as the result of some crisis, when we will realize that our gold standard is all wrong. We have no need of a gold standard. This thing of requiring a specie basis is all nonsense. The government has power to make money in any way desired. There is no money of the world, but every nation has its own money. Some day the people will change this and then there will be a mission for the populist party.

Lake Bed Surveys, Prof. L. A. Ashbaugh of the State Agricultural college has filed with the governor three reports of surveys of lake beds in northern Iowa, made under the direction of the state executive council, and he has nearly completed three or four other surveys.

SCHOOLS AND COLLEGES

LASELL

Seminary for Young Women, Aburndale, Mass.

Maintains the highest standard for intellectual development, but here, as in no other school for young women, the purely scholastic work is combined with a unique and practical training in the application of the various branches of Domestic Science.

Everything that a beautiful suburban location can offer for health, comfort and pleasure is secured at Aburndale—and each student's wealth of educational advantages and historic interest but ten miles distant.

What the woman should be, rather than what she can do, is her consideration of first importance.

Training the intellect at the expense of the body or at a sacrifice of womanly spirit and womanly grace is a condition that cannot exist at Laseil.

Specialists preside in all branches, and the school is kept purposely small in number of students to insure the best individual instruction and a true home atmosphere.

Everything that a beautiful suburban location can offer for health, comfort and pleasure is secured at Aburndale—and each student's wealth of educational advantages and historic interest but ten miles distant.

Many parents have written strong commendatory letters on the unusual quality of the school work. For outstanding information address:
