GRAINAND PRODUCE MARKET new No. 3 whitewood cases included, 15c; cases count. 154c; cases returned, 4c less. HAY—Choice timothy, \$10,00010.5c; choice prairie, \$5.0005.5d. sand Still Strong for All Grain, but Corn, bu..... Receipts Are Light. CHICAGO GRAIN AND PROVISIONS TRADE DOES NO MORE THAN HOLD ITS OWN Features of the Trading and Closing Prices on Board of Trade. CHICAGO, June B.—Reports of damage by rains in kansas and Missouri furnished the strength here in wheat. September finished with a gain of %5%c. Corn is up %c, oats made an advance of %6%c and provisions show a loss of 24,67%c. Initial quotations on September were a shade lower at 50%c. The market closed strong and near the high point, final figures on September being at \$1%c, after the price had touched \$1%681%c. Clearances of wheat and flour were equal to 19,26% bushels. Primary receipts were \$12,500 bushels. Primary receipts were \$12,500 bushels. On pared with 307,100 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 208 ears, against 156 last week and 159 a year ago. The market for distant deliveries of corn No Material Revival in Buying and selling Anticipated Before Fourth of July, Which is Expected to End Dull Season. There was everything to make for a bull market yesterday, but, strange to say, the effect was fest but little nere, although Chicago deelers and epeculators were quick to catch the cue. Wheat, after easing off after the opening, began an ascent at Chicago late in the morning and advances were rapid for a time. Local demand is strong for all grains, but receipts are light. Elevator men want grain stuffs, but there seems to be little response to the call, as the farmers are paying more attention to the growing crop than anything that they may have in store. The market was dull again today and will in all probability continue so until the resuccitation which is looked for after the Fourth. Grains lust about hald their core. 190 s year ago. The market for distant deliveries of corn closed strong and at the high point. September opened unchanged to a shade lower at 48½c to 48½ 243½c, sold between 48½c and 45½ 26½c and closed at the top. Local receipts were 172 cars, with 21 of contract grade. paying more attention to the growing crop than anything that they may have in store. The market was dult again today and will in all probability continue so until the resuccitation which is looked for after the Fourth. Grains just about held their own here today and deals were scanty. But one cash sale was reported, a. car of No. 4 white oats, at 254c. Thursday is the last day for the buyers of July grain, but so far at concerns Omaha there was no scramble of shorts to cover. The story may be a different thing temerrow, however. At Choago the liquidations followed the opening and buyers were few. As the sell-ers have a month to deliver their grains, they seemed to rest easy at the outset and with the prospect of another day before them. Then came the bullish reports from almost every direction, especially from the southwest, and prices went up. Statistician Jones estimates that winter wheat this year will be 57,000,000 bushels under the yield of 1502 and that Ransas outside of the losses will yield by 72,000,000 bushels as against from \$600,000 to \$7,000,000 bushels as against from \$600,000 to \$7,000,000 bushels estimated by Secretary Coburns of the Kansas Agricultural board a few days ago. This, together with the report of Statistician Snow, which is extremely detrimental to the wheat and grain, worked for higher prices at Chicago. Beside these, private advices state that there has been far too much rain in Kansas and that the wheat in Missouri is ready to cut, but too wet for harvesting Complaints of rust are heard from a few sources. Minneapolls stocks of wheat show a decrease of Mo,000 bushels for the last four days. There is every indication that July deliveries will come late in the month. The weather map, too, lent its strength in bulling the market; for July and September rose in sympathy. More rains are reported in the west and southwest during the past twenty-four hours, with general precipitation in Kansas, but of a light mature except at Wichita. A fourth inch of fain was experienced at Kansas The range in prices of Omaha grain for future delivery and the close today and Tuesday were as follows: Open, High, Low, Today, Tu'day, Wheat— July 80¼A 80¼A 73%A 75%A 75%A 75%A Bept. 74%B 74%B 74%B 74%A Dec. 72%B 72% 72%B 72%B 72%B 72%A Corn— June 46%B 46%B 46%B 46%B 46%B 46%B July 46 8 66%B 46%B 46%B 46%B Bept. 43%B 43%B 43%B 33%B 33%B 38%B 38%B Dec. 38%B 38%B 38%B 38%B 38%B 38%B leids if could be secured; as it is, esti-mates must be lowered. Market Tries to Make a New Record for Exasperating Listleseness. MUCH HOPE BEING STAKED ON FUTURE Next Government Crop Report on Estimate Will Have an Important Effect in Forming Opinions. NEW YORK, June 29.—The principal interest attaching to today's stock market was the question whether it would score a new low necord for duliness. Large transactions in such a stock as Phoenix Mining have the record in actual number of shares transferred, but when it is considered that the shares are of a par value of \$1, thus requiring a transfer of 10,000 shares to equal a transaction in a single full share lot of an ordinary stock, the security of the record is seen to have been achieved at small outlay. It is scarcely full to attribute the sluggish fluctuations in such parrow trading to consideration of such vast Issues as the country's crops, the course of business and prosperity as a whole and as a barometer of events of so produgious a character to come. The present market can only be accepted as an index of profound uncertainty and lack of conviction over the future course of events and decisive developments are awaited to dissolve the uncertainty. The next government crop report, due July 10, with the first government estimate on the corn crop, may have an important effect in forming convictions and its early appearance after the coming holiday adds to the indisposition to make committenents until that period has passed. July 1 disbursements are to be apparently close to the high record and it is expected that a large temporary demand for loans may result. But no present anxiety over the money market can be conjured up. Intential buying of Southern Pacific and Union Pacific had a sustaining effect in the general market. Trade reports of the Anthracite traffic were more conservative than has recently been the case. Erie's resumption of dividends on Lehigh Valley after an eleven years' interval. The rise in the Metropolitan transactions pulled prices up slightly and held them to the closing, which therefore shows slight gains as a rule.

Bonds were dull and irregular, but with an investment cemanu. 66 505/2 60 124 18314 1284 934 924 925/3 1614 1614 1614 ... 365/3 ... 3634 ... 1185

below the expectations. The stock railled slightly later. Imperial Japanese government is of 1904 were quoted at 2014.
