GRAIN AND PRODUCE MARKET

Demand Good for All Kinds of Grain, but Supply Light.

FARMERS TOO BUSY TO COME TO TOWN

Reports from Ontside Are Bullish and Stimulated by Continued Rain in the Southwest Wheat Bell.

OMAHA, June 27, 1904. Quiet prevailed generally in the grain markets today, especially so at Chicago. With a good demand for all lines of grain on the local exchange prices ruled stronger

on the local exchange prices ruled stronger as a general thing.

If the receipts were to be had they would bring good values on this market. All houses want grain of all kinds, but the farmers are too busy with the field work to load cars these days. Bullish reports of continued rains in the southwest, with the prospect of more water within the next twenty-four hours, too, had a tendency to advance prices.

advance prices.

At Chicago, however, these bullish reports, though powerful, were not able to withstand the opposite influences of distinctest and feeble demand, and the result was that the market was weak and prices lower.

withstand the opposite influences of disfeterest and feeble demand, and the result
was that the market was weak and prices
lower.

Wheat opened stronger on this market
with a good demand and better value's were
maintained. Corn and oats held firm, but
dealing in these grains as well as in wheat
was very limited.

"Every day is a Bunday now," said Floyd
Compbell, "but work days are in sight,"
and Mr. Campbell told the exact situation.

Reports from a prominent Northern Paciñe official indicate that the prospect in
the territory of the northwest is better this
season than ever before and in fact may be
the best on record. The condition of growing crops in that section is generally satisfactory, says another source.

More rain in Nebraska and other states
of this section and southwest is the forecast of the weather map. In addition to
the heavy rains in the southwest up to
7 a. m. Sunday morning the weather map
shows general and heavy rains in the
southern Illinois, Missouri, Kansas, Okiahoma and Texas were most affected.

CHICAGO GRAIN AND PROVISIONS

Fentures of the Trading and Closing Prices on Board of Trade. CHICAGO, June E.—Liberal world's ship-ments and favorable returns from the southwestern harvest fields had a weaken-ing influence on the wheat market today. At the close September option was down the from Saturday's final figures. Corn is At the close September option was down the from Saturday's final figures. Corn is unchanged. Oats are up a shade. Provisions show a loss of 19 to 25 cents.

The sentiment in the wheat pit was bearish from the start. Opening quotations on September were unchanged to &c lower at \$1\frac{1}{2}\$ to 18\frac{1}{2}\$ c. Commission houses were fair seliers of July, but offerings of September were light. The selling apparently allayed in the minds of many traders fears that the marketing of the new crop would be surely delayed by wet weather. The market closed weak and near the low point, final figures on September being at \$1\frac{1}{2}\$ c, after the price had touched \$2\frac{1}{2}\$ c. Clearances of wheat and flour were equal to 44.400 bushels. The amount on passage decreased 1.72,000 bushels and the visible supply 1.92,000 bushels. Primary receipts were 289,100 bushels compared with 49,100 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 299 cars against 361 cars last week and 343 cars a year ago. The corn market held up remarkably well considering the weak underione of wheat. The market closed almost precisely at \$3\tau\text{unday's final quotations. September opened a shade lower to a shade higher at 43\frac{1}{2}\$ to 48\tau\text{cars}, with 37 of contract grade.

Trading in oats was light. After opening unchanged at \$1\frac{1}{2}\$ c, elosing at \$1\frac{1}{2}\$ \tau\text{Ge}\$ c. Local receipts were 42\text{cars}, with 37 of contract grade.

NEW YORK, June 27.—There was hope and some expectation in the circles of professional operators in stocks that the new week opening would witness an expansion of the dealings and broadening of interest in the market. The market proved even more listless and sluggish than usual. But the new demand for stocks failed to develop and the disappointment caused prices to drop after the opening. The latter fluctuations were languid and totally indifferent. Railroad officials in their customary weekly discussion of traffic expressed a feeling of encouragement for the first

Wool Market.

BOSTON, June 27.—WOOL—There is a steady market for domestic wool. The sentiment prevails that the new wools must bring high prices in order that the buyers may clear a profit on the new clip. Some choice lots have recently been disposed of at record values. Pecceipts of new grades are heavy daily and are increasing. Pulled and territory wools are quiet, and foreign grades are also inactive, though firm. 4,493 ducted generally ognic higher of the source of the common and grassy cattle, however, were more or less neglected in spite of the light receipts and showed little or no improvement in price. It is very evident that packers are not at all anxious for grassy and warmed-up cattle at this time, even though they are paying rather low prices for them.

The cow market could be quoted strong to a dime higner on the better grades of cattle, but the medium kinds and grassers were slow sale and no more than steady. Salesmen were complaining that it was hard to get even a bid on the inferior kinds and for that reason the morning was well advanced before everything was disposed of.

The market on bulis followed much the same course as steers and cows. Cornfeds that were at all desirable were strong to a lime higher, while grassers were only teady. Veal caives showed no particular thanks. change.

There was a liberal run of stockers and feeders, considering the size of the total receipts, about 25 cars being on sale. A good proportion of them were idaho and itah hayfeds. The demand was not particularly brisk owing to the limited demand from the country, but still the market could not be quoted anything but steady on good stuff, with others slow. Representative
