There was a general inquiry at the sectary's office this mornios for copies of a rules of the exchange, the matter of a face of 'yellow belly' wheat being uncomplete the rules of the exchange, the matter of the consideration. This was induced by a arrival of a car or two of wheat thus anded. According to the rules, deliveries futures must be of 'turkey wheat,' of this point caused considerable diseason and at the essent time no little easiness on the part of the shorts. Thicago wheat market values were soft diveraged hearly a point below yester-y for the July and also for the deferred tures. For once, however, Omning prices Pentures of the Trading and Closing Prices on Board of Trade.

CHICAGO, July B.—Free moverages of new grain was the principal factor in creating a weak wheat market here today. At the close the Beptember option showed a loss of lagre, Corn is down %c. Oats are off lagre. Provisions are up 18485c.

During the day there were one or two slight ralles on covering by shorts, but the general news was against higher prices. The low points on September was reached at 184418 fc. The market was inclined to drag throughout the day and the close was heavy, with September at 1846. Clear-annes of wheat and flour were equal to 115,500 bushels; primary receipts were \$00.860 bushels, compared with \$51,00 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 10 cars, against 122 cars last werk and 25 a year ago.

In sympathy with the break in wheat, there was influential selling of corn early, resulting in a moderate decline. September opened 1668c lower at 185405c, Local receipts were 25 cars, with 26 contract grade.

100 busisis sold early at 600, but to bid was no inducement for more ceipts were 3% cars, with 2% of contract grade.

Under the influence of the weakness of wheat, sentiment in the oats pit was a little easier, but there was enough local support to hold prices steady at a slight decline, but this was partly offset by the poor grading of arrivals. September opened Maric lower at Maristo, sold between 33% and 32c and closed at 37% (23%). Local receipts were 7 cars.

A little buying by shorts late in the session caused small advances in hog products, but for the greater part of the day trading was practicely at a standardil, owing to the strike. September pork closed with a min of 5c at \$12.52%. Lard was up 25,486c at \$5.22% (35.55), a gain of 22,495. Rihs closed at \$2.22% (35.55), a gain of 22,495. Early was up 25,486c, a gain of 22,495. Undertone Firm, but There is a Marked Hesitation in Prices. RUSSIA NO LONGER GROUND FOR ALARM Iron and Steel Stocks Only Securities Which Offer Any Burge Possibillisies in the Stook Biarker. NEW YORK, July 21.—A marked subsidence of speculative interest was observed in today's market, partly attributable to the short session and the rush from the city for the end of the week heliday. But the limit to the present active movement was pretty dearly shown by the duliness yesterday. There was the same hestation of prices today, but the undertone was firm and there was little pressure to sell, simply a cessation of the recent inree buying in different quarters of the list. The settlement of the Russian satures in the settlement of the Russian satures in the settlement of the Russian satures. It is probable, however, that some repressive effect is still felt from the sudden possibilities of troubte developed by the incident. The only feature in today's market was the special firmness of iron and stool stocks. United States Steel proferred added is to its week's gain, and the stocks of the independent companies made some sharp advances.

The stock market has onen very irregulaits week's gain, and the stocks of the independent companies made some sharp advaines.

The stock market has been very irregular throughout the week and its occasional
strength has been manifested in a very
spotty manner. The impression made upon
speculative sentiment, however, has been to
increase comidence in the underlying
strength. Frofessional operators have held
to an opinion that a normal reaction after
the considerable rise in prices was overdue and the attitude townrds the market
has been one of constant suspicion. While
the week's market has shown many signs
of instability and prices have wavered constantly, the movement was as constantly
stopped short of a precipilated decline. The
effect mas been to impress sentiment with
the strength of the forces behind the market and to encourage hopes of an aurly
redemption of the advance. The small effect produced upon prices by happenings
which seem to have a positive bearing
against values has the same encouraging
effect. The most notable features of the
present rise in prices hus been the indifference towards news developments,
At the meeting of the Northern Securities
directors the uncercanonious returns to even
consider a concillatory proposition looking
to a settlement of the dispute between
stockholders out of court gave strong
ground for an assumption that the issuejoined between the two parties for the
control of Northern Pacific, and of the
northwestern railroad situation can only
be settled by the stuccess of one or the
other party. There is no question in Amertean financial affairs which has caused so
much dread and anxiety as this. Yet this
week's incident had a stimulating effect
rather than otherwise upon the market.

There has been occasional healtztion manfest in the bond market, but the tone has
been good. United States bonds are unchanged on call from last week.

CONDITION OF OMAHA'S TRADE

Country Buyers Beginning to Come in After Fall Stocks.

VOLUME OF SALES REPORTED LARGER

But Wenther Causes Freer Movement in Some Special Lines-Crop Procpeats Generally Encourage Ing to the Trade.

Complaints of dull times are always heard at this season of the year-in fact, it would be regarded as something entirely out of the usual course of events if there should be a consistent of such complaints during the midsummer season. July is always a dull month, but the weather this year has brought about some changes in the regular routine of trade.

The cool and wet weather during the early portion of the season, which kept back the corn crop, at first bindering the planting and later retarding the growth, served to make the country retail marchants very cautious about ordering fall and winter stocks of goods. The tendency among them was to delay placing orders until they knew more about the outcome of the corn crop, which will govern the consuming domaind for merchandise this fall and winter. Hence the jebbing trade has seened a little dull during the last few weeks. Now that the opinion appears to be general that there will be a good corn crop in this section of the state, country merchants are losseing up a little and are heginning to buy more freshy. During last week more country merchants were noted in the city and more are exlie: catfish, Me; black bass, 20c; hallbut, be; crapples, Me; roe shad, M. buffalo, 50; white base, Re; frog legs, per dos, 35c.

THREE SMOT OVER A WOMAN

THREE SHOT OVER A WOMAN Alleged Insuit Causes Boath of One Man and Injury to Two

Others. NEW YORK, July 28,-One man is dead, another may die and a third man has a slight bullet wound as a result of a row over a woman in Third avenue today. Herman Miller. Ill years old, who is under arrest, according to the police, has confessed that he shot the men to avenge an insult to his companion, Mary Whalen, who is held by the police as a witness The dead man is John Martin, 20 years of age, a driver. Dennis Healy, 20 years old, a blacksmith, and Fran printer, who were wounded, are at a hospital. All the parties to the affair were residents of the upper east side.

According to the story told the police by those who had part in the encounter. the Whalen woman encountered Martin, Healy, O'Brien and a man named Kempsey near One Hundred and Ninth street today, and after passing a few words with them Miller appeared suddenly from across the street and began firing with a revolver. Three of the four men fell. Miller then fled and was found some time later
