LEWIS CUTLER By Pennishin, Connect Mindle, "Phone St. CITY HAS A BUILDING BOOM

More Work Under Way Than at Any Time in Fifteen Keam.

LARGE PORTION OF IT IS RESIDENCES

Many Business and Public Buildings Are Also In Course of Construction or Have Already Been Completed.

Council Bluffs is enjoying a healthy building boom and real estate men and contractors may that the number of restsences in course of construction and already erected this year exceed anything in the last fifteen years. In every part of the city houses in course of construction can be seen and it is noticeable that the rines of dwellings how being srected in superior to that of former years.

The records in the office of the city clerk show that up to date building permits aggregating \$220,850 have been issued, although this does not by any means give The Dodge Light Guards are commanded an exact idea of the building now going to assemble at their armory this evening on as many contractors fall to comply not later than 5 o'clock to take part in the lindustrial parade.

> July (to 200)..... Total description

Council Bluffs is essentially a city of homes and the amount of building now in progress emphasises this. While the majority of residences being erected are of the class which cost from \$1,000 to \$2,000, there are many handsome dwellings costing all the way to \$5,800 being erected in different parts of the city.

Huny Business Buildings. In addition to the realdences springing up in every section of the city there are many business and other buildings in course of construction and there is no lack of employment for brinklayers and earpenters. In fact, contractors are experiencing more or less trouble in securing skilled workmen, owing to the large amount of building now going on. In the first place there is the Carnegie IIbrary building, which is to cost 200,000, now in course of construction. Then again there are the new buildings at the lows School for the Deaf, which when completed will gost in the neighborhood of \$150,000. The John Beno company is expending upyears John Librard. Was in the city wards of \$6,000 in remodeling its building esterday conferring with the leaders of the local despoorably regarding the solving of Pearl street and will expend about the solidity of establishing an evening demoatic pages in this city. The John Beno company to expending upon which was broken yesterday by Con-tractor Weaver. E. Children & Sons are spending upwards of \$5,000 in enlarging their factory on South avenue and the new elevator to be erected on Bouth avenue by Mr. Jaquith will cost upwards of

Drs. Cole and Jennings have recently completed a handsome brick office building on Pearl street and new Dr. Cole has let the contract for a \$4,000 residence. The handsome new dining hall and dormitory building at the Christian Home has been recently completed at an outlay of \$25,000, Anderson Brothers have greated two two story brick stores on West Broadway since the beginning of the year, and in fact, all over the city business buildings and residences are to be seen in the course of construction.

PERMIT TO MOVE TOWER LIGHTS Experiment WIII Be Made with Lamps Lower Down.

The city council last night granted the Electric Light company permission to remove the electric light tower at Fourth street and Broadway and the four lamps on it will be relocated by the committee on fire and light. This tower, which is 175 feet high, was erected in 1887. Becently the support of the four lamps at the from junifor and with sloping with a top became broken and for several weeks young woman from this city last spring. another set of lamps was hung from a in addition to the deures of diverse Mrs. position lower on the tower. It is contended that the lamps at the lower height gave more light, and it is not unlikely that the city council will now investigate the advisability of doing away with the rest of the light towers and distributing thafor the theft of thois and his wife mort- lamps. Business men and property owners guged their home to secure the bond for in the vicinity of the Fourth street tower

A communication was received from the for parts unknown with a roung woman South filds Improvement club asking that the Fifth ward he redistricted so that residents of that portion of the city could be given equal and equitable representation in the city council. The committee sending the communication suggested that the Fifth ward be changed by taking the Birst proclaint of said word and adding it to the First precinct of the Fourth ward and by adding the Second precinct of the Fourth ward to the Fifth ward. Hansen, C. Westey and Thomas limith comprise the committee from the South Side Improvement club having the matter in charge. The communication was ordered referred to the committee of the whole, John G. Woodward of the firm of Woodward & Co. was before the council with a request that the city compel the water works company to furnish it free with the

water necessary for a "sprinkler" fire protection system which it contemplated installing in its candy factory on Broadbeen unable to make satisfactory arrangements with the water works company and he believed that such water ought to be supplied him free of oust as was done under similar circumstances, he contended, in other large cities. The master was reforred to the committee on water works

and the city attorney. City Attorney Snyder was fustructed to draft an ordinance regulating the moving of houses and other buildings on the pub-He streets, the city being without such a

ATER OF CH An ordinance was introduced and passed contaiting the throwing of hitching weights, hear burrels, heavy boxes and other weighty articles on the addewatks, under a penalty of not less than H and not over \$100. This ordinance is dusigned to protect the new coment stdewalks in the leadness portions of the city.

J. M. Williams notified the council that his little daughter, Ruth, fall and broke her arm by recent of a defeative eldewalk on the east side of the Plerce street chool on May 20 and that the city would have to comburee him to the amount of Vic Lake Shove & Michigan Bouthern Ry, 250, this being the expense 40 which he had been put by reason of the abcldent. that the width of Pomona avenue betwien routes, including through New York, as

STRIKERS WARNED AGAINST VIOLENCE

Of an Army of Twenty-six Thousand Operatives, Only Three Thousand Hernen to Work and Mills Are All Cloved.

FALL RIVER, Mass. July E.—The first day of the strike of 28,000 cotton mill operatives here passed quietly. The mill owners and their operatives are determined in their positions and the outcome is hard to predict. With the strikers it is a question of how long they can do without their wages and exist on strike benefits. ST. PETERBURG, July E-(Special Out their wages and exist on strike benefits. Cablegram to The Bea.)—"Ruesia," said the minister of the interior, pausing as of new long they can afford to have their he spoke to pick his words, "is a demo- mills closed. The cotton and cloth markets are not at their best.

A portion of one mill was operated until noon today and at another some twenty and consented to place the position of man worked all day. When the rail sates impressions which have become popular of an army of some 26,000 operatives, reported for work.

The Bourne and Narragansett mills opened at the usual hour, but when the operatives came out at noon a large force erned by an autocrat for the peasant place of strikers was on hand and their argufollowing fiscal period the institution is certainly to be accounted democratic. ments were so effective that not enough should have a proportionate sum for the And then, monsieur, it appears not to be weavers returned to the Bourne works to remaining months or weeks. This dates known in England that in matters affecting operate the plant and the attempt to keep the mill running was abandoned at 2:39 this afternoon. Only a score of employes returned to the Narraganeett mills. These continued at work during the afternoon. The strike leaders repeatedly warned their followers throughout the day that violence must be avoided, and with a single exception, unimportant in itself, the advice was heeded. There was little in the mill sections to indicate that the breadwinners of thousands of families were engaged in a strumple periain to be accompanied with hardships and privation for many.

Neither the officers of the Textile counc nor the; mill managers would make a formal statement tonight, the situation in their opinions showing little or no change since, morning.

Both sides admit this is the beginning of one of the most determined contests which Fall River has ever seen. The manufacturers maintain they were compelled to reduce wages to save their business, while the operatives may conditions affecting cotton manufacture here did not warrant such n. reduction.

All the Year Around Offices

## some offices are hot in summer and cold in winter. Offices that are slways warm in winter and cool in summer are in The Bee Building. That is because the building was built by an architect who kept these matters in mind and because the building is situated so that there is no west sen beating down upon it and there is plenty of air on all shies, and through the court on the inside. We have a few very desirable offices at very reasonable prices. Let us show them to you. R. C. PETERS & CO., Ground Floor,
