YOUNG HAIR

That means rich hair, heavy hair, no gray hair. Is yours thin, short, gray? Just remember, Ayer's Hair Vigor always restores color to gray hair, all the dark, rich color it had years ago. It stops falling of the hair, also. Has been tested for 50 years.

"About a year ago my hair nearly all came out. I thought I would try Ayer's Hair Vigor. I used only one bottle of it, and now my hair has come in thick and a little curly."—Mrs. Lizzie M. Smith, Saratoga, N. Y.

FROM OUR LETTER BOX

Strike Breakers and Guns.
OMAHA, Aug. 18.—To the Editor of The Bee: Referring to an article in last evening's Bee entitled, "Strike Breakers Are in Wo," in which an account was given of the arrests at the packing houses of late arrivals, charged with various crimes, including murder, my mind was forcibly called to a conversation between W. L. Selby and other prominent citizens of Dundee recently. Mr. Selby was asked in regard to the progress he was making toward filling the strikers' places at the South Omaha packing houses and he replied: "We are getting along very nicely. We are filling the strikers' places very rapidly. They are mostly negroes they carry guns, and they are not those little guns either. A nigger won't carry anything but a big gun, and these fellows will use them, too. They are the kind of people we want."

Here Mr. Selby was interrupted by the voice of the bystanders with the remark: "Yes, and they make d-d good citizens, too, don't they?"

This closed the conversation.

Where is the Civic Federation and the ministers and others who want the laws rigidly enforced? Do they confine their labors to an isolated case, and close their eyes when murderers, ravishers and other criminals are brought into this city, armed with "big guns," and men that "will use them, too"? Only a few days ago, while reading one of those newspaper columns, as I have been informed, murdered one of his fellows. I wonder if the Civic Federation knows about these things. If so, I would like to ask, through the columns of The Bee, if they approve the action, and if not, what, if any, steps they have taken to prevent the importation of criminals with "big guns."

I understand there is a law in this state forbidding private citizens carrying concealed guns of any kind, large or small, and if it is not good for law-abiding citizens to carry guns, why should criminals be brought in and permitted to violate the laws which citizens and taxpayers of this state are compelled to obey? C. A. FOSTER.

Democrat Medal Contest.

The second temperance oratorical contest for the week was held Thursday evening at Grant Street Christian church. There were six contestants: Beaulieu, Leslie Calder, Harold Thon and Ethel Espin of Omaha, and Kathryn Morhouse and Francis Utterback of Council Bluffs. The judges, Miss Pich, Miss Nellie Magee and Dr. W. E. Shepard, each decided for separate speakers and a count of the general average gave the medal to Miss Thon. Miss Thon, while the superintendent, Mrs. Edith Shiroku, felt impelled to call Miss Espin and Mrs. Thon forward and congratulate them on the excellence of their effort and nearness to winning the coveted gold medal prize. Mrs. Thon sang "Adrift," a little Elsie Hitch sang two solos and Mrs. Ora Hayes of Chicago sang "The House That Used to Be." There will be another gold medal contest Saturday evening at the Baptist church.

Building Permits.

Building permits have been issued to Edward L. Nelson for a \$150 frame dwelling at 506 North Twenty-third street and to J. D. Creighton for \$100 worth of alterations and repairs on the building at 1212 Farnam street. The National Brick Manufacturing and Construction company is preparing plans for the enlargement and improvement of its plant at Thirtieth and Boyd streets.

No Overcrowding at St. Louis

Ample Accommodations at Reasonable Rates.

The alarming and altogether erroneous reports which have been circulated from time to time regarding the probable overcrowding of visitors to the exposition and the lack of accommodations may be entirely discarded, as the arrangements which have been made in the Cascade City are such as to provide good accommodations and entertainment for all who come. Chief among the prominent hotels which have opened their hospitable doors is the Inside Inn, situated actually within the grounds of the exposition itself and erected under the supervision of the World's Fair management. It is three stories in height, is 80 feet wide, 100 feet long and contains 4,877 rooms in addition to its parlors and waiting rooms and a dining room and restaurant seating 2,000. The Inside Inn is under the direct management of Mr. E. M. Statler, the well known caterer of Buffalo, who maintains a high class, uniform cuisine and service for everyone of his guests.

The Inside Inn is run on both the European and American plans at rates ranging from \$1.50 to \$5.00 per day. European, and from \$2.00 to \$7.00, American, including admission in both classes, the range of prices being solely controlled by the size and location of the rooms.

The advantage of a large, comfortable and thoroughly equipped home-like hotel right inside the grounds will be once be obvious to all who remember the long and wearisome journey so often entailed both at the World's Fair in Chicago and at Buffalo by those who lived some distance away from the exposition. No admission fee other than the first one is needed, visitors being within the precincts of the exposition all the time. They thus save all loss of time, expenses of street cars, etc., and are able to devote the whole of their time to the pleasures and enjoyments of the exposition.

Reservations may be made for any date and full details regarding the many advantages of the Inside Inn may be obtained by addressing a postal card to The Inside Inn, Administration Bldg., World's Fair Grounds, St. Louis.

FIRE RECORD.

Elevator at Albin.

ALBION, Neb., Aug. 18.—(Special.)—The large grain elevator owned and operated by the Albin Milling company burned at an early hour this morning, with about 4,000 bushels of wheat which it contained. The fire was discovered about 1:30, and by the time assistance arrived the elevator was beyond saving. The heat was intense and the mill, which stood but a few feet from the burning building, seemed doomed to go also, and it was only by reason of the magnificent work of the fire company that it was saved. The burning cubers set fire to the Northwestern water tank, and the roof of the Nye, Schneider & Fowler lumber shed was afire several times, but these were extinguished without loss. The elevator and contents are a total loss, and the damage to the mill will amount to several hundred dollars.

WASHINGTON, Aug. 18.—Secretary Taft has fixed September 23 as the date for a hearing of interests involved in the appeal of the state of Missouri to have the United States take possession of the St. Louis Merchants bridge. Copies of the order will be mailed at once to all of the legal representatives of the companies interested and the secretary is desirous to afford the public opportunity to participate in the hearing.

Democrats Do Not Enthusiast.

The democrats of the First Ward—last night about a dozen of them—met at Hickory hall, at Tenth and Hickory, last night, but apart from generally picking about the wet did nothing much. The democrats unanimously endorsed the action of the state of Missouri to have the United States take possession of the St. Louis Merchants bridge. Copies of the order will be mailed at once to all of the legal representatives of the companies interested and the secretary is desirous to afford the public opportunity to participate in the hearing.
