GEORGE FOURCLOUD IN OMAHA PRISON

Indian is Described as Violent In-
sults Who Survived Drunken
Orgy Which Killed Nine of
His Associates.

Deputy United States Marshal Sides returned from Pender yesterday, bringing with him George Fourcloud, the Indian charged with killing Cora Elk, an Indian girl, both being of the Winnebago tribe. Fourcloud was given a preliminary hearing before United States Commissioner Sloan Tuesday night and was committed to the Douglas county jail to await the action of the federal grand jury.

"The arrest of George Fourcloud for the alleged killing of Cora Elk, one of his tribeswomen," said a federal officer at the United States marshal's office, "recalls the fact that George, while a good Indian when sober, is a bad man when drunk. He can get outside of more alcohol than any man on the Winnebago reservation. He was, I believe, in the big toot that the Indians had up there some twelve years ago, in which George Crowell figured. The Indians were having a two-weeks' powwow and among the refreshments served there were nine barrels of hard cider. Through some means the Indians got hold of several gallons of alcohol and it was mixed into the cider, giving it a twang that was especially dear to the Indian's heart.

Kills Nine Indians.
"Well, the result was that several of the Indians got an overdose of the stuff and nine of them died from the effects of too much indulgence in the mixture. It is generally believed the liquid was wood alcohol. These nine Indians became horribly bloated and actually burst from the accumulation of the poison in their systems. Probably all of them could have been saved had a surgeon been on hand at the time to tap them, but as there was no surgeon about, the nine Indians went to the happy hunting grounds without being investigated for appendicitis. Yes, George Fourcloud was at that powwow, but the fact that he is here now is an evidence that he did not get a whack at the 'stone fence,' as the compound of cider and alcohol was termed. Yes, it just took a barrel of the Indian. Crowell was arrested as a party to the sale of the liquor and I think the case was tried before Judge Dundy, but nothing could be proven against him, as the principal witnesses were under six feet of Winnebago reservation soil."

MAN WHO IS ROBBED TALKS

Denver Golfer Gives His Version of
Affair by Which He Lost
Money.

DENVER, Aug. 8.—To the Editor of The Bee: Under the heading, "Denver Man an Easy Victim," in your issue of today, are a number of misstatements. In fact, nothing is true except that I was robbed. Neither I nor any of the well known Omaha gentlemen with me were warned of the presence of crooks on the train, and as the Pullman conductor was warned at Minneapolis by a detective, we feel that we should have been put on our guard. I informed the police definitely just what and how the robbery took place, namely, as we were getting off the car, when the toughs made an ugly rush in the narrow exit way, in full view of the conductor and porter. As the men were known at Minneapolis and to the crew of the car, it ought not to be very difficult for your excellent police force to trace them. I offered \$300 for recovery of the bills. The thieves also took a railway ticket (Union Pacific) to Denver, issued at Minneapolis.

All the other details about my counting the money, etc., are absolutely without foundation. I trust to your sense of fairness to make some correction in your next issue, as one naturally does not care to lose the money and be written down a fool as well, and have it copied into the Denver papers.

NOVEL MEANS OF ENTERING

Thieves Simply Throw Brick Through
Window and Take What
They Want.

In this rapid day and generation even thieves move along lines of least resistance and exhibit some originality now and then, so thinks Harry Gross of 818 North Sixteenth street. When Mr. Gross opened his pawnshop as usual Tuesday morning he found a brick on the floor, a large window broken and two revolvers missing. Evidently thieves had gained entrance by throwing a brick through a window.

P. R.—Mr. Gross says the brick was not gold.

"THE OLD SCRATCH."

How the Evil One Came to Be Popu-
larly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it no worse than the evil one. A soap full of sandpaper keeps one scratching all the time; not only disagreeable, but combed very inelegant in polite society—as it should be—because one ought to keep the scalp so clean that it would not itch. To cure the scalp of sandpaper effectively use Newberry's Herpesol. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpesol also is a very delightful and effective hair dressing. Sold by leading druggists. Send 3c in stamps for sample to The Herpesol Co., Detroit, Mich. Sherman & McConnell Drug Co., special agents.

Assault and Battery.

A charge of assault and battery has been filed against one of the men of 223 North Eighteenth street in police court. When arrested Monday afternoon by Officer Dwyer in "bad case" of drunkenness, he was charged with assaulting Anna Nelson, the 17-year-old daughter of Mrs. Nelson, of the North Sixteenth street. Nelson's hearing has been set for August 17 in police court.

ROCK ISLAND OFFERS HOPE
Promises to Take Lead Against Advance in Coal Rates.

OMAHA MEN GO TO CHICAGO MEETING
All Declare They Will Do What Is Possible to Give This City Fair Chance with Others in Valley.

D. O. Ives, general freight agent of the R. & M., J. O. Phillips, assistant general freight agent of the Missouri Pacific; J. E. Utt, general agent of the Rock Island, and J. A. Kuhn, assistant general freight and passenger agent of the Nebraska and Wyoming division of the Northwestern, have gone to Chicago to confer with officials of their various lines concerning the soft coal rate situation with relation to Omaha.

It is believed by local merchants and coal dealers that the meeting will result in a reduction of the unfair rates which were adopted by the Chicago office of the Wabash in the advance Tuesday when it was learned that the Wabash was quoting the old rate of \$1.80 per ton on slack into Omaha from the Kansas and Missouri fields. The Chicago offices were immediately appealed to find out why the Wabash was not in line to maintain the new rate of \$1.44 from the Kansas and Missouri fields. After much wringing and worry it was discovered the new tariffs had been issued by the Wabash, but that for some reason they had failed to reach the Omaha offices of the company, and as no official notice had been given local officials of the Wabash that the rate had been advanced the only thing they could do was to quote the old rate, which they were doing much to the detriment of competing lines. It is understood now, however, that matters have been adjusted and the local offices of the Wabash have been notified to quote a rate of \$1.44, which is the same as that announced by other lines.

Rock Island Against Advance.
A report was in circulation this morning that the Rock Island will take a strong stand in the meeting against the advance in the rates and that it will do everything possible to secure a reduction to the old basis before the meeting adjourns. It is urged that J. E. Utt, general agent of the company, fully understands the serious condition in which this city has been left by the arbitrary action of the line, and that through the impetuosity of his friends in the mercantile business here he has been prevailed upon to go into the meeting, determined to see that Omaha secures fair treatment, if such a thing is possible. In fact, it is said, there is not an Omaha representative of a railroad present at the meeting but who will use his best endeavors to secure a return to the old tariff which governed on coal shipments previous to the advance.

Railway Notes and Personnel.
D. O. Clark, general superintendent of the Union Pacific Coal company, left for Chicago last night.

J. E. Wylie, general traveling passenger agent of the Burlington, is in the city. Mr. Dewitt lives in Chicago.

As anticipated Tuesday, a rate war is on in the east over the Grand Army of the Republic railway which is heading southward. Several of the local offices received notice this morning to reduce the rate of \$2.50, which has been in effect for the occasion, to \$2.10. This rate applies from the Missouri river through to Boston, where the Grand Army is to be held. Several of the local offices had a large number of tickets sold under the old rate.

Mortality Statistics.
The following births and deaths have been reported to the Board of Health during the twenty-four hours ending at noon Wednesday:
