(From a Staff Correspondent.)

LINCOLN, July 14 .- (Special.) -- Governor Mickey issued a call this morning for a meeting of the State Board of Equalization at 2 o'clock Monday afternoon for the purpose of equalizing the assessments of the various countles as returned by the county assessors. It is reported here that since the board made its report of the railroad assessment agents of the corporations have gone over the state with a fine tooth comb looking for discrepancies in the returns of the county assessors on the valuation of land and on money in banks. It is reported that they have complied a monumental pile of figures with which to confuse the board to the end that the farmers will be assessed at figures never before heard of, the railroads acting under the hallucination that they have been assessed too high.

But the railroads are likely to reckon without their host and it is not improbable that they would better "let well enough alone" before it is too late. Section 130, under which the Board of Equalization meets, reads thus:

For Constitutional Convention. Secretary of State Marsh stated this morning that about August 1 he would

begin to advertise the fact that the calling of a constitutional convention has been submitted to the voters of the state by the last legislature. This preparatory advertising he regards as essential under section I, article 15, of the constitution requiring that the amendments be advertised months before the question is subthree mitted to the voters of the state on the regular ballots. The purpose is to give all citizens ample notice of the intended action. The advertisements will be inseried in one paper in each county and published thirteen consecutive weeks prior o the date of the election.

Robber Has Nerve. PIERCE, Neb., July 14-(Special Tele-

gram.)-Burgiars broke into the house of Henry Kluge in the west end of town early this afternoon and stole a gold watch and chain and a necklade that was given to his wife for a wedding present. The burglars were frightened away by some of the relatives coming in the back door about 4 or 5 o'clock. A man called

license and while here said that a party at Aurora, Neb., was working a booze room in such a manner that it was impossible for the government to compel him to take out a license. This Aurora party takes orders for all kinds of intoxicating liquors and for the sum of \$1.50 a month rent, he stores for any individual whatever liquor this party may buy. In the large storage room in the rear of his business room are cases upon cases of bottled beer and jugs and bottles of whisky, and whenever a citizen of Aurora becomes thirsty, he goes to this storage room and drinks or takes from his case whatever he wishes. There is a large ice box in the room and a great part of the beer is kept on ice.

The citizens of Aurora claim to be unable to do anything and it was upon their request that the deputy revenue collector called there. It is said that the orders have increased so that the manager of the storage room will soon order beer in car load lots, and that his rental from this room will exceed \$200 per month, with scarcely any expense whatever.

Bryan's statement has thrown things clear up in the air and democrats as well as we populists hardly know what to do. We absolutely will not stand for Parker and the breach will become so great over this, occasioned by Bryan's intention to vote for Parker. that in all probability we can not get to gether in state affairs. The two conventions meet here August 10 and there will be the hottest tme ever pulled off in the state when these two conventions get down to work."

Boom Allen for Governor, The populist leaders here are booming Senator Allen for governor and will make a fight to have him accept the nomination. while a good many of the rank and file still cling to the hope that Judge Holcomb will be the nominee. The democrats are willing to fuse, but one of the prominent ones remarked that the democrats could not afford to allow a populist to have the fusion nomination for governor

"We must name the nominee for governor," he said, "from the democratic party even if we have to dispense with the needed populist vote."

A number of democrats are very much displeased with the action of the St. Louis convention in dealing with the Parker telegram and it was told by a friend of Chairman Hall of the democratic committee that he would call the convention to order and if it showed the least symptom of being a Parker aggregation he intended was the intention to vote yesterday on to lay down the gavel and that would wind up his affairs so far as this campaign is concerned. Very much visiting is being done be-

tween the democratic and populist leaders. however, and it may be before the double conventions are called to order they may be one only with two heads.

VETERANS IN CAMP AT PIERCE

Grafters Put in an Appearance and One of Them Done Up.

NORFOLK, Neb., July 14 .- (Special.)-Northern Nebraska has had its hat off to the old soldier during the week just past. Fully a half thousand of the remaining veterans from all over this territory spent the greater part of the week in the annual eunion at Pierce, Neb., talking over the times of the war, sitting around the campfire, visiting with each other and being entertained by the modern grafter.

The roll call shows several missing from he list of the veterans. Among the active veterans still in the ranks, and active
