€. LOUIS, July 6.-The committee on resolutions met in a room connected with the convention hall immediately after adjournment of the convention and, after effecting an organization and transacting considerable preliminary work, adjourned to meet in the parious of the Southern hotel at 7 o'clock: The meeting was called and organized labor to order by former Senator Hill of New York and on his motion Senator Daniel of Virginia was elected chairman of the committee and given authority to appoint a secretary and a subcommittee of eleven to attend drafts of platform and report.

The suggestion having been made that the committee should adjourn till 7 o'clock Mr. Bryan suggested that if there were any members of the committee who had drafted platforms which they desired to members of the full committee that they might have time to consider them.

"If," said Chairman Daniel, "the gentleman from Nebraska has a platform I should be very glad, indeed, for one, to have a copy of it." Mr. Bryan replied that he had none.

At this juncture a number of members stated that they had formulated various resolutions which they desired to submit, among them being Mr. Williams of Misaissippi, who presented his resolutions in printed form: Mr. Newlands of Nevada, who presented some planks; Mr. Daniel, who presented a draft of a platform, which he said had been prepared by a member of the Virginia delegation; Mr. Tillman of South Carolina, a plank on the race question, declaring it to be the position of the democratic party that "this is a white man's government," and by John Prentiss Poe, the Maryland member of the delegation, who stated that the views of Senator Gorman were embodied in his draft. The financial plank is brief, being in full

as follows: as follows:

The democratic party congratulates the country upon the indication of the democratic contention for an increased volume of real or metallic money in a manner acceptable to all democrats by the addition to the world's stock of money metals of \$2.000.000 in gold within eight.years, from which these United States have been able to obtain \$700.000.000 thereby doubling their atock of standard money, raising their per capita from \$23 to \$30. The fact that this result has been reached by no action of government but by the action of God, through His main instrumentalities of discovery, invention and industry does not leasen our gratification.

The committee on resolutions re-con-

vened at 7 o'clock and Senator Daniel immediately made the appointment of Edwin Sefton and J. J. Sinnott as secretary and sergeant-at-arms, respectively. He also announced the appointment of a sub-committee to prepare a platform for submis sion to the full committee as follows:

He was replied to by Mr. MacMahon of Objo, who said that while the adoption of this plank might do much to secure the labor vote it would also probably have the effect of depriving the party of the support of the employers of labor. The labor question was then temporarily laid aside.

The committee entered upon a series of hearings of outsiders, including representatives of the anti-Imperialist League; the National Woman's Suffrage Association,

BAILEY REFUSES CHAIRMANSHIP Wants to Stay on the Ploor and Fight

Bryan Planks. ST. LOUIS, July 6.—Senator J. W. Bailey of Texas and Representative Champ Clark of Missouri have both declined to accept the permanent chairmanship of the democratic national convention. When the committee met it organized without delay. Senator Balley and Representative Clark present they should submit copies to the were put in nomination and the former was elected by a vote of 18 to 16. The committee then unanimously elected Charles A. Walsh of Iowa, secretary of the national committee, as permanent secretary of the convention.

All the other officers of the temporary organization were made permanent and the committee adjourned, under the impression that its labors were ended. Several members went to the exposition grounds and the others dispersed, so that a quorum could not be found an hour

When Senator Bailey was informed of his election, he at once announced that he could not accept, as he desired to be on the floor when the platform is under discussion. He expected to combat an atthe platform planks which do not meet approval of the committee. Therefore his declination of the chairmanship was respected. Senator Balley argued that John E-Sheehan and P. H. McCarren called on him and made the tender. Mr. Clark announced that he was en-

gaged to put the name of Senator Cockrell In nomination for the presidency and, therefore, would have to be on the floor during the convention. He was urged to reconsider and finally agreed to send a telegram to Senator Cockrell to the effect that the place had been offered him. If Senator Cockrell makes no objection Mr. Clark will be accepted.

In view of the certainty that Parker will be nominated, it is believed that Senator Cockrell will ask that his name be withdrawn. At a later hour tonight the few members of the committee in the Southern hotel were trying to find a quorum in order to hold a meeting.

Neither Senator Bailey or Mr. Clark knew that the latter's name was to be voted on for the chairmanship. Senator Balley tonight gave out the following statement in relation to the situation: "I will not accept an election as per-

manent chairman over Champ Clark. When I served with him in the house of representatives he was one of my most loyal and valuable friends. If this were a case of a close contest for a presidential nomination in which Mr. Clark and myself is however, no contest here and consequently no political reason why I should allow myself to be drawn into a contest with such a friend as Champ Clark.

supreme court. The county attorney takes the ground pital. that section II of the revenue law includes every species of tangible and intangible property. All debts due are held to be credits. In discussing the Duffle opin-

lon he says: It seems to me clear that in the light of the decisions of our own state as heretofore cited, when the question was squarely presented, the plain provisions of the law of this state require that all property shall be taxable, unless expressly exempted therefrom. That all debts due are credits and are taxable. I am unable to see why any distinction should be made between different classes of borrowers. All should be treated alike. If the debt owing by oild class of citizens is not subtracted from their tangible property, then no other class of citizens should be so favored. It is true that this law may result in some double taxation, but so does the taxing of real property at its full value so result, where the property is mortgaged, and the mortgage held by a citizen of this state.

Yet it could not be claimed that a person who borrows money to loan again upon real estate or other security should have his indebtedness deducted, when the person who borrows the money to buy real estate is not so favored.

It is further my opinion that all credits are property and that all property is taxable. There is nothing in the statute about net credits and the discussion of that question only ends in confusion.

In response to letters sent out by the National League of Republican clubs, the observance was general last evening over the country Frank Crawford read an interesting pa per on the founding of the republican party. H. C. Brome spoke of the recent convention at Chicago, referred to the harmony manifested there, and drew a striking contrast between that harmony and the disruption in the democratic ranks,

both as regards platform and the views of candidates as to party management. W. F. Gurley paid an eloquent tribute to the early men of the party and to Mc Kinley and Roosevelt. The president of the club announced the appointment of committees on program and

membership. Frank Crawford, Edgar A. Baird and D. W. Dickenson were placed on the program committee, while J. W. Battin, C. H. Jensen, Clyde Sundblad, W. J. Fawcett and H. L. Cohn are on the nembership committee. The Board of Managers have taken up

the matter of organization for vigorous campaign work. At the next meeting of the club, which will be on August 1, Judge Vinsonhaler will read a paper on "History of the Regram committee have just arranged an in teresting list of papers that will be read

from time to time before the club. Put your want ads in the Bee Want
