OMAHA WINS DOUBLE-HEADER Gets Two Games and Third Place from St. Joseph Team.

BROWN SHOWS HIS METTLE ONCE MORE

Pitches Out Game that McCarthy Has Lost and Lands His Team On

### Top After a Fleres

Picht.

Omaha won a double-header from St. feeeph yesterday, but only by the hardest kind of work. Chinn and Companion debated the first one, and had it up and down for seven innings. In the sighth Chinn blow up, and a combination of hits, bases n balls, errors and wild pitches netted the Reurke family five runs, with only one of them earned. As the tribe of Hourke was already to the good, this little lead of six made a task that St. Joseph hardly felt equal to, and the minth was soon over for the visitors.

McCarthy started the second game for the Rourke family, and concluded to show some of the tricks he learned during recent visit to Alexandria, S. D. He evidently forgotten the combination, he couldn't make it work, and after Chamberlain parties had gathered in four runs and the game, apparently, Mr. Brown went in and proceeded to pitch the ide out, and incidentally kept it up during rest of the game. One run was all St.

Joe sould get off Brown. Wetch and Howard added the fireworks e the second game by cracking out home une at the expense of Mr. Harry Maupin, he young man who made Omaha loo ap on the same grounds a few weeks . The Howard homer tied the game, and the Welch affair won it. It was a hard, uphill fight, but steady playing both at the bat and in the field won it, and the 500 people who saw the contest went some happy,

t was lodged by Manager Webster against the first game, he holding that Umpire Carrothers was wrong in deciding Howard's drive for two bases down the first base line a fair hit ball. Gompanion was hit with much freedom by the Saints. He was wild, too, and it took spiendid sup-port to land him a winner, but his team was playing ball all the way and saved his same for him. Chinn, who pitched for St. Joseph, was hit with much effect by the locals and in the eighth inning went entirely to pieces. Score, first game

Going to Ocast in Order to Rid Himself of Case of Rheumatism. PARTY LEADERS BOOM HIM FOR GOVERNOR

Lincoln Republican Meeting a Fight to Prevent Moving of the State Committee Headquarters to Omeha

(From a Staff Correspondent.) LINCOLN, June 10.-(Special.)-As soon as possible after the adjournment of court this week Chief Justice Holcomb will leave for Washington state to get the banefit of the cool sea breezes of the Facific in an effort to rid himself of several slight twinges of rheumatism that have in the past persisted in coming his way. His visit will be indefinite and it is the belief

of his physicians that a vacation from his arduous duties will set him right. And this visit recalls that every day becomes more evident that Judge Holcomb would not refuse the fusion comination for governor were it tendered him and a member of the stalwarts are looking his way with the belief that he would be a formidable rival of Governor Mickey for the votes of the people. It has been thought by many that Judge Holcomb would not give up his two more years on the supreme bench to make the try for the position of

governor, but the necessity of him doing this has been done away with by the ac-

tion of the republicans in running a candidate for congress and the United States senate at the same time. Many promi- for the Third district will be held here ment democrats and populists believe that Judge Holcomb is the best vote getter in the two-headed party and for that reason they feel under lasting obligations to the republicans for the example they have set. and consequently it will be in the nature for if it i found that Judge Holcomb is the strongest man to make the race, he can do so without having to give up his present position or without embarrass-

In the meantime the two-headed organization is very much elated at the resignation of Chairman Lehr, for the leaders are foolish enough to believe it will seriously injure the dominant party, and at the committee meeting next Thursday evening they expect much fireworks, not so much over the election of a chairman, for it is generally believed the state committee will name the man recommended by the candidates, but over the location of the headquarters. Politicians of Lancaster county have fairly burned the earth hustling around to see the members of the committee and it is the republicans themselves who are maying that for Lincoln to give

They will urge that much more time will be lost in removing the headquarters and they are citing the resignation of Lehr to show that only this end of the state can be depended upon to conduct political affairs. A mighty effort will be made to keep those headquarters

right where they are. The names of those men who were promi sently mentioned before Lehr was chosen chairman are being mentioned now for the place, but there is little information obtainable here upon which to predict who the next chairman will be. A number of candidates interviewed seem to have little choice in the matter and none express a preference.

#### COPPEE CATARRH An Unauspected Cause.

It is curious how many diseases come from a disordered nervous system which locates disease in some part of the body and the primary cause can often be traced o coffee which first breaks down the nervus system. A Georgian says:

There is no doubt coffee gave me nasal tarrh. The ceptim in my nose was all one and the catarrh was cating its way, tting hold of the main bone of the nose. also affected my sight very much.
