WILD EXCITEMENT IN ALL GRAIN MARKETS

Chicago Putures Advance Four and One-Half to Five and Three-Eighth Conta Bushel-Gossip on Crups -Omaha's Fine Market.

There is every contemation of the multi-tude of discouraging reports that have some in from Minnesota and the Dakotas tegarding the damage to the wheat crop. The best possible confirmation, other than actual figures, is found in the course of this market. Prices seem never to get weary in the advancing dovement. There has not been a single good reaction since the advance startes. Today marked the senith in the present advance, but that it is the top of the market for the crop of the searchy probable. Further conhas hot been a single good reading since the advance startes. Today marked the santh in the present advance, but that it is the top of the market for the crop of the interpretation of the damage stories, more strains of the 'swan song' of the north-western wheat crop, will inject more strains of the 'swan song' of the north-western wheat crop, will inject more strains of the 'swan song' of the north-western wheat crop, will inject more strains for the 'swan song' of the north-western wheat crop, will inject more strains into many a trouble. Today again the price on 'calls' was reached, and with such a rush that it brought a great fermand for orders from these 'irregular' iraders to save themselves from serious loss. 'Put' sellers have been reaging a harvest, but the price is getting where they would do well to go slow. Chicage speculative traders were wild. They were in and out often, but generally the buying side was favored and there were any number of outside orders on the market.

In a wird, wheat, testing 8 pounds to the number, sold at it. Think of this, and the number what it means to Nephana No. I hard wheat, testing 8 pounds to the number, what it means to Nephana prices at which, and that affect in the state.

Berator men were urged to send in wheat for the high prices of a week ago, and the nighteen where the prices are very line and tenty in the properties of the morning were added to in a sensational way. The story of the Dakotas and Minachota the high prices of the morning were added to in a sensational way. The story of the Dakotas and Minachota the high prices of the morning were added to in a sensational way. The story of the Dakotas and Minachota the high prices of the then low temperature.

Shorts became panicky scared, sick, tired and disgusted with their position and bought and bought until September wheat there was a possibility of frost became of the then low temperature.

Shorts became panicky scared, sick, tired and disgusted with their position and bought and bought until September whe

Omaha futures were also much more interesting and increased in volume. The September delivery on wheat was bid up 5 points and December 4%. Omaha prices are relatively higher than Chicago on many grades of wheat and this market can today or tomorrow, or any other day, take care of several hundred cars of wheat it begins to look as if there might be very liberal arrivals in the near future. The prices are tempting enough and the bulsness in hele waiting for the arrivals. Many miliers are sending orders here duly and if the quality is right they will pay high.

The fails was done should for the corn crop, according to all gossip reports, and articles! Ones, Mish Low. (Close 1 Text)

The fair was not enough for the cornerop, according to all gossip reports, and this ceresi also advanced sharply. In Omaha the advance was %c on September and the on December. Chicago prices did not advance as heavily, but the range shows a good gain.

Oats also were firm. The Chicago and Omaha cash grain quotations to be found elsewhere in this column are interesting.

Omaha cash sales: 1 car No. 2 hard wheat, 80 lbs., \$1.00; \$ cars No. 3. \$6 lbs., \$70; 1 car No. 2. \$6 lbs., \$96; 1 car no grade, \$86 lbs., \$90; 1 car No. 2 hard wheat, \$1 lbs., \$20; 2 cars No. 4 hard wheat. \$1 lbs., \$20; 2 cars No. 4 hard wheat. \$1 lbs., \$20; 2 cars No. 2 cars. \$20; 2 cars No. 2 cars. \$20; 2 cars. \$20;

CRAIN AND PRODUCE MARKET

we are all interested, is badly hurt. He was slow in coming up, but has to give up. We have the following from Minne-agolis: "Have a sample of new whest here from Windowers, N. D., goes two busiles to the acce and is fair sample of crop there. Grade velected for northern Minnesota and North Dakota touight. General indications for more or less conditions. indications for more or less cloudings showers in most of this district ter in upper Mississippi valley and lake

Cooler in upper Mississippi valley and lake region.

The last government report issued on August 10 estimates that the three north-restern states. Minnesota, South and North Dakota, will have a crop of 194, 50,000 bushels of wheat, against a crop last year of 172,167,600 bushels. Some of the very best posted men in the northwest are wiring today predicting that the three states will not yield over 120,000,000 bushels. If this sould prove true the government will have to reduce its next estimate on the wheat crop. It is thought the government's next estimate will be about 54,000,000. This almost takes a man's breath away, but the reports that we are receiving from very conservative and well posted men indicate that these figures may not be far out of the way.

CHICAGO GRAIN AND PROVISIONS

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Clesing

Friess on Board of Trade.

CHICAGO, Aug. 17.—The wheat trade
was rust-mad today and bought as if a
famine, threatened the country. The stoptember delivery touched that at the chothe December option advanced Spile. The
close was under the top figures, snowing a
net advance for the nearer month of July
July and of 1974 for the deferred option. Corn closed strong to be advance
for September and be for December. September oats are up \$500. Fro tisions
varied from a shade to the higher.

September wheat opened Hagilac to 1983
Inc higher at \$1.60421.002. December was
up at the start layabe at \$1.60421.01. The
crop reports, but to start with, became
lamentable in their details of destruction
by rust of whole fields. In many localities
farmers were reported as engaged in burning the standing grain to clear the land.
From the Dakotas, Minnesota and Ontario
the mame reports came and traders appeared to seent famines. The buying furoset in in earnest. Only once, soon after
the opening, when a few long lines were
released, did the price go below the opening range. A mountentary dip carried September down to \$1.054 and December to
\$1.06. The rest of the trading appeared to
\$1.06. The rest of the trading appeared
to seen frantic scramble to buy. Not untill the high points, \$1.06 for September and
\$1.10 to December, were reached was there
any marked hall in the advance. At rop
prices in the last hour of trading scalpers
threw quantities of wheat on the market
and in the absorption of this prices lost
some of the advance september went
off to \$1.058, but soon railled, the close
showing the buying spirit again in the accentency. Final trades in this option were
at \$1.004, with the fone strong. December broke to \$1.000. Single at the dipseries of \$10 care, against 120 Peatures of the Trading and Clesius

NEW YORK STOCKS AND BONDS Orop Reports Exert an Influence Over the Stock Market.

STEEL ALSO CAUSE FOR APPREHENSION

Metropolitan Makes Some Feverish Breaks and Sugar Gives Evidence of Culmination of Seasonable Speculation.

NEW YORK, Aug. 17.—The news from the crop was an imittential factor in the atock market and the continued flood of damage rumors from the northwest about apring wheat was not regarded without anxiety. The iron and steel trade situation was another legitimate ground for apprehension over vature. The effect on atocks was more to paralyze the demand that to bring any severe pressure to bear on the market. There was no general liquidation in evidence and the bears were timed about attacking the market by short saies. The smypathetic weakjess at one or two points was also well resisted. The Metropolian atocks made some feverish breaks due to doubts on the part of speculative holders, because of the continued failure of the confirmation of the merger rumors which induced them to buy their stocks. Sugar gave evidence of a culmination of a seasonable speculation and of liquidation by beiated holders. The feeling in professional speculative rireles was in favor of some reaction on technical grounds, but still the yielding of the ganeral list was very moderate. The decline of 1% in Canadian Pacific on account of low temperatures for the wheat crop in Manitoba was an extreme movement.

The lowest price tor United States Steel preferred on the break in the price schedule for finished products was only half below last night. This was before the official admission of the cut in price of wire. As this is the event which the selling for some

early. The market on killers could be quoted about steady, at least on the inorth desirable grades. Some Nebraska wethers sold for \$2.50, and Idaho lambs brought \$5.00.

There were also a good many feeder buyers on hand and they took hold freely, and the market could safely be quoted active and steady. Some Utan feeder yearlings sold for \$3.50 and some from Wyoming brought \$3.55. It was very evident that the supply was not sufficient to met the requirements of the trade.

Quotations for grass sheep and lambs: Good to choice yearlings. \$3.503.50; sood to choice wethers. \$3.503.75; fair to good wethers. \$2.503.50; good to choice lambs. \$5.50\$ fair to good swes. \$2.753.25; good to choice lambs. \$5.50\$ feeder yearlings. \$3.353.50; feeder wethers, \$3.0003.25; localer ewes, \$2.0022.50; feeder lambs, \$5.50\$ feeder lambs, \$3.753.50; feeder lambs, \$3.753.50; feeder lambs, \$3.753.50.
