Bred Populiet Affair.

INDIGNANT AT BEING CALLED A BOLTER

Democratic Platform Goes Wrong in Its Plank on the Lincoln Monument Proposition-Payment Made for Cells.

(From a Staff Correspondent.) LINCOLN, Aug. 12 - (Special.)-The Independent, the populist organ, to be published this afternoon, will rub it into the already agre democrate by announcing: Although the action taken by the two conventions will go out to the world as a continuance of rusion, the fact is that it amounts to practically an endorsement of the populist state ticket by the democrats. There were no conference committees to agree upon a division of the state offices, as has been customary in the years gone by

In aumming up the conventions the Inde-

pendent will say:

Considerably more than one-third of the convention were opposed to any alliance with the democrats at all, believing that the slightest intination of joining hands with Farker democrats would have the result of losing thousands of votes to the populist ticket, but the inajority of the convention felt otherwise, and although a few delegates walked out and there was some talk of holding a boiting convention it is not likely that any such step will be taken. Owing to the fact that the Watson and Tibbles electors are entirely distinct and separate from the Farker electors, and owing to the further fact that the entire ticket nominated will go under the designation "people's independent" (official party name in Nebraska, and owing to the fact if he designs a populist voter may out the entire ticket, electors and state officers by making a cross in the people's independent party circle at the head of the ballot, it is not likely that a boiting ticket will be put up. There is the further deadvantage appurent upon such proposed action because of the fact that under the laws of Nebraska such a ticket must go on the ballot as "mid-read populist" or some such designation.

The result of the convention is not what The result of the convention is not what the Independent desired, but no hasty action should be taken at this time which might jeopardize the chances for poiling a large vote for the Watson and Tibbies electors.

Tibbles is Wrnthy. T. H. Tibbles is very wrathy at the stories of the populist bolt sent out from Lincoln accrediting him as the leader of the bolt. In his paper this afternoon he

will say this about the matter:

will say this about the matter:

It is perhaps the first time in the history of politics that a man who went before a budy of bolters, most of whom had repudiated a convention, who determined to put out a new ticket and get them to promise that they would go home, and immediately begin to organize clubs where every person admitted was to be pledged to "openly support the party's principles and candidate" was denounced in the papers as "leading a bolt."

The truth is that the editor of the Independent told everybody what would happen in the populist convention if the program was carried out which was advocated. And it did happen just as he said it would. If the plan had been adopted that the Independent had advocated there would now be harmony between the anti-Parker democrats, populists and republicans who repudiate the present administration. There would have been an enthusiastic campaign.

tration. There would have been an enthusiastic campaign.

The following is the resolution that Mr. Tibbles proposed and which was unanimously adopted:

"That the counties here assembled to take into consideration the action of the convention in endorsing fusion resolve that we appoint a committee of three members to take into consideration and devise a plan of organization; to be presented to the piecple of the state for straight populist clubs which are opposed to fusion, and to which no one would be admitted who would not openly support populistic principles and candidates."

Goes to Be Northeed.

Goes to Be Norfiled. T. H. Tibbles will leave next Monday for New York, where on August 18 he will be pprised of the fact that he has been norm; He will not carry his speech of acceptance ith him, for he believes that no newspaper man could write a speech; consequently his will be an off-hand affair. He will be located at Union Square hotel, Fourth avenue and First street.

Shooting at Wrong Mark. The plank in the democratic platform which bids for the old soldier vote, charging Governor Mickey with thwarting the erection of the Lincoln monument, for which purpose \$10,000 was appropriated by the late legislature, has occasioned some amusement to those who are familiar with the facts in the case. In the first place, money is not to be available until the city of Lincoln shall have raised \$19,000 for the same purpose. Nothing has been done by the city of Lincoln. In the second place, the bill was never signed by the speaker of the house nor the president of the senate. It was signed by Governor Mickey, however, on May 14.

There is a question whether the act is legal or not because it lacks the signatures of the two presiding officers, and to test the law John McClay of this city has brought suit in the supreme court against the Board of Public Lands and Buildings and Governor Mickey to set apart a spot on the state house grounds for its erection. Governor Mickey, however, showed his approval of the effort to honor the martyred president by signing the bill, Democratic Executive Committee.

Chairman T. S. Allen of the democratic state committee this afternoon named the following executive committee: H. T. Ward. of Tecumuch; Louis Platti, of Omaha; James R. Swain, of Greeley Center; R. S. Wahlquist, of Hastings; John C. Van Housen, of Schuyler, and U. J. Ludi, of Wahoe. The committee will be called together within a few days at Lincoln and a state headquarters selected. So far there are none of the hotel men here making a fight to secure the headquarters, and they may go a-begging.

Get Pay for Cells.

The VanDorn iron works of Cleveland secured \$27,610 from the state treasury this norning, the balance due on its contract for the new cells at the penitentiary. The warrant was bought by the treasurer, which, together with others bought during the day, reduced the amount of money in the permanent school fund from \$56,000 to \$11,000. The treasurer also cashed \$30,000 worth of warrants for payments on the university buildings.

Governor Mickey will go to Curtis in the morning to address a picnic given by a number of fraternal societies. He will be absent until the first of the week.

Y. M. C. A. to Buffd. The Young Men's Christian association this morning purchased two lots on the portheast corner of Thirteenth and P streets for \$8,000, and will at once erect a temporary brick building on one of the lots. The building will cost about \$2,500 and will be completed by the first of October. The association has three years in which to pay for the lots.

Assembly a Success. The Epworth assembly is over and most of the visitors have left the city. From a financial standpoint, as well as any other standpoint, the meeting was a success. The receipts amounted to about \$1,600, about the same as last year. The expenses this year, however, were much less, and there will be more money put in the treasury after the bills are paid than ever before. Yesterday Judge Wilbur F. Bryant addressed the assembly on the juvenile court

Effort to Save Barker. An effort will be made to prevent the execution of Frank Barker, the murderer of his brother and his sister-in-law, which is set to occur September 2 F. G. Hamer, one of his attorneys, was in Lincoln yesterday and stated that he was preparing a bill of exceptions and would appeal the case to the supreme court. He expects to secure a stay of execution from the court.
