by a small majority. To me there is no spectacle more pitiable than that of men and women allowing themselves to be forced or cajoled into voting for men for members of the school board who are the creatures of a saloon keeper-nominated and elected by him and his influence for the purpose of assisting him in his effort to continue his business in the very school

yard, as it were. Fortunately, however, for the more respectable class of our citizens, this cannot be accomplished. Our school board for the past year has been composed. In the main, of men whose honor and integrity could not be questioned. Perfect harmony prevailed and our school made rapid and substantial progress along all lines. While the aid of the two exponents of the saloon keeper will not

avail him in continuing his saloon in the shadow of our beautiful school building. yet their election, which was accomplished by deception and inisrepresentation, is to he regretted, for if ever they take their seats as members of the school board, harmony will be displaced by discord and the

efficiency and progress of the Benson school will, in a great measure, be destroyed. BENBONIAN.
