

RAILS FOR CONSTANT USE

Large Amount of New Material to Keep Road in Condition.

NOTHING UNUSUAL IN THE PURCHASE

Union Pacific Will Use Some Rails in Double Tracking Kansas Division, but These Are Not Yet Received.

An official of the Union Pacific, speaking of the large amount of rails and repair material being received by the Union Pacific at the present time, said:

"The purchase and receipt of this material means nothing but that the lines of the company are being kept in such condition as is thought necessary for good operation of the road. Only 10,000 tons of the rails recently bought by the Harriman lines will be used by the Union Pacific, and these will be used entirely for repair work along the line from one end to the other where replacement of worn rails is most needed. The work of double-tracking the Kansas Pacific line from Kansas City to Topeka also will take a large portion of the new material. Just where particular rails will be replaced it is a matter to state, for the work will be distributed at a number of places along the system. The receipt of the material has been somewhat delayed this year. Our new rails usually arrive earlier in the summer, but I can say that the allotment of rails for the Union Pacific this year is no heavier than in years past and in fact much larger orders have been placed for regular repair stock of rails in years past, since I have been connected with the line, than this year."

Uniform Bill Not Settled.

So far as the adoption of the uniform bill of lading was concerned the recent meeting of the Western Classification committee at Manitowish was without result. No definite action was taken regarding the adoption of such a bill by the representatives of the western roads present, but the whole matter was continued until the January meeting of the committee.

It is said shippers have succeeded in bringing such strong influence to bear in opposition to the adoption of a uniform bill that the railroads had to give up the project for the time being. Railroad men and shippers seem to be almost unanimous in the opinion that the plan for adoption of the bill will ultimately fall through, and that the present forms will be continued in use for a few years at least. Shippers still maintain that it is plainly a scheme on the part of the transportation companies to increase freight rates 20 per cent all along the line, while railroad men seem to believe that the adoption of the bill as outlined would have no such effect.

No very important action was taken by the committee at the Manitowish meeting.

Still Rush to Rosebud.

The rush for Rosebud lands still grows. The Northwestern ran two special trains from Omaha Sunday evening for Rosebud, carrying about 3,000 people. All of the cars that could be secured were added to the trains, but they were insufficient to haul the crowds that were brought in by the eastern and southern connections of the

ROAD. About 120 passengers were left at the station after the last train pulled out, and they went on the early train today.

From reports which reach the local railroad offices it is anticipated that the last few days set aside for registration will see the largest crowds in the period headed for the free farms. The roads will try to keep pace with the increased passenger business and furnish sufficient equipment to handle the homeseekers.

George W. Hodge, general manager of the B. & M., has gone for a trip over the west. There is a rumor in circulation about Burlington headquarters that both a passenger and freight representative will be named to look after the business at Denver. It is scarcely believed, however, by those best posted at headquarters that any such plan will be carried out, as it is said to be obviously unnecessary to have two men to look after the Denver business.

TQ SURPRISE THE PRESIDENT

G. W. Wattlew Will Go to Oyster Bay with others of Notification Committee.

G. W. Wattlew, a member of the committee of the national republican convention to notify President Roosevelt of his nomination, will depart for New York Sunday next to meet with the committee to spring this surprise on the president at Oyster Bay.

Disturbs Peace Asleep

Boston Green, Though Slumbering, Still Makes More Noise Than the Law Allows.

"How can a man disturb the peace by sleeping?" asked the police judge as he read the charge against Boston Green. Green has been arrested many times and on many charges, but he now enjoys the distinction of being enrolled on the police books with an entirely new charge, namely, disturbing the peace by sleeping. It is said that the veteran prisoner snored for six hours and woken every inmate in the house. The arrest is said to have been something of a joke. Boston was discharged and told to put mufflers on his boots the next time he snored.

Look for the Tiger.

Martin Kryal's Body Found. Coroner Brasley was notified at 2:45 p. m. Monday that the body of Martin Kryal, the 16-year-old boy who was drowned Saturday evening, has been found near the west end of the Union Pacific bridge. Kryal was drowned while swimming last Saturday. He lived at 307 Hickory street, and was a press feeder in the employ of the Omaha Printing company.

CITY CANNOT PAVE STREET

Omaha Prevented from Repairing Sixteenth and Assessing Property Owners.

LOWER COURT DECISION IS UPHELD

Supreme Judges Hand Down Ruling Sustaining Verdict in Case Brought by Hugh McCaffrey to Test the Law.

A decision handed down by the supreme court at a special session held Saturday afternoon will prevent the city authorities from repairing North Sixteenth street from Douglas to Iard street. The right of the municipality to contract for paving the work done, pay for it and reimburse itself by taxation of the abutting property owners is denied, the decision of the district court being affirmed. Contentions of City Attorney Wright in this regard are not sustained.

Last summer City Attorney Wright declared he believed a section of the charter as follows could be operated with success on North Sixteenth street: Whenever the mayor or council shall enter into any contract with any contractor to keep in repair any street or street improvement district in repair for a term of years after its expiration of the term of original contract guarantee, for a specified price per year, said mayor and council shall have the power, and it shall be their duty to levy annually on the property in the paving or street improvement district to cover the cost of such repairs. Such special tax shall be levied and collected as in other cases of special taxes.

ALL ESTATE GOES TO WIDOW

Will of Samuel Reichenberg, About Thirty Thousand Dollars, Probated in County Court.

The will of the late Samuel Reichenberg was admitted to probate in the county court, there being no contest or objection to such confirmation. The estate is said to be worth about \$30,000, of which about \$25,000 is in real estate. All is left to the widow, Fanny Reichenberg, who is made the executrix. The testament was made on January 2, 1884, and mentions Mrs. Reichenberg as the sole beneficiary.

A PESTIFEROUS GERM.

Burrows up the Scalp into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the scalp in which the hair root is shriveled up and the hair drops. If the work of the germ is not destroyed hair keeps thinning 'til baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but today dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Sherman & McColl Drug Co., special agents.

ANTITOXIN FOR HAY FEVER

Bureau of Plant Industry Investigates the Disease and Announces Conclusions.

The real cause of hay fever, that disagreeable and puzzling form of summer affliction, is claimed to have been discovered by the bureau of plant industry of the department of agriculture. To be more correct, the discovery was not made by this bureau, but its experts have confirmed a theory as to the cause of this disease put forward by a German investigator.

HEARST TOO MUCH PRO-JAP

Losses Bohemian Support in Chicago Because of Radical Attitude of His Newspapers.

"I can tell you one reason why Hearst did not win out in his fight for the Illinois delegation to the democratic national convention," said V. Chvyotek, a prominent Bohemian of Chicago, who is in Omaha on a business and pleasure trip. "That is he repelled the Bohemian and Russian element of the party by the radical pro-Japanese proclivities of his newspapers. The Bohemian vote in Chicago is very large and it is almost solidly democratic. These people always have had confidence in Hearst's attitude toward the labor classes and have been with him in other ways, but they felt that his papers have gone out of their way to knock the Russians and play up the side of the Japs in the war, and as the Bohemians sympathize with the Russians, they refused to stand for Hearst when it came time to line up the delegations for the convention. The Bohemian wards of Chicago went strongly against Hearst, I doubt if there are people here ever thought of or knew anything about this. It is a fact, and probably Mr. Hearst knows it by this time."

GRIST FOR THE LAWYERS' MILL

Vast Amount of Business Piled Up in Courts at Home and Abroad.

There are 2,000,000 civil suits brought in this country every year. If the plaintiffs were different in every case, one in eight of the voting population could be said to be a litigant. As it is, the actual number of different litigants is not in excess of 800,000-400,000 plaintiffs and 400,000 defendants—which is 1 per cent of the total population of the country, now about 80,000,000. The number of lawsuits brought in a year in France is 300,000.

In Italy-Italians are much inclined to litigation—it is 1,400,000, and in Germany it is 3,000,000, a very much larger number, both actually and relatively, than the number in the United States. Civil actions of all kinds begun last year in Great Britain and Ireland numbered about 1,000,000, or one nearly every tenth male or female adult in the United Kingdom. In 1902 there was an increase of nearly 62,000 over the previous year, and 472,041 actions were heard out of 1,410,484 that were begun.

Of the number of appeal cases heard, one in every three was successful, against one in four or five, years ago. The total cost of British litigation in 1902 was placed at \$7,909,575.

The best measure of litigation is usually the number of laws or statutes, and not, contrary to general belief, the number of lawyers. In this country it is found generally to be the case that the largest amount of litigation does not originate among Americans, but among newcomers here, who appeal to the courts for the adjudication of matters of trifling account. In no other country in the world are there so many damage suits brought as there are in the United States.—New York Sun.

Negroes Kill White Boy.

HOLTON, Kan., July 18.—Three negroes, named Greenway, brothers, in attempting to hold up and rob Arthur Scott, a white boy, fatally wounded him, crushing his skull. They were caught after a chase and taken to Topeka for safe keeping. They will be brought back late today. A bitter feeling exists here and trouble may result.

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."—Mrs. M. E. HUGHSON, 347 East Ohio St., Chicago, Ill.

Mrs. Pinkham Tells How Ordinary Tasks Produce Displacement. Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, or Lynn, Mass. For her advice, send a few lines, and she will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Leah Stowell, 177 Wellington St., Kingston, Ont., writes: "DEAR MRS. PINKHAM:—You are indeed a godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony. I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating headaches, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

\$5000 FORFEIT if we cannot furnish the original letters and signatures of happy customers. Write to Mrs. Pinkham, 100 West Second St., Lynn, Mass.
