New Autumn Silks for Shirt Waist Suits

The line of new silks for shirt waist suits is simply amazing.

Now is the time to make your selection. There is fine choosing at the present time among the small, neat plain-head checks on taffeta or Lonsdale grounds, giving a shot effect, a little dash or dot of some bright color scattered here and there, over which are small Jacquard figures of dots, brilliant stripes in small broken checks. These are to be the leading varieties for the coming season. \$5, \$10 and \$15 a yard.

Early Exhibit of Autumn Dress Goods

A most interesting collection is ready for you Monday morning. Styles that are right, giving you a correct idea of what women will wear this fall. The new mannish suitings, made from a fine worsted yarn, so tightly twisted that they show the quality and beauty, and show every cent's worth of coal in their texture. Rich quality and weave, are to be one of the favorite cloths of the year. We are displaying magnificent values at 50c and 75c a yard. Other qualities from \$1.00 to \$3.00 a yard.

Autumn's New Silk and Wool Dress Texture

Silk and wool dress goods remain master of the situation as far as strictly dress elegance goes. The great variety of styles in these pretty new goods, the softness of the color tone, together with their clinging nature, which is in harmonious accord with retaining style, have given them a lasting hold on popular favor. "Eloisene Pointille" is the shiest and finest, and is a great favorite. Crepe de Paris, Pointille Crepe, Crepe Colonne, etc., are all new comers, and will be greatly admired. If you are out of town and cannot come in, write us for samples.

During July and August we close Saturdays at 1 O'clock.

Main Stop Operations.

All the military operations in Manchuria have, it is asserted, been stopped by the rains. Telegrams to the War office describe the terrific effects of the torrential downpours. Many bridges have been swept away and even traffic on the railroad is temporarily suspended. During this heavy weather General Kouropatkin has been busy inspecting the defenses of Anshan-shan, Lian-shan-shan and Anping. It is understood that the garrison of Anshan-shan consists of only four divisions.

LAO YAN, Aug. 20.—Rains are stopping.

The weather is cool, but the roads are in such a condition that no encounter of importance is expected for a considerable time. The fighting of the last two days has been limited to slight skirmishes between outposts. A Russian garrison, mysteriously occupied Tanstapouda, a village a couple of miles southeast of Anping, and killed or captured seven Japanese.

Congratulations to Stoesel.

FATE OF PORT ARTHUR FORTRESS

A Jap Victory Will Be at Cost of Unexpected History.

ST. PETERSBURG, Aug. 20.—The foreign telegrams announcing that the final assault upon Port Arthur was projected for today have further stimulated in all circles the interest which has been undiminished for weeks past concerning the fate of the fortress. The authorities continue to express confidence in the ability of the garrison to withstand the assault, but they aver that should the fortress be carried it will be at a cost unequalled in the history of sieges.

STRIKERS SURE OF VICTORY

Donnelly Says that Peace Will Come After Unconditional Surrender.

TRUMP CARD AT CHICAGO TO BE PLAYED

Strike Leader Intimates that Next Move Will Astonish the Public—Men Getting Down to Active Work.

CHICAGO, Aug. 20.—"I see no peace in sight, except on condition that the packers surrender, and on unconditional terms. When the people see the report of last night's meeting of the Chicago Federation of Labor they will be astounded, and have a trump card to play and it has been drawn from the deck."

So said President Donnelly of the striking cattle packers today, while he was directing his assistants to go to other cities and while he himself was preparing to go to St. Louis to meet International Vice President Cass E. Schmidt, whom Donnelly will send to Kansas City to look after the labor situation there. He declared the action of Mayor Harrison in ousting the strike breakers from the housing rooms in the packing plants meant neither success nor failure.

Not since the strike began has President Donnelly seemed so hopeful. He criticized the action of the teamsters in sending a committee into the yards yesterday to make an investigation.

Criticizes the Teamsters.

"I don't see what the teamsters expect to do," he said; "if they don't like this strike let them go back to work."

On the subject of action by the Federation of Labor he was silent. He simply declared the report would prove sensational.

A National Election is Coming on.

"The labor vote is too powerful to be ignored. As soon as I get to Indianapolis, while I am away I expect to make several speeches."

"The mayor's action in declaring the packers shall no longer house their strike breakers is the hardest blow our foe has received," said President Donnelly. "The packers will not be able to get the breakers out of the plants and out of the yards. We will help them do that, if they need any help, and will see that the outgoing crowd are not hurt, but as sure as the sun rises the strike breakers will be able to get back to their places of work."

Injunction Against City.

The packers will apply to the courts for an injunction to prevent the carrying out of the city's orders that the strike breakers be no longer housed in the buildings in the stock yards. This was decided on at a meeting of the legal representatives of all the packing firms, here, that are affected by the strike.

Agents of the packers hurried about the yards today reassuring the nonunion men and rushing work rehabilitating barracks to be suitably separate from the slaughter houses. Arrangements were made to bring tents to cover available vacant space in the same purpose. Small circus tents were sent for to meet the emergency. Swift's car shops were soon taken possession of by carpenters who began fitting up the plant as a building for the same purpose. It was done with other buildings apart from the killing departments. Every effort was made to prevent a stampede of nonunionists. The packers declare it was successful and the exodus was no greater than usual on Saturdays.

Union pickets reported that the desertions were heavy and that the nonunion men were in a state of terror.

GOWNS RUINED BY THE RAIN

Half a Million Dollars Worth Destroyed in Showcases at St. Louis Fair.

ST. LOUIS, Aug. 20.—Magnificent Parisian gowns valued at \$500,000 are in a ruined condition in the Palace of Manufacturers as the result of the heavy rainstorm which swept over the World's Fair. The exhibition is made by Marcel Estieue, acting commissioner general of France, who has investigated the havoc wrought by the water. The gowns were exhibited by French dressmakers and were one of the most interesting features of the Manufacturers building. They were displayed in glass showcases, but the rain was driven through openings in the roof of the building and poured down on the cases, eventually leaking through and soaking the garments.

FIVE YOUNG GIRLS MISSING

Fail to Return from an Excursion After Berries and Searchers Are Busy.

EBENSBURG, Pa., Aug. 20.—Five girls, two daughters of Frank Cassidy of Altoona, two daughters of Robert Cassidy of Ebensburg and Miss Bamford, mysteriously disappeared from here yesterday afternoon and have not yet returned home.

They left the Cassidy home to go to the cemetery to plant flowers. With them they carried baskets, intending to gather a few berries after completing their task.

When they failed to return home last night searching parties were organized and kept up the search all night without discovering the lost ones. They were last seen leaving the cemetery at 4 o'clock in the afternoon and long afterward three negroes were seen going out the same road the girls had taken. This fact has given rise to the fear that the girls were attacked by the black men. Others believe they are lost on the mountains.
