No Mismanagement at Poor Farm. County Supervisor Henry C. Brandes was in the city last evening, having spent the day at the county poor farm investigating the alleged complaints of mismanagement, He said the complaints were greatly exaggerated and that everyhing was apparently running smoothly at the institution. Mr. Brandes said he questioned all of the county's charges and they without exception expressed themselves as fully satisfied with the food supplied them. From what Mr. Brandes learned the food supplied the inmates to precisely the same as that used by Superintendent Knox and his family.

Fourth Avenue Put In Condition by

the Horsemen. Through the efforts of A. M. Hutchinion, James McRobert and other local horsemen Council Bluffs will have in a

few days as fine a boulevard for driving as any city in the west. The portion of Fourth avenue between Twenty-third and Thirty-seventh streets, recently set aside by the city council by ordinance for a thirty-two calibre revolver this afternoon. coulevard or speedway, has been graded and leveled from Twenty-fifth to Thirtyfifth streets and is now in excellent condi-

tion for driving. Work will be commenced today on the wo blocks between Twenty-fifth and Twenty-third streets, but nothing will be done west of the avenue these two blocks of the thoroughfare are now occupied by gardens, street will be opened up and placed in the wife.

same condition as the rest. The driveway now is about fifty feet wide and almost as level as a billiard table. As, the soil is mainly "gumbo" it makes an excellent roadway and the rain has but little effect on it, providing it is given proper attention. Nearly \$300 has already been spent by private parties in improving the avenue and putting it in condition for a driveway and it is estimated that about sino more will be required to complete the blocks between Twenty-fifth and two Twenty-third streets. The city has been asked to put in a culvert at Twenty-third street and to open the avenue at Twentyfirst street and the committee on streets

and alleys has promised to do so. When entirely completed the driveway will be something over one and a half miles in length. At present the avenue offers a straight spin of something over a mile. Mr. Hutchinson and his associates desire

to formally open the new driveway Monday evening and all owners of driving horses are invited to take a spin down the speedway and test for themselves the exellent condition of the boulevard, The ordinance setting this portion of Fourth, avenue aside for a driveway pro- licket, explains itself:
