ROUND ABOUT NEW YORK.

Ripples on the Current of Life in the Metropolis.

The persistent gullibility of the population, demonstrated week after week, justifles a revision of Barnum's estimate of the fool birthrate. A firm of crooks in New York City, which promised and for a time paid I per cent a week on investments, found enough fools to give them a handsome "stake" and then vanished. The postoffice inspectors have been trying for some time to obtain evidence upon which they could base action, but without success. They held up some of the letters and found the names of customers; asked them for some specimens of the "litera-

ture" so that the legality of the company might be determined, but the investors informed the inspectors that they were rather impertinently interfering in a matter which did not concern them, and refused to make complaint or to furnish information. They were receiving 2 or 3 per cent interest every Monday morning from the company and were inclined to rejoice. The large number of investors in one Ohio town were charmed with the results, and were very annious that their neighbors and the public should not learn of the golden harvest, for fear lest the profits would be reduced if they were split up among to many people. Then the crash came; thoumands of people, chieffy wage workers, have lost their money, and the managers of the crafty game are said to have "cleared up" several millions.

A new street washing machine which may onize the method of street cleaning in New York is being tried. The first experiment proved that this machine is capable of washing a given amount of street surface with 281 gallons of water, for which 3,240 gallons would be required if a fire hose were used. This enormous saving is effected by means of compressed air. The appearance of the machine is very much like that of an ordinary sprinkling cart, but the tank is of iron and is equipped with a fan-shaped row of spouls, through which the water is thrown with sufficient force to wash the dirt into the gutter on both sides of the streets. The authorities believe that the problem of cleaning the streets of a large city economically and yet thoroughly has been solved by this new flusher.

Leaping from his cage to the ground, s large chimpansee attached to an anima farm in Jersey City wrested from the hand of Matthew Brosseeli a knife with which the man, in a fit of temporary insanity, was attempting suicide. The creature saved Broessell's life.

Broessell bad been training the monkey for a number of years and the animal was greatly attached to him. For the last few days the man had complained of the heat and declared that his reason would not last much longer. While cleaning the cage of his pet he suddenly began to scream. He picked up the knife and slashed his throat several times. The monkey jumped through the open door of his cage and was wrestling with the man for the knife when the other

Hastings Tribune: The Omaha Bee ha just celebrated its thirty-third year, and however, that eastern Nebraska is as Nebraskans can everywhere rejoice with it and feel proud of its existence. The Bee is a vigorous newspaper characteristic of

the west. Those delicately fastidious will Democratic love for the working man not find their ideal embodied in The Bee. but those who enjoy a practical, news

paper of force will congratulate the state the existence of the Omaha Bee. Blue Valley Blade: With the Sunda; mue of The Omaha Bee the thirty-third year of its existence was celebrated. The Bee was founded by Edward Rosewater in 1871, and he is still its editor. The first

issue of The Bee was printed on a hand power press turned by a negro, and present edition is printed on the finest per-fecting presses, while the type is set by the latest machinery. The Bee is one of the best papers in the country.

Howells Journal: The Omaha Bos thirty-three years old, and during all those years it has been under the man-agement of Edward' Rosewater. From a small beginning it has grown to be one of the leading papers of the country. Mr. Rosewater has cause to look backward over his newspaper career of a third of a century with pride. His paper has done its full share toward the upbuilding of Omaha and the state of Nebraska is gen-

In excavating for the new Grand Cen tral station the contractors are using a self-dumping dirt car which is loaded by a big scoop worked by hydraulic power They save an immense amount of labor. The Irish foreman was explaining this re-

"That scoop and car," said the foreman "do the work of 100 sinneys." "Ya, ha! big shovel an' car hav 'a no hundred votes," said a far-seeing son of

Italy who overheard the foreman's remark

One of the best free shows in New York. some people think, are the shop windows. Window dressing has reached the plane of the fine arts, and experts at the work command high salaries. For example, there is one Sixth avenue firm that pays \$5,000 a year to its head window dresser. He has two assistants who get \$35 and \$35 a week. Allowing for the cost of velvet and plush

backgrounds and other incidentals the cost of the window dressing of this firm is nearly \$10,000 a year. Bo far as is known, no other window dresser in New York gets so much. As a rule, experts get from \$3,000 to \$3,500, the average yearly salary being about \$1,500. Few window dressers get less than \$1,300. The most noted window dressers now in New York never had a

lesson in the art. They were born with an artistic eye for the grouping of colors and the arrangement of draperies in alluring curves.

He was a German conductor on a Third avenue car, and when his car was approaching Grand street he leaned over the rear seat and whispered to a smoker: "I like when a man smoke a cigar. is a sign he is not a grank. When ve come by Grand street listen to der granks shout

dransfer tickets. Dey can't speak no Eng lish at all, und some of dem peoples can't understood." The first man to ask for a ticket was Swede, who shouted: "Aye will a tecket!"

"Trans! Trans!" shouled an Italian, hold ng out his hand. "Transforfare!" yelled a little man long beard. "Tickee! Tickee!" shouted a Chinaman who climbed along the car step to get his

transfer. And then a big, broad-shouldered Irishman called to the conductor: "Hey! Give me transportation street. "What did I told you?" ontinued the lerman conductor, when the ear had passed the corner, "Some peoples don't know no English at all. Dey are what we call ignor-

ance Ain't it?" And the man in the smokin I blas taos was.

A woman dragging a big mastiff dog attached to a piece of rope tried to board a Madison street horse chr going east at Madison and Catherine streets. "Nothing doing, lady; wait for the next car," said the conductor, signaling for the

driver to go ahead. The lady stood at the crossing and walted for the next car. Meanwhile the dog lay down, blocking the tracks. Along came a

car, and again the woman beckoned to the driver to stop. "Bee here, lady, it's against the rules the campany to ride dogs on this car," re-marked the conductor.

"That's all right; I'll pay his fare and guarantee he'll not bite anyone," answared the dog's mistress.

arrying woman or dog. She want across the street to an undertaker's, whose horse and wagon were standing outside and made

why a state that is los guards should wade in deeper in order to show off than an individual who is involved should mortgage his home to raise money

to so. There is a too liberal expenditure of money that does not belong to the

fellow who does the spending. Allen News: The editor of the News is in a deep quandary. The question with us is can the country be saved without our able (?) assistance as an editorial writer.

Fifteen years ago we thought not, and used to write editorials galore and swell up like a poisoned pup over our stupendous efforts. Finally we thought most intelligent people knew as much about running the government as we did, and for many years have cut out an editorial column in the paper, for we really got our cue from some one else who really did have some brains. However, most of our exchanges have an editorial page and are running the government after their own ideas. Why not us?

Better look out, for by hokey we believe it time to cut loose again. Schuyler Free Lance: The cattle barons

of western Nebrasks, who have had the use of the land out there free as pasture, do not take kindly to the new homestead law of Congressman Kinkaid, which gives homissizaders in that region 640 acres of land. They see that the law means settling that country and they do not want that,

as it cuts them out of their free pasture. In fact, those fellows have ever tried to keep settlers out and have at times resorted to violence to keep people out

their range. They are down on Kinkaid and at a recent meeting of their leaders the congressman was called before them for an explanation. No doubt but that the cattle interests will fight the law and the author, but it will do no good. That homestead law of Kinkaid's has made his majority so big up there that he will be elected with a larger majority than before. Friend Telegraph: The Ak-Sar-Ben of Omaha had its poster work for the next carnival done in Milwaukee, and as a natural consequence is receiving a roasting on the part of the Omaha newspapers. It is said in this case that Milwaukee job printers are doing the work for \$50 less than Omaha printers offered to do the work for. Suppose they do, the Ak-Sar-Ben of Omaha will desire \$500 worth of free advertising from the newspapers of that city before and after the carnival. Will the Milwaukes printers who work for \$50 less do this free advertising for them? Not a word of it. People often become

penny wise and pound foolish. Here in Friend this same plan has been followed for two years last past with the commence ment invitations in our high school. Doubtless the graduating class has saved a few cents in prices and even imagined they were getting a better job, but Chicago printers failed to give the graduating class and the graduating exercises a write up. and only comparatively few in and around Friend know who graduated or what the exercises were or anything in regard to

That is

hem. By many newspapers this class of natter isn't counted as news, but rather as advertiser of the graduating class. Abolishing the Unsightly Billboards.

Philadelphia Press. The agitation for the abolition of

sightly billhoards is going on in a number of cities, with varying success. In Paris and in other European cities such displays are wisely limited, and that ought to be done everywhere. Boston has taken up the subject and the Park commission has adopted a rule forbidding all signs "within such distance of any public park

or parkway, or in such place as shall ren-But the driver started the car without der the words or devices of such sign plainly visible to the naked eye." An exception is made of a sign of limited diman-

sions "relating exclusively to the prop a deal with the undertaker to have her dog arty on which it may be placed." driven to the Grand sizes farry. Then she a wise step, and the Boston city govern mounted the seat with the driver and ment should stop the abuss in the city is

LINES TO A LAUGH.

Tommy-I wonder where the mosquitoes spend the winter. Elsie-Mebbe that's what they're tryin' to tell us wisen they come buzin' sround us in the summer.-Philadelphia Press.

"Did they throw any old shows after the "No; her father had them all half-soled for the family to wear while he ontches up with the wedding expenses."-Cleveland Leader.

Tomson-The doctor said I could have one

glass of beer a day. Johnson-And you are obeying orders? Tomson-Yep. But I'm five weeks shead my allowance.-Kansas City Journal.

Consumption

Nearly all early cases can be cured. Expert physicians tell us they rely largely on three things-fresh air, good food, and Ayer's Cherry Pectoral. - If the case is advanced, recovery is more uncertain. Follow your doctor's orders. That's best.

"I had a terrible cold on my lungs. feared 1 might have consumption. Nothing seemed to give me relief until I used Ayer's Cherry "ectoral. It acred promptly and cured me completely."-Miss Emma Miller, Fort Snelling, Minn
