Mr. Sanger and W. J. Dobbs, president of the company, who have been attending the annual meeting of the corporation in Tabor, were in the city yesterday and will leave this mornng for Boston.

Mr. Sanger was more emphatic that the proposed electric road would eventually built within the prescribed time, but that the commencement of the work of onstruction would depend on the sale of the bonds. At the same time Mr. Sanger said he is sanguine that the road as far as the School for the Deaf would e built this; fall and that as soon as he nd Mr. Dobbs reached Boston, they would endeavor to secure the money for this part of the work before the bonds were disposed of.

All the preliminary surveys have been rgade, Mr. Sanger said, and in fact, bids have been received for the construction of the entire road, but no attempt to build beyond the School for the Deaf until the bonds are floated. While in the city yesterday Messrs. Sanger and Dobbs talked with a number of the city officials. assuring them of the intention of their ompany to build the line to the School for the Deaf within the time provided in the ordinance granting it a franchise.

SOMETHING DOING AT CARNIVAL Elks Turn Out and Fraternise with

the Engles. Elks' night at the Eagles' mid-summer jublice and carnival yesterday proved a oig drawing card and the grounds were crowded. The Elks, over 200 strong, went in a body to the grounds and helped whoop up things, although the crowd was there to enjoy itself and did not require much

urging. All of the Parker company's attractions were in full swing yesterday and were well patronized. Everyone appeared to be well pleased with the different shows, which are all of a wholesome character. The crowd last night was a jolly one and the indispensable confetti was there by the oushel. The Ferris wheel and carry-us-all

proved popular features. In the afternoon all children under 15 years of age were admitted free and the grounds were literally thronged by young folks, who thoroughly enjoyed the numerous free shows offered by the management. State Board Has a Mard Time Figuring Out How to Assess Railway Terminal Companies-Many New Buildings.

In fact, the court declared that the evidence was not sufficient to sustain a conviction in this case, and but for admission of improper evidence it is probable there

Mallory Line Steamer, PHILADELPHIA, July 12.-The steamer Jacinto of the Mallory line damaged to the extent of \$40,000 by fire today while lying at Roach's shippard, Chester, Pa., where it was laid up for repairs. The vessel was built by the Roach Shipbullding company at a cost of over \$500,000 and was launched about a year ago. When completed the San Jacinto was placed on the line between New York and Galveston. It was brought to Chester on June 8 for repairs, and would have been ready to take its regular run within a week. The fire originated in a room used for storing oil and varnish and had gained such headway before the arrival of the fire engines that the firemen divided their attention between the big vessel and the property of the shipbuilding company adjacent to the dock. FRENCH BISHOPS MAY BE DISCIPLINED Ministers of France Instruct Church Dignitaries to Disregard Orders from Head of the Catholle Church.

PARIS, July 12.-The Matin today says that eight days after the recall of M. Nisard, former French ambassador at the Vatican, a number of French bishops reeived an order from Cardinal Vannuttelli, cting for the Vatican, to tender their resignations by return of mail. The bishops, it is added, consulted the minister of public worship and Premier Combes, who directed them not to tender their resignations, on the ground that the concordat required the assent of the state before renovals were enforced. Thereafter the papal secretary of state, Cardinal Merry Del Val, threatened the bishops with the termination of their episcopal powers unless they came to Rome within fifteen days. . This also was submitted to M. combes, who forbade the bishops leaving their posts. Bishop Lawal of Dijon, two other bishops and three archbishops having republican sympathies were the ones des tgnated.

The Matin further asserts that the dismissal of the bishops without consulting the government's wishes will be considered as a formal renunciation of the relations between church and state.
