EFFECT OF STRIKE ON RECEIPTS

Government Officers Make Public an Interesting Showing.

WASHINGTON, Aug. 22-Comparative eccipts of live stock during July at five western markets, as reported to the Department of Commerce and Labor through its bureau of statistics, show the extent o which the branch of domestic commerc uas been affected by the packing house strikes. Comparing July of this year with July of last year, there has been a decrease of over 1,000,000 head of live stock, or from 630,046 head in 1903 to 1,534,451 head in 1904 at the five markets of Chicago, Kansas City, Omaha, St. Louis and St. Joseph. Cattle receipts fell off 42 per cent; calves, 54 per cent; hogs, 39 per cent; sheep, 40 per ent, and horses and mules, 9 per cent. In the number of cars of stock handled the month's record shows a decrease in traffic

of railroads from 52,752 cars in July, 1908, to 30, 741 cars in July, 1904, or a loss of 41 per cent. The comparative position of the several markets may be seen from the following table showing receipts for the month of July, 1903 and 1904, with percentages of de-

PORT ARTHUR SQUADRON MAY SAIL

Admiral Has Been Ordered to Destroy Bonts or Leave Harbor. PETERSBURG, Aug. 22 .- \$:37 p.

The storming of Port Arthur, which the MANY foreign dispatches say is progressing, is riveting all attention. The brave, stubborn resistance which General Stoessel is

making is evoking high praise and the War office and public are hoping almost against hope that he will be able to hold

out in spite of the heavy odds against him. The latest news, that the Japanese are inable to establish a foothold at Louisa hay and at the most westerly fort of the inner defenses, is considered encouraging. An official dispatch from Rear Admirat Prince Ouktomsky at Port Arthur, by way

were killed on board the ships which returned to the harbor after the fight of Au gust 10, but his information about the condition of the ships is unsatisfactory, the admiralty explaining that he probably avoided going into specific details, owing to

the hands of the Japanese News that the Port Arthur squadron has again sallied out is expected at any hour, as Rear Admiral Prince Ouktomsky's orders are imperative to go on destroying his ships beyond the possibility of repair before the fortress falls.

The loss of the gallant Novik in a fight against two Japanese cruisers at Forsakovsky, island of Sakahlin, is not yet known here, as the authorities are awalting the report of Vice Admiral Skrydioff before making the news public. The cruiser, by

its exploits, had endeared itself to the whole country and its loss will create a more sentimental effect than that of any ship in the floet.

The efficial reports of the destruction of the Novik say that the gullant ship, which was in the harbor of Korsakovsk, sighting the two Japanese ships OD. iteamed out to meet them, and upon finding itself unable to sustain the unequal combat ran back to the harbor and was heached. Full details of the casualties are not ascertainable except that one officer was killed.
