Populist Platform.

We endorse the national platform as adopted at Springfield, Ill., July & 1604 and pleage our allegiance to the candidates there nominated.

We demand the repeal of the present revenue law passed by the last republican legislature and the enactment of a law that will place the burden of taxation where it belongs, so that corporations as well as individuals, and tich as well as poor, shall each pay taxes according to the amount of property owned, and we pleage our candidates to work for such a law.

We arraign the republican party of this state for its extravagance and for the increase of public expenditures since it came into power, and point to the fact that the republican administration has greatly increased the burden of taxation, as shown by the officials, as follows: The last fusion legislature appropriated \$2,35,582 and the last republican legislature appropriated \$3,76,280. The late fusion administration reduced the state debt \$677,083 in four years, while in three years of republican administration the state debt has been increased \$35,722. We hereby pledge our candidates to a policy of strict economy in public expenditures.

We demand that the next legislature shall enact a law which shall effectually insure to all persons, associations and corporations equal shipping and elevator site privileges on all railroads in this state.

We demand that steps shall be taken to revise the operation of the maximum freight law by suitable proceedings in court if that can be done, or in lieu thereof that legislation shall be concred to regulate and reduce the prevailing high freight rates.

Anti-Fusionists Walk Out. Porter's resolution gave the democrats the lieutenant governor, secretary of state

and attorney general. Right here a half dozen anti-fuffion delegates got up and walked out of the convention, one of them, Bennet Travis, pro-

BRYAN ADDRESSES DEMOCRATS tion of fusion and then the nomination of Urges Fusion on State and Legislative

Tickets. (From a Staff Correspondent.) LINCOLN, Aug. 10,-(Special,)- Nebraska lemocrats were unable to regist /Thomas El. Watson this afternoon, const quently Chairman Hail of the democratic state committee, and W. H. Thompson foamed around the almost vacant Aphitorium for an hour and a half before it sufficient number of delegates arrived to make a convention. At o'clock he mounted the platform and knocked for order, two hours after the time fixed for the meeting, and even then only a corporal's guard was present.

It was I o'clock before the democratic eaders found they could hold no conven tion while Mr. Watson was talking, and changed the date for an hour later. Dr. Hall announced that a new state committee would be selected at this convention and asked that the delegations have the names of the committeemen ready to report at the conclusion of the nomina-

tions of state officers. After the call had been read by Secre tory Phillips, Chairman Hall introduced George L. Loomis, the temporary chairas an old "war horse" brought forth some the success of his aponsors would not prefollows:

follows:

Gentlamen of the Convention: As representatives of the great party to which you belong, you are here for the purpose of placing in nomination candidates for the executive state officer, to be voted for, and, we hope, elected in November hast. It remains for you to do your work so well as to inspire the democracy of Nebraska with new seal and enthusiasm, as that they will go into the campaign now before us with a full determination to rescue the government of this state from the party that now holds and sishnonors it.

from the party that now holds and sla-honors it.

We are here as democrats, in the broad-est and truest sense of the word. Not as representatives of any particular brand of democracy, or shade of democratic belief; not as so-called gold democratic or silver democrats; not as high tariff or low tariff or free trade democrats; not as labor union or seab democrats, but simply and only as democrats, without any words of classification, separation or limitation.

We are here becaus, we believe in those externs before, nepular government, when exises of fire, normal government, which may lucity on called the political bill of rights, so furnishly stated by Jefferson a

century ago, to detend and perpetuate which our party was organized, and which have ever since remained the cardinal principles of democratic faith. They are the essentials of democraty. We expect all democrats to believe in them, but we don't expect them all to think alike on all questions of public pelicy or party expediency.

don't expect them all to think alike on all questions of public pelicy or party expediency.

We concede to every democrat the right always and searywhere, to do his own thinking and form his own conclusions, and we ask only that he think intelligently and ask honestly. We do not require our members to take their political opinions ready made or second-hand. Democratic convictions are not bargain counter goods. We prefer that our members he intelligent, independent voters; causing an honest ballot, father than mere voting machines operated by someone else.

And so we say to all men who believe in those cardinal principles of democracy, so essential to the stability of our government, the perpetuity of her free institutions, and the protection of individual rights, come with us. There is room in the old party for us all. We'll not quarrel over the past; we'll not ask whether you believe in a sold standard or a sliver standard, or in bimetatism, in greenbacks or national duriency or both; in high tariff or low tariff, free trade or protection, or just what, shade of fariff duty or percentage of protection you think is right. We'll not ask whether you mix your drinks or take them straight or don't take them at all; so long as you believe in the essentials of democracy, you have a democratic right to think as you please on the non-essentials. We've no time to quarrel among ourselves. We can use all our fighting energy to better advantage on the common enemy; and after we have disposed of him we will have no trouble in settling our own little difficulties among ourselves.

Tribute to Bryan.

Bince you last met in state convention the democratic party has held its national convention. There our representatives came together to discuss matters or great party interest and public concern; and they did discuss them. There were the great men of the east, and the south and the west. There, too, was that man of matchless courage, that intellectual giant, that moral Gibraitar, that Niagara of elequence, that greatest of all gladiators that ever entered the political arena, the unconquered and unconquered knows that he was there. A great convention! Yes, the greatbrasks. All the world knows that he was there. A great convention! Yes, the greatest in the history of our country. A stormy one? Yes, for desiserats think, and they don't always think eilke, and when Greek meets Greek then comes the tug of war; when fint strikes flint the fire flies; but when the majority has once spoken their word becomes, for the time being, democratic law.

when fint strikes flint the fire flies; but when the majority has once spoken their word becomes, for the time being, democratic law.

Our convention adopted a platform on which all who profess to be democrats can unite; and it nominated as our candidate for president one of the brainlest and best men of our country. Because the years of his active life have mostly been passed in the halls of justice the general public has not known him for half what he is worth, but the legal profession has long recognized him as one of the ablest judges on any bench, and he will grow mightly in public esteem as the campaign progresses and the people come to know him better. On his private and public life there is not a stain and his judicial career commands the admiration of all men. With a democratic reversace, for the constitution of his country he will never be a party to its violation either in letter or in spirit. With a sincere love for our form of government and understanding clearly the rights and ilmitations of all of its branches, he will never, as president, invade the domain of congress and attempt to enact legislation by executive order. Belleving that honor and justice should characterize our national intercourse with other countries, he will not deem it necessary in our foreign relations to tread lightly and carry a club. Loving justice as the guiding staf of national action and believing that the principles of common honesty are as binding on nations as on individuals, he will not make a treaty intended for the protection of a weaker country an excuse for disrupting and despoiling it. Believing in the Jeffersonian doctrine of friendships for all nations, entangling alliance with none, he will not welcome occasions to become embrolled in the disputes of other countries whereby we may possibly be drawn into foreign war. Having a higher conception of national morality than that might makes right, he would as have his country command the respect and admiration of the world by force of example, rather than by force

Applause All for Bryan.

Mr. Loomis' reference to Mr. Bryan was received with wild applause, while his assertion that Judge Parker would grow in the estimation of the people as the campaign progressed was hardly noticed. Even when Judge Loomis rose to heights of oratory in his denunciation of the republican party, which he charged was responsible for the state debt; and later when he said Governor Peabody of Colorado had exercised the authority of the caur of Russia there was nothing doing.

W. H. Thompson moved that a committee of seven be appointed on resolutions, and these were appointed:

W. H. Thompson of Hall, R. L. Metcali of Douglas, J. J. Sullivan of Piatte, T. J. Doyle of Lancaster, L. J. Ludi of Saunders, L. S. Oberfelder of Cheyenne, Henry Ger-ng of Cam. This committee of five was appointed on order of business and to confer with the

A motion was then made to table the Howard resolution.

A delegate from Hitchcock county made a plea for the popullata' proposition and George West of York wanted to stay a week if necessary to name a democratic candidate for governor.
