Almost Every County Has Kick on Its Own or Neighbors' Assessment.

SOME LIVELY TIMES ARE ANTICIPATED

Supreme Court Grants New Trial to Fred M. Hans, Convicted of the Murder of David Luse in Brown County.

(From a Staff Correspondent.) LINCOLN, July 18-(Special Telegram)-The statehouse will witness the largest aggregation of kickers next week that has ever assembled there. The Board of Equalization then meets to adjust the valuations between counties and the indications are without representation either to argue against an increase or to demand a raise in the valuations of neighboring counties. While the board has yet to determine upon a formal plan of procedure it is intimated that the consideration of counties will be taken up in their alphabetical order, Adams being taken up first. The entire galaxy of railway representatives which enlivened the sessions of the board when it was taxing railways will be represented at one time or another during the hearing, demanding that counties which have not been raised in the same ratio as the railways be equalized up. Douglas real estate was assessed up to the limit last year.

The members of the board are standing on doubtful ground just at this time, and little is given out as to the course to be pursued beyond the statement of the governor that the various counties would be brought up to their full valuations, without fear or favor. It is the governor's understanding and that of several other members of the board that it has the right to raise one or all without respect to the valuation of others, the sole object being to bring them all up to the true value.

Enter Railroads It is at this juncture that the railways of the board believe that it will be imossible in increasing the valuations of the various counties, to bring them up to the cash standard to avoid adding the increase to the railways also. The section of the statute which forms the basis for the board's action provides that the amount which is to be added to or deducted from a county's valuation to bring ft to the fair cash value level, shall be distributed to all species of property in the same percentage. This means, some rahway men believe, that the counties will add the percentage to railway values, in the same manner as to other species of property. In such event an increase of 10 per cent in a county would mean that the the bidding and the adjutant general will railway which is already assessed at 69 per cent increase over last year's figures would have to submit to an additional raise of 10 per cent. This is what the railways are fearful of.

On the other hand, many of those who are interested in the matter of fair railway taxation insist that this feature of the law will force the board to add enough to the valuations of the carrying interests to bring them to a level indicated by stocks and bonds, which would have been close to \$60,000,000.

Big Discrepancies. The figures which are being compiled by Land Commissioner Follmer to show the sale values of lands sold in 1963 are ex-pected to show that is a considerable twenty-one state requisitions. Bids will been listed at anything like the market value. A compliation from Kimball county showing some twenty transactions shows an aggregate assessment equal to 6.42 per cent of the aggregate sale values of the lands covered in the compilation, instead of the 20 per cant required by the statute. Dawes county returns to the board indicate that the total valuation has been raised from \$1,111,890.23 to \$1,383,114.82, and of this increase \$257,124 has been due to the new railroad assessment, while \$14,100.59 is Lena Lillie, sentenced to imprisonment attributed to the work of the local asses. life, pending a rehearing of the case. The average assessment of land has been decreased from 60 to 59.7 cents. Mc-

that the increase over last year has been 43 per cent. The total valuation last year was \$2,745,215, which has increased to \$3,-928,716 this year. The rallway mileage was increased 67 per cent in value.

Hans Gets New Trial. The supreme court, Judge Holcomb dis-senting, has held that Fred Hans, the railroad detective who killed David O. Lune of Brown county in 1901, while Hans, as a special deputy sheriff of Brown county was trying to place Luse under arrest, is entitled to a new trial. The ground of the court's decision is that the indictment charged murder in the second degree, but that the court permitted the introduction of evidence which tended to prove premed-

station and deliberation. Omaha Must Pay Up. The judgment in favor of Mary Houlthan against the city of Omaha is affirmed The promising that not a single county will plaintiff sustained a fracture of the leg the plaintiff was guilty of contributary negligence, but the jury found otherwise. Wahoo and other places are in make a tour this week for the purpose of determining which places offer the best facilities for the maneuvers of the brigade. The primary consideration in the choice of a drill ground will be the number of advantages offered for drill and maneuvers. This makes it certain that the town which wins out will have to offer the use of considerable land. Rough land will be the most acceptable since it will be easier to secure actual service conditions in such environment. Some of the bluff land near

Difficulties in the East. COLUMBUS, Neb., July 13 .- (Special.) Sergeant McNutt of the New York detec tive service started east this morning with J. A. Ritter as his prisoner who is wanted on a charge of embezzlement. Ritter came here a few months ago and went under the name of J. A. Robinson. He opened up a shoe-shining parlor and was also selling phonographs. In speaking of the matter yesterday he said: "This is the divorce four years ago. She has been continually hounding me since. Five years ago I was selling drugs for a wholesale drug firm who were under bond not to sell to cut-raters. In order to make the sales and not violate the bond I made ports of the attorney general and the our house filled the orders. Warden Makes Water Haul. DAKOTA CITY, Neb., July 18 .- (Special.)-Deputy Game Warden E. Hunger left this locality last evening after having spent several days on and in the vicinity of Crystal lake with the hopes of nabbing offenders of the game and fish law, but his efforts were in vain. Deputy Hunger arrived at the lake last Saturday unheralded and unadvertised in response to word received at the office of the game warden from Sloux City parties that seining was being indulged in at Crystal lake. Deputy Hunger and his assistants instituted a diligent search both night and day with the hopes of securing the offenders, dragging the lake from one end to the other, but the only thing secured was a couple of trout lines. Upon interviewing the parties in Sioux City who made the complaint Deputy Hunger found that their charges were based on reports and rumors which were unreliable and more the result of jealousy than anything else.

Tax Suits Compromised.

DAKOTA CITY, Neb., July 13.—(Special.)—Following the example set by the Sloux City Bridge company in amicably adusting their differences on taxation with Dakota county, the Combination Bridge company at the last meeting of the board of county commissioners an agreement was entered into between the Combination Bridge company and Dakota county whereby the bridge company agrees to dismiss the litigation growing out of the assessment of the west half of their bridge atructure for the year 1902 and to pay all costs accrued, and also to pay their taxes for the years 1903 and 1904 without delay and further litigation upon the board of county commissioners fixing the sum of \$45,000.00 as the proper valuation of the Nebraska end of the bridge. The agreement entered into will be taken into the district court for approval.

Murder Trial On at Harrison. HARRISON, Neb., July 13.-(Special.)-The adjourned session of the March term of the Sloux county district court convened here today, Judge Westover presiding. The only case of interest or importance on the docket is that of James Connolly for the murder of Henry Miller last March. The case will be a hard fought one, Attorneys Noleman of Alliance and Wright of Scott's Bluff having charge of the defense. County Attorney O'Connell will be assisted by County Attorney Mitchell of Alliance. The work of securing a jury was begun this morning and is likely nsume the whole day.

ALBION, July 12.—Albion has been a "dry" city for the last two years and violators of the Slocum law have found it rather expensive business, although juries have failed to convict in some cases. About two weeks ago the officers detected two barrels of wine in a coal shed and the same was taken under a search warrant. The owner of the shed, however, disclaimed ownership of the liquor and says the building was rented to a local drug firm. A hearing will be had and it now looks as if the chief of police will have two barrels of wine that no one is anxious to claim. Jacob Long had a preliminary hearing Monday on the charge of keeping intoxicating liquor, with the intent of unlawfully disposing of the same, and was bound over to the district court. She is unable to state the exact damages, but it will be at least the sum stated. She has not yet completely recovered. Injury to the knee and thigh, a sprained and wrenched back and injury to internal organs are alleged to have resulted. No formal claim has yet been filed and no suit begun, but the city attorney is busy looking up the record of condemnation of the walk and the owner of the property will undoubtedly be a party to the sult should there be one.
