continued the cruise down the river as far as the Indian Head proving grounds, returning at 5 o'clock. The commissioners will leave for Philadelphia Monday morning in continuation of the tour of the country.

SENATOR COCKRAN MUCH IMPROVED No Serious Effects from His Bicycle

Accident. WASHINGTON, June 12-Senator Cockran of Missouri, who was painfully injured yesterday by being knocked down by a boy with a bicycle, was considerably improved today. The wound in the shoulder was painful, but it is thought it will readily yield to treatment. The senator is of robust physical condition and fortunately suffered no shock to his nervous system as a result of the accident. His pulse was normal today and he was able to receive most of the many friends who called to inquire after his health.

WARNS THE COUNTY BOARDS

Equa'isirs Are Cantions to See All Property is Assessed at Full Value.

MANDERSON ENDS RAILROAD ARGUMENT

State Board of Equalization Expected to Announce Valuation on Railroads Not Later Than

Tuesday. (From a Staff Correspondent.)

LINCOLN, June 12-(Special.)-At the meeting of the State Board of Equalization yesterday the statement was made by one of the members that it was the intention of the board to issue a circular letter to be sent to the various county boards urging them to see to it that all property of whatever description was valued at its full cash value, to the end that justice would be done and for the first time the burdens of the state would be equally distributed. This statement was brought out in the discussion started by Mr. Crandon and Ben White, who seemed to be sure that the real estate in the various counties would be returned at from 65 to 85 per cent of its

It is the duty of the county boards of equalization to see to it that every piece of property is assessed at one-fifth of its actual value, and if this is not done, the honest taxpayer in the county affected is the one who will suffer. The State Board of Equalization, when it meets in July, cannot raise the valuation of the farm of John Smith except by raising the valuation of the entire county by a certain per cent. So if one piece of property is allowed to be returned at less than its actual value, and thus making the assessment of the county lower than it should be, to compel one man to pay on the valuation he should pay on every man in the county will be affected, should the state board see fit to increase the county's valuation.

Section 130 of the revenue law gives the State Board of Equalization power to increase the valuation of any county by a per cent and when this is certified to the county clerk he is required to add the per cent of increase to every piece and parcel of property in the county so affected.

It is probable that tomorrow when the state board gets through listening to former Senator Manderson of the Burlington, ft will make public its valuation of railroad property, unless General Manderson comes down so full of new ideas that the board is again thrown up in the air. It is not likely, however, that he will say anything that will in the least affect the final result, as about every possible thing that could be said has been said that would throw light on the proposition to make it more obscure. The board will use the stocks and bonds and the net earnings as the leading factors in arriving at the value, and in doing this it will pave the way for future boards to get along with less trouble than have the boards in the past. No board probably has been more beset by the railroads than has this one. The members have been hammered morning, noon and night and they have been fairly covered up in a mass of facts and figures much of which has been of no benefit whatever in aiding the members to reach a conclusion, and there is not a member of the board but who will be glad when it is all over,

CHARGE THE MURDER TO M'CLOUD Will Be Arrested When His Present

Prison Term is Ended. YORK, Neb., June 12.-(Special.)-Relatives of Ben Minnick, who was murdered in the vicinity of Thermopolis, Wyo., will arrest James McCloud, alias 'Driftwood Jim," upon his release from the Wyoming York county and last year assisted his who had sent word to the Minnicks that if they did not move out of the country with dress, said: their sheep they would be killed and their sheep destroyed.

The parents here, with assistance of authorities in Wyoming, have been securing evidence and suspicion, said to be well founded, is that James McCloud murdered Ben Minnick. The current report in that neighborhood is that "Driftwood Jim" was employed to kill William Minnick, and because he made the mistake of killing Ben Minnick, his brother, those who agreed to pay him for the murder have refused to fill their part of the contract, and that was the reason McCloud came back to the neighborhood and was captured.

At the time of his capture McCloud was heavily armed and well mounted and swore vengeance on certain parties, and it is reported that several very wealthy and influential cattlemen are involved and that at the trial there will be exposures of the plotters and employers.

The convened here tomorrow with Judge Hollenbeck on the bench. The jury for the regular May term which was excused a few weeks ago but not discharged, will report for duty again in the morning. The pecial term has been called mainly to try James Kelly, who is charged with the murder of Arthur Snowden.

Snowden's lifeless body was found on the morning of March 29 in a deserted house on the farm of Frank Graham, living in Humphrey township. Kelly was seen within two miles of the place before the body had been found and hung around Humphrey all that day. The state claims to have a very strong case, though the evidence is entirely circumstantial. Kelly and Snowden were in jail together at Fremont; Kelly was heard to threaten Snowden while they were in jail; they were seen here together the day before the murder when they sold goods to a Jewish peddler, which were afterwards identified as having been stolen from a store in Bellwood The state has issued subpoenas for twentynine witnesses and among the names are Mr. and Mrs. Snowden of Kearney, the aged parents of the murdered man. Hon. J. J. Sullivan will assist the county attorney in the prosecution.

HIS THEME IS FOR THE BROADER LIFE

Brocalaureate Sermon.

Simple Life May Be Mean, Bare and Unrewarding, and, What is Worse, Selfish and Belittling.

Believes in Broad Life. The vast accumulations of wealth, the rast material equipment of civilization in our day ought not to mislead us into supvast material equipment of civilization in our day ought not to mislead us into supposing that this is an age gross and material beyond precedent, more debauched by greed or intoxicated by material power than any that has gone before it.

If though its spiritual impulses and conceptions and undertakings do not run exclusively along the old, hallowed and familiar ways of religion as in some noted days gone by particularly days that shino bright and illustrious in the early annals of our own nation, the spirit of man has waxed as strong in our time as has his hand and given itself to works as mighty and as influential.

Mean and Belittling.

Menn and Belittling.

Many petty books and homilies have been written for us of late in advocacy of a simple life, and beneath their sentiment lies a noble and enlightening toth. There lies a noble and enlightening (24th. There is no virtue in a plainity furnished room or a little circle of employments. A little group of friends is no certain means of grace. The simple life may be very mean and bare and unrewarding; what is worse, it may be very selfish and belittling.

The kernal of the moral is simply that our life is greater than the things that we handle and that our life is in us, not in our possessions or our social and business engagements.

God is Not Enclosed. After saying that God is abroad and not shut up behind conventional walls and that the college man, because of his training, ought to be the best man among men of

God. President Wilson continued: "It is no doubt ordained that the world shall be saved, not only by 'the foolfshness of preaching,' but, also, by the courage of action and the satisfying nobility of unim mian band marched to the cemetery and peachable conduct, and colleges cannot make serviceable men unless they make men of brains also men of principle.

> **BUTCHERS ARE TO GO IT ALONE** Those of Chicago Withdraw and Break Up the Packing Trades Connell.

CHICAGO, June 12.-In order to free themselves from the yoke of sympathetic strikes which their leaders have determined menace their progress, all the union butchers affiliated with the Chicago Packing Trades Council, withdrew from that body today. The butchers who belong to the Amalgamated Meat Cutters and Butcher Workmen of America number about 22,000 men in the Chicago packing houses alone. They were the originators of the Packing Trades Council, which was made up not of the butcher workmen alone, but of all the other trades in the yards. The Packing Trades Council passed out of existence today when the officers of thirty-two butcher workmen local unions announced the decision to withdraw and form an exclusive central body of their own. The unskilled trades and skilled trades in the former council not affiliated in any direct way with the butcher work are thus left to their own resources and will be without the assistance of the butchers who form the bone and sinew of the union organization at the stock yards in negotiating future contracts or settling fu-

ture disputes with the packers. HEARST MEN IN THE MAJORITY

Indications that They Will Control the Illinois Democratic Convention.

SPRINGFIELD, Ill., June 12 .- A large number of delegates arrived today and the democratic state convention Tuesday prom-

ises to brig about a bitter fight, Mayor Carter H. Harrison, of Chicago; J. P. Hopkins, of Chicago, chairman of the democratic state central committee and the Hearst followers will have a contest for control of the organization. The Hearst delegates are overwhelmingly in control and it seems that they will have the dictation in the state central committee.

J. P. Hopkins will likely be a candidate for temporary chairman, and if he is not acceptable to the Hearst followers the name of Frank J. Quinn, of Peoria, will be suggested. The central committee will meet morrow morning to transact routine business and the first soughble of the conven-

tion will be experienced. Harrison, Hopkins and Burke, of Chicago, will come in with their delegations on the special trains in the morning.

50 PER CENT OF THE ADULT POP-ULATION SUFFER FROM ONE PAINFUL AILMENT.

Think what this means. Imagine the amount of misery that exists and is endured simply because people do not know there is an absolute cure.

The only way to cure any complaint is to remove the cause. There are very few diseases or ailments that can be cured by external application-and piles is not one of hem. Piles can be cured; the treatment must, however, be internal, for the cause of piles is an internal disorder of the liver or the bowels. Even catarrh of the stomach and bowels can be cured by DR. PERRIN'S PILE SPECIFIC, The Internal Remedy. Here is an instance of what this practically infallible remedy will do:

Dr. C. A. Perrin, Helena, Mont.-Dear Sir: I have nearly finished the former bottle of Perrin's Pile Specific and am practically well. My case was one which most physi cians would have pronounced incurable, as I was afflicted with a dysentery and compelled to go to the toilet room from three to five times each day and each time would bleed from one-half to one teacupful. I had to resort to bandages and absorbent cotton to check the flow of blood, and now the past en or twelve days there has been no sign of leeding and my appetite is good; have sined ten pounds in weight and feel like a cw lease of life was given me.

Very truly yours, T. R. HARRIS, October 20th, 1902. Yerington, Nev.
