Turkish Diplomat Assures a Speedy and Favorable Answer on the American Citizen's Hights.

WASHINGTON, Aug. 12.-Foreign affairs, to the practical exclusion of everything else, was considered at today's meeting of the cabinet. The Turkish situation was discussed at length and a line of action, in case Minister Leishman's efforts are unavailing, was agreed to, but its nature was not disclosed.

Secretary Hay also presented to the cabinet some important information cabled the State department by Minister Griscom at Tokio, confirming the reports of a great naval engagement off Port Arthur. It is said the discussion of the Japanese-Russian war was purely academic and not in any sense relative to the attitude of America toward either of the contending pow-

Leishman is Heard From.

After several days' slience, Minister Leishman has been heard from through a dispatch dated at Constantinople last night recounting the results of the exchanges between himself and the Foreign office officials there. The State department did not see fit to make public the minister's communication, but did make the general statement that negotiations had taken a more favorable turn and there was an expectation of a speedy and satisfactory ad-

justment. There is, however, a vagueness about the Turkish statements and promises that has caused the department, having in mind past experiences in the way of promises, to instruct Mr. Leishman to see to it that these propositions are reduced to such concrète form and are made in such a binding manner that there cannot be any question as to their fulfillment hereafter by the Turkish government.

It is confidently expected that the Turkish negotiators will accede to such a demand on the part of Mr. Leishman and it is predicted that the negotiations will be concluded successfully by Monday next,

PARKER MADE NO INTERPOLATION Judge Benies that He Made Changes

in Ris Speech. ESOPUS, N. Y., Aug. 11-Judge Parker made no interpolation on the gold standard in his speech of acceptance at the ceremonies which occurred at Resemount on Wednesday. His manuscript, as given in advance to the press, was followed to the letter insofar as reference was made to the gold standard telegram sent to the St. Louis convention. Bome Indignation is felt. at Rosemount, however, at what appears to Judge Parker to be an attempt to create the impression that he had written one speech for national consumption and delivered another for the beneat of those who were present to hear for themselves what the candidate had to ray,

Auspicious Event Announced with Much Acclaim and Mother and Son Reported to Be Doing Well.

ST. PETERSBURG, Aug. 11.-\$35 p. m .-A son and heir to the Russian throne has been born. The empress and the shild are doing well. The accouchement occurred at 12:30 p. m. The child will be christened Alexin,

queen of Greece, sister of the dowager empress, a great favorite with the Russians, and the other members of the mperial family assembled at Peterhof early last month and have been there ever since. Daily large crowds of people have also gathered at Peterhof, for it seemed as if all the nation was drawing near to the sovereign.

The people throughout Russia, notably the clergy, have been praying for an heir to the throne, and the Iamous Greek priest. Father John of Cronstadt, recently has been visiting the Alexandra villa at intervals to join in the prayers for an heir o the throne of Russia. Incidentally Father John, who is worshiped by the people and who has great influence over the emperor, is said to have stated to his majesty before his first daughter was born ters before he would have a son and that guide, Mrs. Fred Ihringer, Lincoln. the eighth child of the empress would be a son. This prophesy is firmly believed by the Russian people.

Salute of Guns.

The announcement from Peterhof was ollowed by a salute of 101 guns from the imperial yacht lying at anchor off the palace, but it was 2:45 p. m. when the guns of St. Peter and St. Paul fortress, opposite the winter palace here, conveyed the capital.

The effect was electrical. With the boom of the first gun the people in the streets, who had been momentarily expecting the event for twenty-four hours, stopped to listen and count the guns. Only thirtyone are fired for a girl. When the thirtysecond boomed and the people were aware that at last an helr to the throne was born, there were scenes of rejoicing everywhere, and before the salute was finished he whole city had blossomed out with flags and bunting and the shipping in the

harbor was dressed. Then the bells of the churches began to ring wildly. In the meantime the announcement had been telegraphed to the most remote cor ners of the empire. In all the towns and cities the glad tidings were spread with the clamor of bells and the booming of cannon. Thanksgiving services followed in all the churches.

At the chapel of Alexandra villa the emperor and the imperial family attended a Te Deum. The hearts of the Russian people are
