MANSLAUGHTER BY NEGLECT Maine Preacher Convicted for Causing Death of Boy by "Divine Healing."

Rev. Frank W. Sandford has been sentenced by a court in Maine to imprisonment for causing the death of a boy by negligence. He has prayed an appeal and is out on \$2,500 ball, but his chances of getting a reversal are not thought to be considerable. The history of this man is of interest in connection with his conviction. Eleven years ago he set up as a divine healer, and s looked upon as an inspired person. He established his "Shiloh" on a hilltop, hisfollowers furnishing \$200,000 to pay for the land and buildings, the title to which, however, is held by Sandford. If he is mad there is business method in his insanity. Sandford holds that the author of sickness is the devil; that sickness is a punishment for min. Sensational atories are told of the Closing prices of grain Friday an extravagances which are perpetrated at today at the markets named were as fol

Sandford had a follower named Har man, who knew when he had enough, a who quit Shiloh and told his experience As a result Sandford was indicted by grand jury for cruelty to one of his ow children and was convicted. He presecutan appeal, which is still pending. The dictment for manslaughter followed and this he has again been convicted.

The manslaughter case was based up this state of facts: Leander Bartlett, a b of 14 years, was sick about two weeks wi diphtheris. His only attendant was Mi Miller, one of Sandford's disciples, a redent at Shiloh. It was shown that befo the elders played over him he had plant to run away, which Sandford doubtle took as a confirmation of his theory th sickness is a punishment for sin. Sar ford said, shortly before the death of the boy, that if he saw a corpse laid before him it would be a judgment of God. W. ness testified that the boy, while sick, w required to observe one of the rigoro fasts prescribed by Sandford, but this defiled by the boy's mother, who is also a CHICAGO GRAIN AND PROVISIONS disciple. The jury rafused to believe that the boy's sickness was a judgment of God. but attributed it to Sanaford's negligence. Bo they brought in a verdict of guilty of

a man, and besides, she did not wear that kind, so she laid them aside, thinking. "I'll cars, and give them to someone else some time." and she wrote her note of thanks, saying that modesty prevented her from calling them by their proper name, but they were very handsome and she most grateful. The return mail brought this brief note from him:

American Market Still Far from an Export Basis.

JULY LONGS THOUGHT TO BE SELLING New Wheat Coming on the Market-

Omaha Receipts to Continue . Light Into July-No. Business.

OMAHA. June 18, 1994.

The seaboard repetts sixteen loads of wheat taken for export. Liverpool advanced 15d today the reasons for this strength being the small Australian shipments, which amounted to only 34,090 busines, talk of smaller Indian shipments than had been expected and reports of unfavorable weather in Russia and Argentine. Taking for a basis the September wheat, which is the lowest possible basis now, the difference between Chicago and an export price to Liverpool is from 2 to 4 cents on No. 1 northern and of 3½ cents on No. 2 hard wheat. The July difference is of course too large to be considered. The Liverpool September basis is 78% for No. 1 northern and 73% for No. 2 hard in store at Chicago. OMAHA, June 18, 1904.

Chicago Friday sold 5,000 No. 1 northern at Chicago.

Chicago Friday sold 5009 No. I northern at 9%c above the old July in store. Only a limited amount could have been sold at that figure, but 9c above the July was bid for larger lots. Trenton, Tex., reports the first new wheat sold there today, it being fifteen loads, which scaled at 60 and sold at 80c. Dallas, Tex., reports six mills there taking all the wheat coming in at from 82c to 85c.

Kansas City at this time last year had contracted to sell 3,000,000 bu. of wheat for future shipments. Now it is rumored 50,000 bu. have been sold, but no cash handler can figure how this can be done at present prices. The Kansas City market looks for liberal uantities of new wheat by July 10. The pit believes the big longs in July at the various markets have begun to liquidate their holdings. The principal weakness Friday was due to selling.

The range in prices of Omaha grain for future delivery and the close Friday and today were as follows:

Receipts were smaller than Friday, being four cars of corn only. The sales made were at the prices ruling for the last three days. Local cash men do not expect much improvement until some time after the first week in July. The Nebraska farmer has sent in all the corn he has to send until he is sure his crop will be good. Chicago has still good receipts, but locals expect the cars to drop off next week there because lowa and Illinois are much the same as Nebraska. but attributed it to Sanaford's negligence. So they brought in a verdict of guilty of manslaughter.

The doctrine on which this conviction was obtained seems to be that if persons of mature years choose to experiment with the curse recommended by "divine healers" there is no way to prevent them from exercising the right to do so. But when these methods are imposed upon children or others that have no legal right to resist, those responsible for such action must answer for the consequences. If death result, the offending parties are not guilty of murder, for there was no intent to kill, but they are guilty of involuntary manslaughter as the result of their negligence.—Louisville Courier-Journal.

For years there had been a feeling of good fellowship between them, and the fact that they were distantly related led him to consider himself privileged where she was concerned. Still, on opening his box Christmas morning she was somewhat surprised to see two shining silver buckles smilling at her. There was no mistaking what manner of gift it was, for the buckles were interlaced with handsome black astin ribbon, and the pair lay side by side. That was not the sort of gift she liked from a man, and besides, she did not wear that kind, so she laid them aside, thinking, "Thi give them to someons else some time," and she wires be made of the standard and the work be made of the source of the solutions for the maturing and heavesting of wheat caused weakness in the market too that caused weakness in the average for July were unchanged from a secondary. Owing to his extremely light run there is very little to be said of the market. Everything that had any kill to it was picked up in a hurry at steady to strong prices, as there was nothing like enough stuff in sight to supply packers' more urgent requirements.

WAY OF BARBED Why, in one Hardware Establishment.

They Kever Sell Long Than

& Reel. "Can I get about a hundred and fifty feet of barbed wire here?" asked a customer in a big hardware store where they sell everything on earth that comes in the hard-

ware like. "Sorry," said the salesman, "but that is the one thing we don't do, cut a coll of barbed wire. We did sell barbed wire in that way once, but we don't now.

"Barbed wire comes on reeis, averaging

corner. when let loose to spring up and pervade the surrounding atmosphere that prompted us finally to stop the sale of it in quantities less than a reel, and we did this as much on our customers' account as on our own, "We might have a dozen or fifteen customers scattered around on our wire floor, and somebody would come in and want hundred feet of barbed wire. The salesman would get out a real and cut the band,

in a hardware stock, we should keep all kinds of shakes; and if anybody should come in and want a single snake we would cheerfully open up a box of pythons of box-constrictors or anacondas, and get him WATERMELONS-Per lb., craved, 1 to; out a single one of any length he wanted; and sometimes in doing this some of the snakes might get loose, and this would make trouble, too.

"But it would be one thing for a lot of mon smooth skinned anaconda twenty feet and we found it wouldn't do. And, then. the barbed wire tore the salesman's clothes and it tore their hands and finally we had to stop seiling it in that manner altogether."-New York Bun.

NEW PROPHET STIRRING UP STRIFE

Serionaness of Situation Lies in Fact that These Nomads Inhabit Both Sides of the Transsiberian Rallway.

BIJSK, Government of Tomsk, Russia, une 19.-The agitation among the Mongota inhabiting the Altai region is increasing over the appearance of the god Airol, who they believe will deliver them from a foreign yoke and create an independent kingcom. The Mongols are gathering in thousands in answer to the summons of men who are proclaiming themselves to be the apostles of the god Airol.

These men are inspiring awe among the ignorant nomads by means of an alleged miracle carried out with the aid of electrical and pyrotechnical devices. These socalled apostles preach the reincarnation of the god Airol and pretend to carry from him messages to the people saying that he has not been happy since he left them 20 years ago, coincident with the date of the Russian occupation of the country.

They warn the Mongols to abstain from wearing white or red clothing, these being Russian national colors, and to went only blue and yellow, the national colors of Japan; urge them to worship the sun and moon, which are he gods of Japan, and especially the over-god Burban, who is the only true god of the gods. They also warn the inhabitants to discard all agricultural implements and to keep their arms hidden in the mountains and clowwhere.

Prophets Capse Mischlef. Many rich members of the Kalmuck trabe whom has sacrificed \$3,000 and another \$550 in honor of the god. The apostles say only the elect are eligible to the sect, and the house of any unworthy man who presents himself will be encircled by a rainbow and mmediately collapse.

Reports from Irkutsk say that discontent among the Mongol and Kalmuck tribes is rife owing to the new prophets, who it is said have proved to be Japanese who have passed the winter in caves in the mountain fastnesses, carefully concealing their presence in the country. The strangers were received by the inhabitanta with undisguised hospitality.

The seriousness of the situation lies in the fact that the tribes in which the revolt is fostered inhabit both sides of the Trans siberian railroad and number many thousands of potential fanatics, and should a rerious uprising occur it might interfere with railroad communication.

CANADA MAY HAVE SCANDAL Lord Dundonald Says Militin is Used

for Political Purposes. TORONTO, Ont., June 19 .- Lord Dundonald, late commander of the militia of Canada and who was dismissed by the government for, as it termed it, indiscretion and insubordination shown in a recent speech at Montreal, today in a statement given to the press, hits back at his critics. He claims that the militis has been grossly interfered with by party politicians. He alleges that important parts of his reports for 1902 and 1963 were wrongfully suppressed by the minister of militia, contrary to his wishes. He, indeed, charges Sir Frederick Borden with falsehood in the House of Commons. He shows that the militia has been greatly neglected. It lacks all that is necessary to make it email cient. The great northwest, he p is left defenceleses, without even a gun. As regards preparation for war and readiness to resist aggression the people of Canada, he says, are living in a fool's paradise. Had he, he concludes, made only official protest it would have been pigeon-holed, as many others had been.
