Colorado Springs Comes Back in Ita Half with Three and Takes the Best Game Seen in the Springs This Season.

COLORADO SPRINGS, July 12.-(Specia Telegram.) - The Millionaires defeated Rourke's pets today in a game that was closely contested from the start. Not until the last inning did either side score, and it began to look as though it would be a long drawn out contest. The locals, however, were there with the willow and touched up Pfeister for safe ones at the time when hits were an absolute necessity to win the game. Ryan, for the locals, did excellent work with the stick, as well as did Miller for the invaders. Pfeister's work in the box was superb, he having the money men at his mercy throughout the long procession of goose eggs until the ninth, when he took a slight balloon ascension, permitting the Willies to get in three

McNeeley also did good work at the slab. Pfeister made eight gifts of bases, but evened up that weakness by striking out six men. McNeeley fanned two men. The game, up until the ninth inning, was one of the fastest and prettlest ever seen on the local field. The score:

Think what this means. Imagine the amount of misery that exists and is endured simply because people do not know there is an absolute cure.

The only way to cure any complaint is to remove the cause. There are very few diseases or ailments that can be cured by external application-and piles is not one of them. Piles can be cured; the treatment must, however, be internal, for the cause of piles is an internal disorder of the liver or the bowels. Even catarrh of the stomach and bowels can be cured by Dr. PERRIN'S PILE SPECIFIC, The Internal Remedy. Here is an instance of what this practically infallible remedy will do:

Dr. C. A. Perrin, Helena, Mont.—Dear Sin I have nearly finished the former bottle of Perda's Pile Specific and am practically well. My case was one which most physicians would have pronounced incurable, as I was afflicted with a dysentery and compelled to go to the toilet room from three to five times each day and each time would bleed from one-half to one teacupful. I had to resort to bandages and absorbent cotton to check the flow of blood, and now the past ten or twelve days there has been no sign of bleeding and my appetite is good; have gained ten pounds in weight and feel like a new lease of life was given me.

Very truly yours, T. R. HARRIS, October 20th, 1902. Yerington, Nev.

the Swift plant and seven men from Lincoin alighted and started for the packing house. A committee of strikers talked to the men and the result was that six deserted, leaving one man to enter the plant. These men came from Lincoln. The six returned to Lincoln last night.

Strikers loitering in the vicinity of the plants vesterday afternoon reported at labor headquarters last night that a wagonload of beer had been delivered to each of the packing houses. The beer is supposed to be for the nonunion men who are working in the houses.

Since the receipts of live stock have fallen off there is very little for the car repairers employed by the Joint Car Inspection' association to do and half the force has been laid off temporarily. So far none of the employes at the Union Stock yards have been laid off.

Concerning the situation, Vice President Vail said last night: "There is little to say this evening, as there is no material change in the situation. Our ranks have been increased by the men who did not leave at the time of the general walkout. I am satisfied that the situation looks brighter for the Amgigamated association than it did this morning." Referring to the placing of pickets, Mr. Vail said:

"There is no regular organized force of pickets, but some of our men are always in the vicinity of the plants keeping watch of what is going on. These men report here when there is anything of importance to report."

Establish Living Quarters.

Wildressle dry goods nouses of Omaha is said to have received orders from Armour, swift and Cudahy for large stores of sheets, pillows and comforts, one heavy consignment to be delivered at once, the same to be duplicated November 1. These are said to be for the use of the men who are to be recruited and maintained by the packers. Special watchmen also are to be housed and fed at the plants, the idea being to make it unnecessary for any to leave the plants. Office forces will be drafted into servicehave been, in fact-for heavy work. Those who are strong enough for manual labor were notified Tuesday night to report this morning ready to become "horny-handed sons of toil." Office is for the time being
