Reports Come from All Sides of Very Quiet Poels.

TOO MUCH WET WEATHER TO SUIT

Wheat is Bearish, Corn in Field Small and Rather Backward, but Stand in Good as Usual.

Advices from Chicago are to the effect that one of the features of today's market there was the extensive buying of old July wheat against sales of new, which put old to a premium of light. The business was supposed to be a changing order for one of the big elevator incrests which had been buying the old July and selling the new a day or two ago at le difference, on the theory that there would be so little hard winter wheat here in July that the two deliverses would come together. As no No. I hard winter wheat is deliverable on old July contracts, except at a penalty of Sc, while it can be delivered on the new Jeff contracts at a difference of 2c, the extent of arrival of wheat of that quality during July might have a marked effect on the fluctuations for the two styles of contracts. Advices from the southwest yesterday were to the effect that farmers were contracting their wheat freely on the basis of about \$25,85c at Chicago, and there might be considerable of a movement to the Chicago market in July. One thing is said to be certain, and that is that there will be mone of the movement to the gulf on export sales which was so heavy last year, unless a big export demand should develop in the near future. Millers will want a large part of the first arrivals, but if they should be inclined to buy as sparingly as possible there might be a liberal movement to terminal markets. The changing operations in the pit yesterday suggest the expectation of such a movement in this direction.

Oats opened steady in Chicago this morning, with a very limited trade, the scalpers being the best buyars. There was a little July traded in. Wheat opened higher, in sympathy with the cables. Gates is supposed to have quite a line of July corn and this makes the shorts nervous. The trade on the Chicago board yesterday was said to be so dull at one time that there was a period of over two minutes when not a single trade was made in either the wheat, corn or oats pits. There have been markets would be neglected, but there was never a time

CRAIN AND PRODUCE MARKET | Supply of cotton shows a total of 2,120,868 | bales, against 2,350,032 bales last meek. Of this total 1,196,996 bales is American, against 1,195,032 last week. NEW YORK STOCKS AND BONDS

Speculative Sentiment Disturbed by Re-Features of the Trading and Closing ports from the Wabash.

Fractures of the Trading and Closing

Prices on Board of Trade.

CHICAGO, June 24.—A cloudburst in Kansas was chief among the causes of a strong wheat market here today. At the close September wheat showed a gain of 5c. Corn is off a shade. Oats are down ac Provisions are up 100,20c. July wheat opened 165 to 6 fee. Duly and 804 geolge for September was up 1c at 80c. Prices advanced to 85c for July and 804 geolge for September was up 1c at 80c. Prices advanced to 85c for July and 804 geolge for September. Later in the day local bears sold moderately and some of the early buyers followed, causing temporarily an easier tone. The July option exhibited most weakness, selling down to 84c. September eased off to 75c. Within the last hour, however, sentiment again became buillish. The close was at the high point, with September at 85c. July was up 16c at 85c. Clearances of wheat and flour were equal to 8,700 bu. Exports for the week, as shown by Bradstreet's, were equal to 1,270,000 bu. Primary receipts were 22,700 bu., against 304,900 bu. a year ago. Minneapolis, Duluth and Chicago reported receipts of 261 cars, compared with 126 cars last week and 314 cars a year ago. The early corn market was strong. The strength of wheat was the principal influence at the start. July closed unchanged COMPANY'S BONDS ENJOY AN ADVANCE later Securities Break and the Re-

sulting Depression Affects Even Union Pacific in Spite of Resistance.

NEW YORK, June 24.—Speculative sentiment was a good deal disturbed today by the announcement over night that the semi-annual interest on the debenture "A" bonds of the Wabash had been passed by the directors. The 6 per cent interest on these bonds has been paid regularly since 1832. There has been besides an extensive speculation in the debenture "B" bonds on the assumption that the company's surplus earnings were on a scale to promise an early distribution on those securities to which the "A" bonds are prior.

Even yesterday the "B" bonds enjoyed a speculative advance on the increase in net earnings reported for May by reason of cutting down in operating expenses and it was favorably commented upon that the small decrease in gross earnings was the first to be reported by the system in over nineteen months, notwithstanding the downward course of railroad earnings in general is that time.

The passing of the interest, although it is a contingent liability, was quite a shock to speculative sentiment and weighed on the whole list in sympathy. The Wabashes themselves broke violently, the "As" 7 points, the debenture "Bs" 4 points, the preferred stock 24 and the common stock 1%. Union Pacific made vigorous resistance to the depression, the buying of the stock for London account being a feature. The balance inclined generally to the side of depression. The strength in the wheat market on reports of excessive rains in the west and southwest supplemented the effect of the Wabash weakness. There was also a weak return of net earnings for May by Baltimore & Ohio, the decrease from last year's total reaching upwards of one-third. Some of the stocks which have been lifted by speculative movements during the week suffered from a scramble to take profits when the reactionary character of the market was benefited by the forecast of the bank statement and a cheerful view of the commercial outlook by the commercial agencies. The buying of Union Pacific was resumed with a gain of 1½ and Southern Pacific came into the advance to ported receipts of 241 ears, compared with 125 cars last week and 314 cars a year ago. The early corn market was strong. The strength of wheat was the principal influence at the start. July closed unchanged at 48%c, Beptember opened a shade to 45% the higher at 48%c, sold between 48%c and 48%c, closing at 48%c. Local receipts were 31 cars, with 27 of contract grade. Trading in oats was dull and the tone of the market weak. The market opened unchanged at 31%c. Local receipts were 32 cars.

Provisions were firm. There was a heavy demand in ribs. The selling was credited to country packers. The main bull factor was the strength of the hog market. September pork closed 20c higher at 51.40. September lard was up 10c at \$7.27%. Ribs were up 12%cliffs at \$7.82%.

Estimated receipts for tomorrow: Wheat, 1 car; corn, 381 cars; oats, 127 cars; hogs, 8,000 head.

CATTLE—There was another very small run of cattle here this morning, and in fact the supply was so small that it could pot be said that there was a market. Packers did not take hold with any life, as there were not enough cattle on sale to make a good killing if one packer got all of them. Packers did not take hold with any life, as there were not enough cattle on sale to make a good killing if one packer got all of them.

The best that could be said of the market on beef steers today is that the desirable grades sold at about steady prices, while the common kinds were very slow and hard to sell at any price. Good cattle were scarce and there were no strictly prime on sale, though one string was good enough to bring \$5.6. There seems to be a good demand for well fattened dry lot cattle, but packers are all slow to take hold of the short fed and grassy stuff. As mentioned yesterday, good to choice grades are not over 10070c lower than the high time last week, while fair to good cornfeds are 23070c lower and warmed up cattle and grassers are 50070c lower.

The few cows that arrived this morning changed hands very slowly. There were not enough effered to attract the attention of huyers, and as a result it was a slow market, with best stuff steady and others weak and hard to sell at any price. As compared with the high time last week the market on owe stuff is all the way from 20c to \$1.00 per hundred lower. The least decline is on choice, well fattened neavy cows and on choice helfers, and the greatest decline is on the medium kinds of cornfed cattle and on grassers, or, in other words, the kind that are now selling from \$2.75 to \$3.5. Canners are not over 50c lower than the high time.

The market on buils, veal calves and stags held about steady today. Choice buils are not over 10015c lower than the high time.

The market on buils, veal calves and stags held about steady today. Choice buils are not over 10015c lower than the high time.

The market on buils, veal calves and stags held about steady today. Choice buils are not over 10015c lower than the high time, while grassers are \$5035c lower. Veal calves have shown very little change so far as desirable grades are concerned. There were practically no stock oattle on sale today. For the week desirable grades are about steady, but when it comes to t

HOGS—There was a moderate run of hogs in sight this morning, and under the influence of a good demand the market improved at all points. The advance here amounted to about 56300 and trading was quite active, the bulk being disposed of in good season. The most of the good weight hogs sold from \$5.10 to \$5.50. The light and common kinds went from \$5.07% down. There was one weak spot in about the middle of the market, but it soon strengthened up again and the extreme close was a little weak, owing to the fact that packers had their more urgent orders filled.

Today's advance carries the market to the highest point reached since prices started on their upward journey. Representative sales:

25% the high-460 started on their 19% sentative sales: 73 No. Av. Pr. 28% th. 177 80 46 52. 204 240 73 10. 251 50 73 10. 251 50 74 252 209 240 BERIAN, June 24.—Exchange on London, 50m 604,0fg for checks; discount rates for short ollis, 34 per cent; for three months' bills, 34 per cent. Prices generally on the bourse today were irregular but rather firm. Americans were weaker upon yesterday's New York advices.

PARIS, June 24.—Trading on the bourse today was irregular, with a slightly upward tendency. Russian imperial a closed at 23 and Russian bonds of 1904 at 506. Three per cent rentes, 37f 35% for the account; exchange on London, 25f 15c for checks.

LONDON, June 24.—Money was in active request in the market today. The demand will be considerable until the half year turn and consequently a stringency is expected. Business on the Stock exchange was languid. Home rails were on the down grade. Americans were firm. Grand Trunk was firm on the traffic increase exceeding expectations. Russians and Japanese securities hardened. Kamirs were weak. Imperial Japanese government & of 1904 were quoted at 56%.

steady with Wednesday, and in fact both grassers and cornieds have been selling in practically the same notches all the week. The demand has been fully equal to the supply and each day's offerings have been well cared for. Of course common stuff which has very little kill to it is more or less neglected, but anything answering to the description of good to choice meets with ready sale.

Wool Market.

Wool Market.

BOSTON, June M.—WOOL—There is a steady market for domestic wool. The sentiment prevails that the new wools must bring high prices in order that the buyers may clear a profit on the new clip. Some choice lots have recently been disposed of at record values. Receipts of new grades are heavy daily and are increasing. Pulled and territory wools are quiet and foreign grades are also inactive, though firm. Leading quotations follow: Territory, Idaho, fine, 17518c; heavy fine, 14615c; fine medium, 18618c; we week medium, 18618c; commedium, 18618c; medium, 18618c; commedium, 18621c.

The Commercial Bulletin on Saturday will say: Active, fair and hardening, the week has been the best that wool dealers have had for a long time. There is a stronger and even bullish sentiment. Operations by four big consumers have absorbed millions of pounds of new and old territory. Texas and medium fleeces, partly on the spot and partly to arrive, and including lots in the original bags and graded wools from the piles. Scoured values are 162c higher on actual sales. Staple territory is certainly seiling at 55c clean. Good staple Idaho sold at 53084c. Large blocks of fine medium clothing sold at 50c and some at 51662c. Ohlo and up character, preparatory to the closing of the market for Sunday, was largely local in character, though there were houses with southern connections which were moderate sellers. Crop scoounts were generally favorable and with weather mapfairly so. Exports were full again, exceeding port receipts by a considerable margin, while the into sight for the week was smaller than expected.

St. LOUIS, June 24.—WOOL—Firm and active; medium grades, combing and clothing, 18628t, ellight fine, 18631c; heavy fine, 12618c; tub washed, 2638c.

Western advices indicate the cleaning up of the new clip in quicker time than ever before. Foreign markets are firm and tending upward. Shipments of wool from Hoston to date from December 31, 1908, are 101,500,347 pounds, against 106,513,855 pounds for the same period last yea
