Prices Continue Their Reckless Flight, but Business is Dull.

JULY WHEAT IS BID UP TO NINETY-TWO

Receipts are Lacking and Nobody Has Cash Grain to Bell-Not Even Elevatore Are Buying.

OMAHA, July 13, 1904.

OMAHA, July 13, 1964.

Grain prices continued their wiid and reckless flight yesterday and wheat values especially took gigantic strides skyward. Bullish news poured in over the wires from almost every direction and at Chicago shorts seemed trantic to cover. Damage reports and short crop yarns were the order of the day. One prominent dealer faconically remarked: "The statisticians have killed the crop every place now but in Russia and Argentine, and I suppose taey will start in on those piaces tomorrow."

Higher cables, coming as they did, lent their aid in making for the firm opening, and Snow's report, highly bullish, especially to Nebraska and the Missouri river valley, was posted late in the session and prices responded with another throb.

At Omaha, as late as 1730, the price of July wheat, now a practically cash grain, was bid up to Exc and not a seller in sight business here was extremely duit. Receipts were nothing, almost, and nobody had cash grain to sell. Dealers are holding aloof from the market, fearing it is dangerous to tamper with the insane figures. Van Dorn wanted to sell December wheat, but nobody, not even the prospective elevator owners, eared to buy stock for their

but nebody, not even the prospective ele-vator owners, cared to buy stock for their winter bins.

vator owners, cared to buy stock for their winter bins.

At Chicago old July bounded above Sc and those who had sold a few days ago at what they deemed the tip top were lamenting the fact. Snow occlares the crop of the Missouri valley will be from 35 to 60 per cent short, but there are not a few of the local traders, who believe Mr. Snow is far from the main road. In fact many private advices received by Sunderland & Updike show that the yield in this state probably will be but 2,000,000 bushels. The estimate of 15,000,000 made by a prominent Lincoln elevator firm is said to be ludicrously low.

The forecast of showers and thunderstorms all over except in Kansus and that state cloudy, helped to built the market. Privats wires from York, Neb., say: "Wheat harvest in this county is about 80 per cent completed and the straw indicates a good yield. There is no lodgment of wheat or oats and a good crop of the latter is probable. Corn is a little late, but clean, and making rapid growth. The cutlook is for a bountiful yield over the whole county."

On the other hand, Snow's report says that on his own Nebraska farm where he whole county."

On the other hand, Snow's report says that on his own Nebraska farm where he expected to harvest forty bushels of wheat to the acre he got only 16.

St. Paul Shows Phonomenal Strength and Pressure is Brought on Other Leading Railroad Securities.

NEW YORK, July 12.—A growth of the speculative forces at work in the stock market was again manifest in the dealings, which rose away above yesterday's total and exceeded the figure of last Wednesday, which had made a record on the market. The market was agoity and irregular were reactionary and manifestly held back by profit taking. Others which were subjected to this process in the early dealings, developed renewed strength late in the day, all, including the sustaining strong points in the early trading, were more or less affected by profit taking during the day, but the successful taking of profits is one of the most important tests of the actual strength of a speculative market. The wide opening in St. Paul, with simultaneous sales at 1st and 1st %, and its almost immediate rise, gave such an impression of manipulation that a party of room iraders maintained a suspicious attitude toward the market and put out short lines at all dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be preferred on the confident assumption that the full dividend for the quarter will be paid. ticany no market to all intents and purposes.

The few odd lots of beef steers sold to a packer this morning, but there were not enough nere to make a snowing, and few, if any, are wanted.

Prices paid are anywhere from 25@40c lower than Monday, with no material demand at the prices.

A few cows and beifers also changed hands, thus practically clearing up the supply. Prices in this direction, while not showing the decline in steers, were all or 15@25c lower than Monday, with no demand of consequence.

A few stock cattle are changing hands at current quotations and in feet this is the only branch of the trace that is not materially hampered by the strike, although at this time the demand is limited. A few desirable feeders sold this morning at about steady figures. A few desirable feeders sold t at about steady figures. BEEF STEERS.

DEMOCRATS WEAK IN EAST

Parker and Davis Frowned Upon, Says Postmaster Palmer.

CONVENTION DISAPPOINTMENT TO ALL

Party Disgusted and Angered at Dave Hill and Has no Hopes of Carrying the State of New York.

Postmaster H. E. Palmer has returned from his eastern visit of two or nore weeks, which included a jaunt through New England and New York, accomps filed by Mrs. Palmer.
"I was in the cast when the nomination

of Judge Parker was announced." said Captain Palmer, "and could but be impressed with the luck of enthusiasm w'tich followed his nomination. I do not think that even the democrats have any hope of carrying New York for him. Certainly his nomination is distasteful to the New Englanders and in New York everybody is cussing' Dave Hill. When the delegations returned from St. Louis no enthusiasm was manifest and a general feeling of dirappointment seemed to pervade the politi-cians who had hoped for democratic suc-cess. One gentleman put it to me by saying, 'What we wanted was an unequivical stand for the gold standard and that is what Dave Hill promised us. The mouled interests of the east are a little viudic ive toward Roosevelt on account of his attitude toward the trusts, and we hoped for a man of pronounced sentiments on the sound money question. Parker knew twelve hours before he sent that telegram what the platform was and that it was si-ient on the gold question. And it was act until he was forced by the influences back of him to announce himself on the mosey question that he did so. It showed a weakness that we do not like and this has lost him hosts of friends all throughout the east. We feel safer with such a man as Roosevelt, notwithstanding his attiride against the trusts. He is at least stre iuous and his election even as a republican would be preferable to a weak-kneed democrat.

Davis a Weak Candidate. "Another feature of the St. Louis convintion that is making itself manifest in the east is in the nomination of Senator Davis of West Virginia for vice president. They think there that his only qualification is the \$40,000,000 he is supposed to postess and that his nomination was brought about simply to get the benefit of his barrel. The eastern monied men are not going to put any money into the democratic campaign, but will let their vice presidential no minee, with his 81 years, furnish the wherewithal. Tammany is not at all enthisi-astic for the ticket and it seems to be an accepted fact that New York will be carried by Roosevelt and Fairbanks by a big majority."

Registration at Fairfax.

FAIRFAX. S. D., July 18.—(Specisl.)—Registration goes merrily on. A jolly party from McCook, Neb., is making Fairfax headquarters. What strikes people from the eastern states is the fine condition of our crops, and especially the corn, which our crops, and especially the corn, which has made a phenomenal growth the past week.
