

THE OMAHA DAILY BEE. PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday), One Year, \$3.00. Daily Bee and Sunday, One Year, \$3.50.

BUSINESS CONFIDENCE.

The former secretary of the treasury, Mr. Lyman J. Gage, who is now at the head of one of the largest financial institutions of the country and in close touch with business sentiment, is quoted as saying that "the faith of our business men in the general good sense and patriotic spirit of the people, regardless of their party affiliations, saves us from ruinous pessimism."

The New York Commercial remarks that the money-standard issue having disappeared entirely, business confidence has been restored to a degree that nobody dreamed of as possible six months ago.

THE CHAMBERLAIN TARIFF.

The commission selected by Mr. Joseph Chamberlain to formulate a tariff plan for Great Britain has made a report on the iron and steel trades, its conclusion being that the decline of the industry is due to the fact that the manufacturers of America and Germany have secured control of the home markets by means of high tariffs and an organized system regulating their export trade.

THE AMERICAN POSITION.

The Pacific Mail Steamship company has asked the Department of State for an official definition of contraband of war, so that ships of the company, plying between San Francisco and Oriental ports, might look for the most insistent protection of the government in the event of their being overhauled by the Russian cruisers of the Vladivostok squadron and the seizure of any of their goods.

THE FERTILITY OF THE BIG.

The gentle art of fascinating the easy-going investor by means of the stock market is a pretty generally known, but some phases of the swindles are brought under the searchlight by "Jasper," financial editor of Leslie's Weekly. The writer says: A well-known investor in commenting bitterly not long ago on the manner in which the Steel trust was exploited to the serious injury of thousands and tens of thousands of innocent investors and speculators, denounced the whole affair as a startling example of what he called "The fertility of the big."

WHILE THE STRIKE IS ON.

Baltimore American: The hot weather seems to be rather trying the fat out of the meat market, so far as the consumers are concerned. Baltimore Sun: Physicians now assert that meat eating causes appendicitis. At present prices it is also likely to cause atrophy of the pocketbook.

IT IS A MATTER OF HEALTH.

ROYAL BAKING POWDER. ABSOLUTELY PURE. THERE IS NO SUBSTITUTE. PERSONAL AND OTHERWISE. If Henry Gassaway Davis lived in Japan he might easily be elected to be one of the elder statesmen.

Table with 4 columns: Circulation statistics for various days and months, including totals and percentages.

The United States recognizes the right of a belligerent to search neutral ships that are bound for the country of its enemy. It does not concede that foodstuffs are contraband of war unless their destination is clearly and unmistakably to a port of one of the belligerents, or obviously intended to reach one of the parties to a war.

If the Vladivostok squadron is to operate in the Pacific, as is thought probable, the United States may become involved in the issue that Russia has raised in regard to the search and seizure of neutral vessels. In that event our government will undoubtedly insist upon the position it has uniformly maintained respecting contraband of war and which differs in very important respects from the Russian view.

CONSOLATION FOR MEAT EATERS.

The impending meat famine that is expected to follow in the wake of the meat packers' strike very naturally attracts attention to the substitutes that will appear the most appetizing and at the same time prevent a slump in muscle and brain force among the people of America.

According to the best British beef-eating authorities, meat is not essential to bodily or mental vigor. The Japanese never eat meat and in the tropics the ordinary kind of manual labor is performed on a diet consisting mainly of rice and bananas.

THE APPEARANCE OF A PORTRAIT.

The appearance of a portrait of ex-Chief of Police Seavey in a paid-for frame on the front page of a local weekly would indicate that that aged veteran is again looking for something to drop in his direction in the vicinity of police headquarters.

ONE POPULAR STRIKE.

The strike of the public in refusing to buy meat at the high prices unnecessarily charged in Boston seems to be succeeding.

WHAT IT MEANS.

Answer to Inquirer: The word "delenda est" in the quotation, "machina delenda est" means, freely translated, "all about to pieces."

MILK IN THE COCONUT.

Now the dairy interests must prepare to fight the coconut. A German chemist has found a way of making the finest kind of butter from the nuts.

DIVIDING THE CHURCH VOTE.

The church vote may still be considered divided. Judge Parker passes the contribution lists every Sunday, and Theodore Roosevelt, Jr., has taken charge of a Sunday school class at Oyster Bay.

DISADVANTAGES OF CONCENTRATION.

It might not be possible in such a country as the United States for a lot of dissatisfied laborers in Chicago to make the entire country go hungry. Concentration and specialization have their advantages, but it is at times like the present that the people perceive most vividly their disadvantages also, and that is a fact that ought to make both strikers and packers conciliatory in their attitude.

AMERICAN FRUIT INDUSTRY.

The development of the fruit industry in the United States is one of the pleasing results of the protective tariff. In 1860 the value of fruit exports was \$1,000,000, and in 1900 it was \$100,000,000.

THE PERIL OF THE BIG.

The gentle art of fascinating the easy-going investor by means of the stock market is a pretty generally known, but some phases of the swindles are brought under the searchlight by "Jasper," financial editor of Leslie's Weekly. The writer says: A well-known investor in commenting bitterly not long ago on the manner in which the Steel trust was exploited to the serious injury of thousands and tens of thousands of innocent investors and speculators, denounced the whole affair as a startling example of what he called "The fertility of the big."

ROYAL BAKING POWDER. ABSOLUTELY PURE. THERE IS NO SUBSTITUTE. PERSONAL AND OTHERWISE. If Henry Gassaway Davis lived in Japan he might easily be elected to be one of the elder statesmen.

PERSONAL AND OTHERWISE.

If Henry Gassaway Davis lived in Japan he might easily be elected to be one of the elder statesmen. Senator Fairbanks, candidate for vice president on the republican ticket, has no more devoted admirer than Mrs. Dorothy Cole, his mother-in-law.

JUST IN JEST.

Widow Winkles—Yes, Henry died quite reconciled. I was at his bedside until the last moment. Dumbly meaning to be complimentary—Ah! that accounts for it.—Boston Transcript.

WITH THE OPPOSITION.

Schuyler Free Lance: There is no need of Bryan trying to run for the United States senate in Nebraska. His inconsistent support of Parker fits him. All his ability and all his oratory will never explain it away.

THE OTHER FELLOW'S JOB.

There's a case among us mortals that is cruel hard to name. Wherever you find a human you will find the case the same. You may be the worst of men or seek among the best.

KEEP COOL.

Electric fans give you a constant cool breeze—a steady supply of fresh air—in the office, store or home.

Wolfe-Lovett Electrical Co. 1804 FARMAN ST. 604 FIRST AV. OMAHA, NEB.
