Rev. H. W. Starr Delivers First of Series of Sermons on the Topic.

EVERY MAN SHOULD ADD TO WORLD'S STORE

Those Who Have Not Are Simply Chaff or Cumberers of the Earth and Fail Utterly in This

Mission. Speaking to the "Duty and Dignity of Honest Labor," Rev. H. W. Starr began a series of three sermons on labor topfes

at St. Paul's Episcopal church. Mr. Starr referred to the prevailing labor troubles among miners and meat packers as tend-ing to make the subject of labor a most timely one. Because every man is born with pressing physical needs of clothing, theiter and food, he must acquire means of supplying them. There are four ways, Mr. Starr's argument showed, to acquire them: By gift; by taking something of value without giving an equivalent in return, as a robber, thief or gambler; by taking them from nature's store; by honestly earning what we need by helping to supply the needs of others.

Mr. Starr said our government has made a mistake in raffling off its lands at Bonesteel, because it encourages the gambling spirit and he said he had no patience, either, with church raffles. Rev. Mr. Starr

Duty of Every Man.

Buty of Every Man.

The responsibility of every man is to give back to the world something of value in proportion to the gifts of physical health, intellectual vigor, strength of will and steadiness of purpose that he has received. It should be the ambition of every man to make the world better, to add something to its stock of material comforts, knowledge, culture, character. Everyone can contribute something. Every man who has failed to do that is but chaff without grain, a tree without either flower or fruit.

In all this world supplying the material and the spiritual needs of men, the hand and brain and heart must labor together. Only that man who makes no consecrated and unselfah use of hand or heart or head, that he may contribute something of material or spiritual value to the world, by the exercise of his muscle or his brain, has forfeited his right to his own respect and ours. He is no better than a robber or a thief, or at least a beggar and a parasite who lives upon the labor and capital, of the amployer and the employed, the consumer and the producer, a principle underlying all problems of labor and capital, of the amployer and the employed, the consumer and the producer, a principle which men have been slow to accept after it has been revealed by the Greatest Master of political economy, has been described by Lyman Abbott: "To destroy is not honorable, but to produce is; the giory of the nation lies not in its power to destroy, but in the quantity and the quality of its production; the glory of life lies in adding to the wealth of life—its material, intellectual and spiritual life. The highest glory of life is not to get, but to give; not to be ministered unto, but to serve. Only those who serve, live; those who serve most, live the highest and truest life.

Strike in Big Centers is Having Good Effect on the Independent Plants-Des Moines to Have Brewery.

(From a Staff Correspondent.)

DES MOINES, Aug. 7,-(Special.)-lows as better corn at this time of the year than on the corresponding date last year, nless the crop correspondents of the Iowa weather and crop service are much deceived. Last year for August 1 they reported that the crop was 73 per cent of full; this year they report 88 per cent. The reports are averaged from all parts of the state by Director Sage of the crop anticipated a few weeks ago. The rating is a little lower than for July 1, but still better than unofficial estimates had indicated. The percentages reported for August 1 of last year and this year as com-

pared are as follows: to take a referendum vote to nominate a congressional candidate on the 5th inst. As a whole the crop promises a greater

will be the only one in the state which will wheat conditions show a decline of 16 per not have a socialist nominee on the ticket cent since July 1 on account of rust and Travelers who have been out over the state recently aver that in the north part of the state, especially, the crops are looking fine and the warm weather of the latter part of July has been especially good for the corn. The potatoes that are being harvested are excellent in appearance and quality and for the first time in a long while Iowa will have potatoes to sell,

> G. A. R. to Boston. It is expected that about 200 Iowa persons will take advantage of the Grand Army excursion to Boston next week. There will be several "official" trains taken by different posts and by the department officials. Department Commander St. John and his aides will go, and practically all the delegates and alternates from the state, The Iowa Grand Army men say they have othing to ask of the national encampment this year and will not have a candidate to present for an office. They are united in favor of letting the constitution remain as it is and not to take in others so as to perpetuate the Grand Army of the Republic. All the leaders say they favor letting the Grand Army die out.

> Local Packers Happy. The strike in the packing houses at the large packing centers is reported to have been a great boon to the local packers at the three or four places in Iowa, where independent packing houses have been operated. At all these places the packing ouses have been operated to full capacity and they have reached out for trade into territory that has not before been open to them. It is believed that no new packing industry has been called into existence, it is certain that the independent packers in Iowa have done a large and profitable business the last six weeks.

> Will Establish Brewery. A movement to establish in Des Moines a while it is being bitterly opposed by the semperance element, it is believed the brewery will be established. There has never been any liquor making in Des years since there was any brewery in the city. But the business men generally now favor giving permission to a company to open a brewery and operate the same here.

Democrats Start Slow. The democrats have shown an inclination to go very slow in the matter of naming their candidates for congress. Only one has as yet been named in Iowa, but onventions have been called in the Becond. Fourth and Sixth districts. There is much doubt yet as to what will be done in the Sixth district, as many of the democrats desire very much to have General Weaver make the race, not only because of the hard fight it would make in that district but because it would help Judge Wade in the Second district and go fur toward offsetting the bad effect of Ae lefection of Chairman Maxwell, Judge Wade will be nominated for a second term next week.

Wright Will Go to Esopus. Sam S. Wright of Tipton will represent the Iowa democrats on the committee which goes to Esopus to notify Judge Parker of his nomination. Wright was selected by the delegation, but afterwards ome of them threatened to depose him because he had the effrontery at St. Louis to second the nomination of Parker on the floor of the convention. But this was not done. Some of the delegates insisted on a strong free silver man going on the committee, but none such would hardly dare show up at Esopus.

Traveled Veteran Gets Farm. Sergeant William J. Carney started from Des Moines yesterday for the Rosebud country to get his farm. He drew No: 313 in the land lottery. They are helping fight our battle, but do not know it. At the packing houses these scabs are kept in by gatling guns, clubs and revolvers. This is supposed to sureau. The showing is better than was be a free country, but when the scabs want to quit the packers will not permit them to do so. Why do the packers want to keep these scabs? Because they do the work? No. But to make us believe that our places have been filled. The average employer looks on a scab with about as much contempt as do us union men." Attention was called to the circular letter supposed to have been sent out to sales-

men by Chicago packers, and then the speaker declared that it was costing the packers \$500,000 a day to try and break organized labor. "But never again will they make you the slaves you used to be in the packing houses," declared Mr. Kidd. Speaks of Leaders' integrity. "You now have leaders or intelligence and a good organization," he continued.

"All that is needed to win is for you to stick together. I know of the attempt made by the packers to bribe President Donnelly, to bribe Vice President Sterling and other leaders, but the officers of your organsation are too upright, too honest to touch the fithy gold of the packers. "You men here do not need any encour

"When I get back to Chicago the packers will say to me that I have been to South Omaha stirring up discontent. will tell them that I have. I propose stirring up intelligent discontent so long as the conditions of the laboring men are not bettered. I will preach discontent until the Armours and the Swifts pay wages so that women will not be compelled to sell their virtue in order to exist."

In concluding his remarks Mr. Kidd stated that he expected a conference would be called in Chicago this week. The packers, he declared, are talking no conference for the purpose of throwing the men off the track and to make a break in the ranks

Both Mr. Kidd and Mr. Vail spoke at Franck's hall later in the afternoon. At this meeting Mr. Vail urged the men to remain peaceable and quiet and avoid violence; to respect the deputies and the police, otherwise the militia would be called and that would mean additional protection for the packers. Mr. Kidd's address was along the same lines, as the one delivered at Workman temple. One Brenker in Assaulted.

With the exception of one assault day passed off very quietly in South Omaha. About 9 o'clock Sunday forenoon John Delany, employed at Cudahy's, was set upon by James Murphy and Henry Dray and badly beaten and kicked. Delany large brewery is now well under way and is about 50 years of age and is feeble. He was taken to the South Omaha hospital, where he was resting easily last night. was compelled to stay in jail. Two shipments of outside men reached the city yesterday. The first railroad car arrived in the forenoon and contained thirty-four men for the Omaha Packing company. At 6 o'clock fast night Cudahy got in fifty men, mostly whites. Regular and special police guarded these cars through the yards to their destination. Frank Skrupa was compelled to close his saloon at Thirty-third and L streets yesterday for violating the midnight closing

police officer for carrying concealed weapons. Deputy Sheriff Sam Harris was not on duty last night, but was severely beaten by two unidentified negroes, who set upon him while in Adam Sloop's saloon about 10 o'cleck. The negroes made their escape. A cigarmaker named Christiansen got into an argument with a striker and was struck in the face, but not seriously hurt.

Quiet prevailed at the packing houses yesterday, the only incidents being the arrival of the new men mentioned.

Strikers Throng Armourdale. KANSAS CITY, Aug. 7 .- Strikers thronged Armourdale today, but there was no disorder of a serious nature. The strikers were wrought up over the shooting last night of three men by a negro strike breaker, but the labor leaders were active in their efforts to prevent an outbreak, and their influence was effective. Two nonunion men were arrested for carrying concealed weapons. Agents of the packers were at work today among the strikers and the packers assert that many of the men will return to work tomorrow.

Several shots were fired during a clash between strikers and strike breakers at Armourdale tonight, but no one was injured. A number of strike breakers were being taken into the Cudahy plant through the cattle chutes, when a crowd of strikers attempted to intercept them and shooting followed. It is not known who did the shooting and no arrests were made. Two carloads of strike breakers were brought in from northern Kansas and southern Missouri today. Strikers met them at the depot and induced fifty to desert.
