House of Hoo-Hoo Destroyed, Causing

Heavy Loss REPUBLICAN DELEGATES IN ST. LOUIS

President Makers Are Informally Received at Their State Building and Various Receptions Are Tendered.

ST. LOUIS, June 21 .- Fire, which threatened for a time to destroy many buildings at the World's fair, today, consumed the House of Hoo Hoo, rendering the building and all contents a total loss. So quickly did the flames spread after the fire started that the occupants of the building, five in number, all on the second floor, had difficulty escaping with their tives, being compelled to climb down a tree to the ground. The loss on the building and contents is estimated at \$50,000, on which there is an insurance of \$20,000. In addition there is a loss of \$8,000 to the Union Baking company, which had a catering concession in the building. Nothing is known positively as to the origin of the fire, which is supposed to have started from an electric light wire, the insulation of which had become worn.

The alarm was answered by the entire fire department, and by eight companies and two ladder trucks of the city department, also by Hale's fire fighters. Quick runs were made by all companies, but the rapid spread of the flames rendered their attempts to extinguish the fire value-less and all efforts were directed toward saving the Texas, German, Oregon and Mines and Metallurgy buildings, all of which were threatened with destruction on account of the flying shingles. All were saved without loss or damage.

Blase Stampedes Elephants. But ten minutes before the alarm from the House of Hoo Hoo the World's fair fire department had answered a still alarm from the Mysterious Asia concession on the Pike, where fire had started in the elephant barn. The loss was insignificant, only a small amount of hay burning, but there was a wild stampede of elephants and camels, the frightened trumpeting of the former awakening people on all parts of the grounds. Attaches of the company succeeded in quieting the animals before any escaped from the building.

The House of Hoo-Hoo was one of the first buildings finished for the exposition. It was erected by the lumbermen of the United States, but under the control of the local board of the order of Hoo-Hoo. It was divided into many rooms, constructed of different kinds of fine and expensive lumber. Aside from this, there were specimens of rare woods which were valued highly. It has not yet been decided whether to rebuild or not.

There were thirty black cats in the buildng at the time of the fire and these are

believed to have rerished. Fearing the Texas building would be destroyed, women of that state worked heroically to save precious relics of early history. Sheets were torn from the beds in the building and used to carry the relics to places of greater safety.

One point of the star shaped building of Texas is within seventy-five feet of the House of Hoo-Hoo, and in the large first floor room of this point the relics have been on exhibit. They include pictures, books, papers and various articles identified with the early history of the state and are priceless. Nothing but the fact that the wind was not blowing toward the

Republican Delegates Arrive. The visiting republican delegations who came to the fair from the Chicago convention were informally received at their respective buildings today. Special entertainment was tendered the Massachusetts, Connecticut and Rhode Island delegations. In the Massachusetts building a luncheon was served, after which ex-Secretary of the Navy John D. Long made a shor speech, which was responded to by Wilson H. Fairbanks of Warren, Mass.

Exposition Marshal Briggen Edmund Rice, United States army, extended a welcome in behalf of President Francis. Edgar B. Marchant, secretary of the Oklahoma commission, invited the delegates to visit the Oklahoma building and see for themselves that "Oklahoma is entitled to be the next new state."

At the Connecticut building the delegates were formally welcomed by Senator F. L. Wilcox, president of the state commission after which luncheon was served. The Rhode Island delegation was given a reception and luncheon in the Rhode Island

Tonight the Missouri comissioners tendered a reception and ball to the other state and foreign commissioners, to which the visiting delegations were invited. The executive committee of the Order of Hoo Hoo's held a meeting and announced tonight that the Hoo Hoo bullding, which was destroyed by fire today, will be rebuilt and ready for occupancy within forty days.

WORLD'S PAIR HANDICAP ENTRIES Heavy Track is Against the Chances of Favorites.

ST. LOUIS, June 24.—The World's Fair handicap will be run over a heavy, holding track at the fair grounds tomorrow. A heavy rain last night and today left the track feliock deep in mud and no amount of work can make it other than heavy for the big race. Light-weighted mud-runners will get the backing. Hermis, the eastern champion, it is thought by many ahrewed horsemen, to be doomed to defeat. It is argued that, notwithstanding his sire, Hermento, was a great mud horse.

He cannot give weight to the others who have performed well in that kind of going, with Old Stone, whose best races have been on a heavy track, to set the pace, for the first part of the race. Bernaya, who is a Wadsworth, to take up the running at the end of seven furlongs, and Wifful, Colonial Girl, Moharib and Gold Heels, all notorious mudders, to fight it out with the great eastern horse. If he can then come on and win, it will stamp him as the horse of the decade. The entries, probable odds and jockles for the race follows:

Horse and Jockey. Odds. Wt. Moharib (Fischer) 8 to 1 108.
Sambo (W. Davis) 15 to 1 109.
Seambo (W. Davis) 15 to 1 109.

RACE PAILS FOR LACK OF WIND Argo and Lotus Unable to Finish

Within Time Limit.

The race between the Argo and the Lotus was called off by the judges, as the boats could not finish the course in the time limit of one hour and thirty-nine minutes.

The start was made at 3.25 with the Argo in the windward berth, both boats crossing the line together. A very light breeze was blowing. Both boats broke out their spinnakers and the Lotus gained the lead for awhile. The Argo slowly crawled up and began to pass it to windward, when the wind shifted, throwing the Argo under the lee of the Lotus. Again the Argo worked up to a windward position and blanketed the Lotus just before the first buoy was reached. The Lotus rounded the buoy in 11-25 and the Argo in 11-25.

They hauled down their spinnakers and started closehauled for the second buoy, the Argo overchauling and passing its rival to windward. Here the wind shifted several times and the boats had hard work making the buoy, being becaimed several times. At last they made the buoy, the Argo rounding in 24:30 and the Lotus in 19:15. Again they broke out the spinnakers. After drifting around with no breeze, the breeze shifted again and freshened, giving the Argo the best of it, as it placed it 500 yards to the windward. The third buoy was rounded in 48:10 by the Argo and 69:30 by the Lotus.

On the long reach home the Argo got the best wind and gradually left the Lotus assert, crossing the starting line in 62:30 and the Lotus in 68:90, five minutes and thirty seconds behind the Argo. The race was then called off and the second round was not started, as the breeze dropped again. There has as yet been no good test of the beats and today's race is awaited with great interest.
