Checks Hydrant Rush.

Concerning the rush for water hydrants

Mayor Moores wrote as follows:

I return herewith without my approval documents passed by your honorable body at your last regular meeting July 12, 1904, numbered as follows: 5026, 2627, 2628, 2629, 2630, 2631 and 2632. These documents are ordinances provid-ing for the placing of fifty-five additional water hydrants and I veto them for the following reasons: Co., special egents.

water hydrants and I veto them for the following reasons: There is absolutely no money in the water fund to provide for this expenditure and no provision extents whereby a tax can be levied for the payment of these hydrants. It is simply out of all reason to pass ordi-nances creating a large expenditure of money with nothing in sight to meet the same. Owing to the stupidity and blunder Great Western park, Manning, Ia. EASY TO GET NEW SOLDIERS

Enlistments Come More Readily at Local Recruiting Station Than

Officers Expected. Twenty-five recruits have enlisted for the regular army at the local recruiting depot thus far during the month of July. The enlistments are unexpectedly heavy for this season of the year, when there seems to be abundant employment in the harvest fields and elsewhere. The enlistments are invariably for the Philippine service and the applications are over to per cent in excess of the acceptances.

"I cannot say," said Sergeant Richards in charge of the recruiting depot, "that the prevailing strike has anything to do with the enlistments. However, we have had South Omnha pretty well placarded with advertisements for recruits and seem to be getting a few from there. Marriage is no bar to enlistment as a rule though
