TRAIN OF FEDERAL TROOPS STOPS IN YARD

Create Some Excitement Among Strikers Until It Is Learned They Are Simply Enroute to Fort Sheridan.

CHICAGO, Aug. 24.—The city authorities are to make a second effort to settle the stock yards strike.

At a meeting of the city council tonight a resolution was passed empowering Mayor Harrison to appoint a committee of eleven aldermen, who are to make it their business to bring about a settlement.

There was some opposition to the resolution, a number of the aldermen declaring that in their opinion the result would be nothing. The resolution, however, was passed and the committee appointed by the mayor.

Invitations were at once sent to the leaders of the strikers and to the employers, inviting them to meet the members of the committee tomorrow morning.

President Donnelly of the butchers will be before the committee at 10 o'clock and in the invitation sent to the packers they were asked to appear one hour later.

The aldermanic committee has not mapped out any particular program, but intends to see what it can do, after it has listened to the statements from both sides.

Injunction Against the City.

Judge Theodore Brennan today issued an injunction restraining the city of Chicago from interfering with the logging of non-union employees in the packing houses at the stock yards.

The city announced that an appeal would be taken to the appellate court.

The injunction was issued in a test case brought by the G. H. Hammond company. Seven additional petitions were at once filed, following the decision of the court, for an extension of the temporary injunction to all the packing companies within the stock yards, with the exception of the Omaha Packing company.

In the Hammond case the city argued that the injunction was in controversy is not within the fire limits and cannot therefore be regulated by the fire or building ordinances of the city.

Judge Brennan asked that the additional petitions be left with him so he could look them over.

President Donnelly, the leader of the stock yards strikers, returned from Indianapolis today after having made an appeal to the miners' national organization for financial assistance in continuing the strike.

Donnelly had received no definite reply from the miners when he left. He declared, however, that he had every reason to anticipate results from his appeal.

President Donnelly conferred with his principal chiefs and then hurried to the regular session of the allied stock conference board, where he made a report.

Greeks Leave Packing Houses.

Thomas Stoker, business agent of the Park Collier Men's union, announced today that six non-union Greeks from the Armour plant had been initiated into the union, after which they returned to the stock yards encampment, promising to lead out 1,500 other non-union Greeks.

The majority of the Greeks are new arrivals from Ellis Island. They had their fares paid from the Immigration station. The Greek clergy and Greek business interests are reported as making every effort to influence the 1,500 to leave because of the strikers' action in declaring boycott against Greek business houses by way of reprisal.

Fifty colored women strike breakers left the stock yards today, proclaiming that they had deserted the packers. Superintendent J. C. Harris of Nelson, Morris & Co., however, asserts that the work of the women has been unsatisfactory and that they were discharged.

A scare was created among the strikers today by the appearance of United States regular troops on a train that rolled into the stock yards district, wholly unannounced. The train consisted of four Pullman cars, five flat cars loaded down with ordnance and two horse cars bearing the name and equipment of a battery of the Fourteenth United States infantry.

The battery came in from the east on route to Fort Sheridan over the Erie railroad. It stopped for thirty minutes at the Fortieth street entrance to the stock yards while the locomotives were changed and the horses were watered. Word quickly spread that the packers had succeeded in bringing federal troops to the relief and intense excitement resulted. The alarm died away when a Chicago & Northwestern locomotive was attached and hauled the troops on to Fort Sheridan.

GIRARD, O., Aug. 23.—Twenty strike breakers, accompanied by a large guard of special officers, arrived here today and after being reinforced by additional officers from the mill, the party was escorted into the plant of the American Steel Hoop company. The arrival of the non-unionists created much excitement and a large crowd followed the men on the march to the mill, but beyond shouting and jeering there was no demonstration.

After they had been safely housed within the property of the steel company the union strikers, who had been parading the streets all night, dispersed and are now in bed. Quiet prevails and no trouble is apprehended.

CARDINAL SATOLLI IS IN ROME

Fraternal Expresses Pleasure Over Visit to America.

ROME, Aug. 24.—Cardinal Satolli and his party arrived here today from Naples. The cardinal returns to Rome not only satisfied, but charmed with his visit to the United States, where he has been in one corner to another, everywhere, I was received with great respect and the most cordial hospitality from all classes of the people, Catholics and non-Catholics alike. I was especially pleased with my visit to the St. Louis fair, where I remarked with particular interest the large place given to educational matters and the great space given to the Philippines, with feelings of admiration, esteem and confidence in the progress and growing prosperity of the United States. While I feel for America a degree of affection and gratitude which will accompany me throughout my life, I must say that today the United States has a definite and grave task to perform before the civilized world, namely, to educate the Filipinos to a new social and political life, rendering them more advanced in economic prosperity, which may grow very fast considering the immense variety and richness of their products while watching that their civilization has religion as an unchangeable base. In this way in a few years the Philippines may form a strong and prosperous nation, inspired by justice, liberty and morality, and become a worthy daughter of the great American commonwealth, which will thus prove that in setting foot in the Philippines it did not intend conquest, but to undertake a high civilizing duty.

The sixteen companies carrying on principal commerce of the Mediterranean have formally decided that it was useless to continue their service and today began the withdrawal of all merchant vessels. The government has ordered a number of gunboats and torpedo boats to take up the Mediterranean mail routes.

Thus far there has been no disorder, but a large force of troops is ready to meet any disturbances. The companies engaged in the transatlantic service are not affected, but the strikers are seeking to extend the movement to Havre and other ports of departure for America.
