DEFERRED FUTURES HOLD MUCH BETTER

Crop News Badly Mixed-Corn and Onts Stendy, but Very Quiet-Rain Hurts Nebraska Prospects-Gossip,

Judging from the action of the Chicago market the end of the July wheat deal is at hand. Belated longs were busy getting out, from the tap of the opening cell until late in the session, when there was a partial recovery. During the coseng days of last week quite a number of traders got on the long side and ston orders on these trades, as well as stop orders from shorts, put out Monday and Tuesday, furnished a large part of the seiling movement.

The news of the day, other than that furnished by Liverpool, was of a bearish tendency, although the crop experts are at variance in their estimates. A rumor that Russia had apolegized to England siso induced some liquidation. At the full receiving centers traders are looking for large receipts of new wheat. The heavy showers of the morning were quite general in Nebraska and later returns may show considerable damage to wheat and eats. With this exception the weather map was generally regarded as favorable. The deferred futures in wheat did not meet the serious decline as sustained in July, the bulk of trading being in September and December deliveries.

In the Omaha market the volume of business was light. There have been no deliveries of late on July contracts and much interest is expressed in the culmination of the option. The full extent of the short line is not known. Traders do not offer either cash or July wheat at all freely and the quotations are but little better than normal. Omaha prices, freight and other charges considered, offer better inducements to shippers of wheat than does Chicage.

A drop in the price from the 93c bid at the creating to give a contract without health.

inducements to shippers of wheat than does Chicagy.

A drep in the price from the 33c bid at the opening to 31%c and then without healtailon to 31c, and even at this figure the longs showed indifference about adding to their lines. There was practically nothing doing in September or December; prices in Chicago showed a loss of %c in the former. Nearby corn futures were off %gric elsewhere and December firm, but on our market there was literally nothing doing.
Outs were neglected and nominally % of a point lower. The July delivery here acted just as it did resterday—remained nominal until after 1 o'clock, when the tenders of trades ceased.

Notes from the Grain Market.

Ware & Leiand bought 180 cars July corn on Chicago exchange.

A King Fisher county, Oklahoma, farmer, says: "Wheat looks nne, but when you thresh it, yields only acout twenty-two busnels to the acre. Farmers just south of hors are getting tweive to fireen busnels to the acre while others are cutting their wheat for hay."

New wheat received at Chicago graded a car No. 2 red, 4 cars No. 3 red, 3 cars No. 4 red and 1 car no grade.

Grant Rinney of Kansas City and M. L. Vehon of Chicago were visitors on the exchange this morning.

Chicago estimates for tomorrow 160 cars wheat; 4 cars corn and 3 cars of cats.

Iowa state crop report shows last week as the best of the season for corn growth. Owing to poor quality of seed the stand is below last year.

Kansas City received 190 cars of wheat and four of corn.

Pork, lard and ribs are all lower in Chicago notwithstanding the strike.

Liverpool markets closed firm and fractionally higher.

Grain inspected into elevator at Omaha, one car No. 4 white oats.

Bartistt wires from Chicago: "I think soms money can be made by buying December and selling May curn."

St. Charles, Mo.—Wheat is threshing out ten to eighteen bushels to the acre.

Duitth reports eleven cars of wheat sold for export.

King, a crop expert, says: "Wheat dam-

Prices on Board of Trade.

CHICAGO, July 20.—New wheat arriving liberally and alleged decreasing likelihood of serious complications in foreign affairs caused heavy liquidation of wheat today. Final quotations on September options were for down. Corn is off 46%c. cats show a loss of 46%c and provisions 146%c.

At the opening of trading today sentiment in the wheat pit was buillish. Initial quotations on September were up 46%c at 884688%c. The cause for this feeling of strength were heavy rains during the night in lows. Nebraska. Kansas and indiana and a sharp advance at Liverpool in the face of the weakness here yesterday. Prices continued to decline until late in the day, when a reinstatement of lines sold out early caused a slight recovery. The low point on September was reached at 88%. Final figures were at 87687%c. July sold between 2009c and closed at 23%c. Clearances of wheat and flour were equality 180,000 bushels. Primary receipts were 379,900 bushels. compared with 487,400 a year ago. Minneapolis, Duluth and Chicago reported receipts of ill cars, against 20 cars last week and 174 a year ago.

In sympathy with the strength of wheat a firm feeling prevailed in the corn pit at the opening. The market lacked any definite support and became quite weak toward the end of the first hour. Crop advices were not very good, especially as to quality. After opening a shade lower to a shade higher at 33%c. September went down to 33%c and closed at 33%c. Uncertainty regarding the stock yards arrike, together with heavy receipts of hogs and lower prices at the yards, caused weakness in provisions. There was only a small trade, packers doing most of the selling. At the close the September pork was down 20c at \$12.70, lard was off 7%c at \$7.45.

Estimated receipts for tomorrow: Wheat, 16 cars; corn, 163 cars; oats, 116 cars; hogs, 11,000 head.

LONDON, July 30.—Money was in less demand in the market today and supplies were more abundant, while discounts were quoted at a fraction higher, with a somewhat easier foeling. Prices on the Stock exchange were flat, although they recovered well at the close. Home rails declined sharply on account of disappointing dividends and indifferent traffic returns. Atchison opened firm and reacted slightly on profit-taking and became irregular, hardened, became lower and closed strong. Foreigners were weak. Kaffirs were on the down strade. Imperial Japanese government is of 1904 were quoted at 94%. Builion to the Bank of England on belance today.

Omaha Money Market.

Conditions have not changed and the indications point to easy rates and ample funds for the next two months at least. Bankers are employing their funds as best they can, but are carrying too much idle money for their own good. The movement of grain toward the centers has now reached even moderate proportions and the country bankers will be able to care for the forwarding during the next sixty days. Quite a few jobbers are borrowing foreign eastern funds at rates below local asking prices, which still remain at 44465 per cent. New York exchange holds at a dollar a thousand premium. There isn't much call for foreign exchange nor are there many bills making.

Cattle Hogo Sheep. Omaha Packing Co.....

Total ..... 908 3,510 CATTLE—Receipts were not as heavy yesterday, but what there were in sight were all on sale, aside from five cars direct to packers. There seemed to be a good de-mand for desirable kinds of fat steers and

to packers. There seemed to be a good demand for desirable kinds of fat steers and the receipts were practically all disposed of in good season. There was one bunch good enough to bring Sasö. While the packers are all in snape to use a few cattle it would not take very many to swamp the market and it would be well for shippers to use great caution in making consignments at the present time.

Very few cows were in sight this morning. The stock that is suitable for the dressed beef trade sells all right, but it is a very poor time to market common cows or canners, as there is practically no demand for that kind. The same thing is true of buils—rat kinds sell all right, but camer buils are not wanted.

Very few gtockers or feeders are coming and as the country is not buying many very few are wanted. Speculators have a good many on hand and it would seem to be a good time for anyone wanting a fow loads to send in their orders.

Color Line at Manawa.

OMAHA, July 20.—To the Editor of The Bee: The lines which bring out the idea that the evil men do survives them are evidently true. The management of the Lake Manawa pavilion has decided that all colored people must be served, if served at all, in a certain "Jim Crow" section of the place. I believe the statutes of Iowa forbid any such discrimination, yet Mr. T. J. O'Brien sees flit to overlook the law in his case.

Perhaps Mr. O'Brien is justified so to do, still, in the light of reason, all fair-minded persons will see the injustice of such action. The great state of Iowa should not be ground for color restriction, neither should Omaha exhibit this sort of racs prejudice by one of its prominent citizens.
