READY TO ORDER MACHINES

Oity and County Officials Decide to Buy Voting Devices.

WITNESS TEST OF BOTH PRODUCTS

One Agent Palls to Prove His Claims of Inferiority Regarding Rival Machine Which is Recommended.

After representatives of the Universal voting machine had made an unsuccessful attempt to "bent" the Standard voting mathine at the city hall, the joint committee representing the city councils of Omaha and South Omaha and the Board of County Commissioners decided to recommend the purchase of Standard voting machines. It took the committee only ten minutes to decide the question behind closed doors.

This afternoon a sub-committee com-

posed of Councilmen Hoye and Adkins and Commissioner Hofeldt will meet with S. C. Hamilton, the sales agent of the winning machine, and discuss prices and the number to be bought. The agent declares that sixty-eight machines will amply equip the county. His price, as first mentioned, is \$650 a machine.

Beside the committee, many city and county officers were in the city clerk's office to see Agents Bemis and Burrows of the Universal company try to prove the inferiority of the Standard. Burrows had declared before the committee that he could produce a man who could "beat" the rival machine and show it was not trustworthy. Hamilton challenged him to do Bemis, who sold Standard machines before they were merged with the United States machine and improved, came as the expert who would do the business.

Palls to Condemn Backine. Beyond showing the committee that if the machines were not properly adjusted before being sent out they would not work right, and that a possibility existed for a vote buyer to make certain of his purchase under favorable conditions, in the judgment of the committee the agents proved nothing injurious.

Bemis admitted he had done all he could to make the machine work wrong and had failed to "beat" it. He then proceeded to describe instances where, through some failure of election officers to do their duty, trouble had been had with the

To offset these Councilman Hoye had in his possession telegrams from authorities where the machine is in use. One from Mayor E. A. Knight of Buffalo read: "We have used the U. S. Standard voting machines for five years with great success. More satisfactory than paper ballots." C. J. Clark auditor of Indianapolis, wired on Farnam street and were going to trade that the city used the machine and were pocket knives "sight unseen," as the boys chines last year. We prefer them and are of each other's knife and the trade was gradually adopting them." Rosenbery Let Off, but Check Retained and Other Proposals Are Coming.

cation held yesterday it was decided to the low bidder, A. Rosenbery, has refused to perform the work for the reason that he made an error in his bid of \$2,500 for mill and stair work which he intended to include. The board says it is inclined to be lenient with Rosenbery, but will retain his check for \$700, filed as an evidence of good faith, until it sees what prices the readvertisement brings forth. In connection with the new bids the superintendent of buildings will be required to submit an

Several members of the board said prices lower than those received will be submitted at a special meeting to be held for the purpose next Monday night.

Upon the recommendation of the judiciary committee leases were ordered signed with the C. H. Hull-company for the Isard site. The annual rental is to be \$1,000 a year instead of \$800 as formerly, and the lease
